

# POOR DOCUMENT NOV 20 1915

THE EVENING TIMES AND STAR, ST. JOHN, N. B., WEDNESDAY, OCTOBER 16, 1915

## EVERYBODY NEEDS PURE, RICH BLOOD

Pure blood enables the stomach, liver and other digestive organs to do their work properly. Without it they are sluggish, there is loss of appetite, sometimes faintness, a deranged state of the intestines, and, in general, all the symptoms of dyspepsia.

Pure blood is required by every organ of the body for the proper performance of its functions.

Hood's Sarsaparilla makes pure blood, and this is why it is so successful in the treatment of so many diseases and ailments. It acts directly on the blood, ridding it of scrofulous and other humors. It is a peculiar combination of blood-purifying, nerve-toning, strength-giving substances. Get it today.

## Shortage of Coal Menaces Germany

New York, Oct. 16.—With cold weather close at hand, Germany is facing a coal shortage that threatens to be more than the one that caused so much suffering and so many deaths in the Kaiser's empire last winter, according to reports found in German newspapers reaching here. Many letter complaints over the failure of the imperial coal administration to take the steps for increasing the supply of fuel which would at least make it easier for them to endure the winter throughout the country are being printed together with letters from persons who have thus far failed to obtain any coal at all, despite having received their ration cards last spring and filed them with their local dealer months ago.

Even Superior Mining Council for East Prussia, the imperial coal administration, does not venture to hold out any great hope for the masses of the people.

## MONTREAL TO USE THE LEARY VACCINE

Montreal, Oct. 16.—There is a possibility that the Leary vaccine for influenza, discovered by Dr. Leary, bacteriologist of Tufts Medical School, Boston, will be introduced and distributed in Montreal and elsewhere throughout the province to assist in the anti-influenza campaign. The matter will be considered tomorrow at a meeting of the central board of health.

Last week Dr. Bernier, bacteriologist of the board, and T. J. Lacombe, sanitary engineer, were dispatched to Boston to make an investigation of the Leary vaccine which has been reported since Spanish gripe became an epidemic on this continent. The two investigators returned yesterday and will make their report to the board tomorrow. In general, their report will be favorable.

## Diphtheria in Devon

Diphtheria has appeared in Devon, Mr. Robertson has the disease and some children also are said to be ill with it.

## Notice of Births, Marriages and Deaths, 50c.

## BIRTHS

MOORE—On October 18, to the wife of Pte. J. E. Moore, 122 Marsh road, son, Frederick William.

FOUGNET—On the 16th inst. to Mr. and Mrs. F. J. Fougnet, a son.

BLACK—On October 15, to Mr. and Mrs. C. B. Black, Manawagonish road, a daughter—Ruth Alberta.

## MARRIAGES

EMERY-CROZIER—At the residence of Mrs. William Redmond, Oct. 15, Bandman Harold E. Emery of the Depot Battalion to Ella M. Crozier, by Rev. Taylor.

McCULLOUGH-BARDELEY—ON Oct. 16th, 1915, at the Cathedral of the Immaculate Conception, by Rev. Fr. Duke, James Andrews McCullough to Florence Josephine Bardeley.

## DEATHS

CUNNINGHAM—At her mother's residence, 64 Adelaide street, on the 16th inst. Bertha Haad, beloved daughter of Letitia and the late Robert Cunningham, leaving her mother, two brothers and one sister to mourn.

Funeral on Friday afternoon from her mother's residence, service 2:30 o'clock.

HARVEY—At Pleasant Point on the 16th inst. Joseph Harvey, leaving his wife, one son, his mother and one brother to mourn.

Funeral private.

MCGRAITH—At his residence, 77 1/2 Waterloo street, on October 15, Thomas McGrath, aged 71 years, leaving one son and five daughters to mourn.

Funeral on Thursday from his late residence, 189 Leinster street. Service at 2:30 o'clock.

PARLEE—In this city, on the 16th inst. Victor M. Parlee, aged thirty-five years, leaving his wife, two children, his father and mother and five sisters to mourn.

Funeral this afternoon (private) at 8 p. m. from his late residence, Lancaster avenue.

GROGAN—At Montreal, Oct. 12, Thomas William Arthur, infant son of Thomas and Maude Grogan, aged one year twelve days, leaving father, mother and one sister to mourn.

Funeral at 2:30 Wednesday from 47 Market Place, W. E.

IRVING—At the manse, New London, P. E. I., on the 15th inst. Daisy Irene, beloved wife of Rev. George W. Irvine and daughter of Hon. John and Mrs. Agnes of Alberton, P. E. I.

DONOVAN—Suddenly, at Pokioke road, on October 14, John James, youngest son of Patrick and Margaret Donovan, leaving his parents, one brother and one sister to mourn.

Funeral Wednesday afternoon at 2:30 o'clock from his parents' residence in Pokioke road.

WILLIAMS—Suddenly, on the 15th inst. at the home of her daughter, 124 Duke street, Clarissa J. Williams, aged ninety-four years, widow of Charles Williams, of this city.

Funeral Thursday at 2:30.

## Simple Remedies Given in Letter To Boston Paper

A Telegraph reader sends in a letter which appeared in the Boston Transcript about three years ago, giving what purports to be a cure for pneumonia. He suggests that while the remedy given may not prove a cure-all in the present epidemic, and should not be used without the advice of a physician, yet it has proved effective in checking colds in several cases which came to his notice and he gives the letter for what it is worth. The letter follows:

Dear Nonni—Being a reader of the Boston Transcript nearly every day, I was shocked to learn by last Friday's issue of the large number of deaths from pneumonia the last ten weeks in Boston. Also quite a number from a gripe, especially as these two ailments are specially cured by the simple remedies that I have given you. This "Remedy for the cure of pneumonia."

"Take six to ten onions, according to size, chop moderately fine and put in a large spider or stew pan over a hot fire; let them cook for a few minutes, then add about the same quantity of yeast meal (if rye is not obtainable, use Indian), then add vinegar enough to form a thick paste, and mix with your hands, stirring it that it may be thoroughly heated. In the meantime have two cotton bags made large enough to cover the lungs. Fill one and apply to the chest as hot as the patient can bear, and in very severe cases it is well to apply the bag also. During this, prepare another poultice to take the place of the first, and apply in ten or fifteen minutes, then the first can be re-heated and applied again. Generally three or four applications will clear the lungs and the patient be out of danger."

This simple remedy I firmly believe would have saved the lives of every one of the large number named in your paper, Friday of last week. It is remarkable that double and typhoid pneumonia yield just as readily to it as cases of milder forms.

"To prove this I will mention two or three cases. A friend of mine several years ago (Mr. Bolon Wilder, treasurer of the Boston Society of the Sons of the American Revolution, of Lancaster, Mass.), was stricken with double pneumonia. Dr. Hartwell, of Ayer, medical examiner, said there was no hope from the first, as there was no known remedy for double pneumonia, and his family doctor gave him up the day previous to my seeing him. It was only by the earnest entreaty of his brother that I was induced to go and apply the remedy. I found him just faintly breathing, and I doubt if he could have lasted more than one or two hours at the longest when I applied the first poultice, as only a portion of his lungs was in active action. His lungs cleared and he could speak in his normal tone of voice. He was in danger, and in a few days was able to attend to his daily duties.

This simple remedy cured one of the worst cases of the typhoid type of this disease that I have studied, the male patient's name was John R. Pease, a farmer in the north part of this town. In delirium he would tear at the coverings of his chest and throw them against the side of the room as fast as the attendants could put them on, and was only a nearly all night, until the remedy could be kept on long enough to clear his lungs, when he was completely cured. I think, by blinding them to the family physician, Dr. Godfrey, was saved, and I have never seen him since, but as soon as the lungs were cleared the fever and delirium left him, and in a few days he was able to get about as usual.

My friend, the late Dr. John Ulrich, one of the most successful physicians of Boston, used this remedy for several years, and told me that he never failed, after a few days' treatment, to cure it, having sixteen in one winter, one of which had been given up by two physicians, yet this remedy saved them all. Dr. John McCollister, of Waltham, told me that he never lost a case, using this remedy more than twenty years ago, when several of which had been given up by other physicians.

The gripe—This disease is caused by inhaling its poisonous germs, that float in the atmosphere, and while those that cause fever, the germs in the system and will find their way always to the weakest part, generally the heart or lungs.

Genuine la gripe can be told from a severe cold by a peculiar distressing feeling in the head, followed by pains in the cords of the neck down to the shoulder. The germs then are in the stomach, and if two tablespoonfuls of lemon juice be taken, the poisonous germs will be killed, and the cure is accomplished. I have never known this to fail when taken within three days after the attack, although I have seen a person where the disease was so far advanced that the patient died, yet cured within twenty-four hours, and in a few days after took his seat in the legislature, to which he had been elected. This was during the scourge about fifteen years ago, when over a thousand died in Boston alone.

Yet there was one physician who used this remedy that never lost a patient out of the many he treated, while they were dying by scores under the treatment of others.

Truly the foolish and weak things often confound the wise and mighty.

HENRY S. BROWN,  
Littleton, Feb. 22, 1914.

## Will Your Widow Dress as Well as Your Wife Does?

A queer question? Well, perhaps—but it's intensely serious.

It means, in other words—Have you made adequate provision for your family in the event of your sudden death?

Not a pleasant thought, maybe, but a far more unpleasant one is that the wife and little ones you love and cherish may next week be left penniless and dependent upon the charity of friends.

But by investing a few dollars a year in an Imperial Home Protection policy you can ensure that they will be comfortably provided for even though you should die next week. And they deserve that much sacrifice on your part—don't they?

Write today for our booklet, "The Creation of an Estate." You never know when you may be uninsurable.

## C. P. R. PROMOTIONS

A. D. MacTear, Vice President in Charge of Lines East of Port Arthur; D. C. Coleman West

Montreal, Oct. 16.—E. W. Beatty, the new president of the C. P. R., announced yesterday afternoon two important new appointments. A. D. MacTear, vice-president in charge of lines east of Port Arthur, with office in Montreal, and D. C. Coleman as vice-president in charge of lines west of Port Arthur, with office in Winnipeg. Both Mr. MacTear and Mr. Coleman will report to Grant Hall, vice-president of the company in Montreal.

Mr. MacTear was born in Scotland in 1867. He entered the service of the C. P. R. in 1887, commencing as a steno-grapher in the baggage department. He became assistant to the superintendent of sleeping and dining cars in 1888. From 1891 to 1899 he was in the car service, stores and fuel departments, and from 1899 to 1907 he held the position of general fuel agent, when he was appointed assistant to the vice president. In December 1912 he was appointed general manager of eastern lines.

Mr. Coleman was born in Carleton Place, Ontario, in 1879. He was in the C. P. R. as a clerk in the assistant engine's office in Port-Walton in 1897, and as a clerk in the baggage department in 1900. He was appointed as a steno-grapher in the baggage department in 1901, and as a steno-grapher in the baggage department in 1902. He was appointed general superintendent of the Manitoba division at Winnipeg, in 1912, and in 1913 he was appointed general manager western lines, Winnipeg.

## BURIED TODAY

The funeral of Victor M. Parlee took place this afternoon from his late residence, Lancaster Heights. Services were conducted by Rev. E. A. Westwood. Interment was made in the Church of England burying grounds.

The funeral of Mrs. Matrice L. Nicholson, a clerk in the assistant engine's office in Port-Walton in 1907, and as a clerk in the baggage department in 1900, was held at the Methodist church, St. Patrick street, today. Services were conducted by Rev. E. A. Westwood. Interment was made in Cedar Hill.

The funeral of Guy Oscar Parlee took place this afternoon from his late residence, Rodney street. Services were conducted by Rev. E. A. Westwood. Interment was made in the Methodist church burying grounds.

The funeral of Thomas J. Bowes took place this afternoon from his late residence, Brassy street, to the cathedral, St. James street. Services were conducted by Rev. Robert Fraser. Interment was made in the new Catholic cemetery.

Members of the O. H. and C. M. B. A. walked in a body.

The funeral of Arthur L. Ellis took place this afternoon. Services were conducted by Rev. R. P. McKim. Interment was made in the Methodist church burying grounds.

The funeral of John Donovan took place this afternoon from his parents' residence, Pokioke road. Interment was made in the new Catholic cemetery.

## REGENT DEATHS

Miss Margaret MacGowan died Saturday evening at her home in Memramcook. She was seventy-six years of age and leaves one brother, John, at home.

Stephen P. Taylor, died at Ashland, Oregon, at the home of his daughter, Mrs. Johnson, wife of Dr. Fred Johnson.

Mr. Taylor was born in Kings County, and had made his home in Sussex for many years. His wife formerly Miss Stockton, survives him. He leaves one son, S. S. Taylor, a prominent barber, of Vancouver (B. C.), and two daughters, Mrs. Taylor, wife of Judge Taylor, of Edmonton, Alberta, and Mrs. George, wife of Dr. Fred Johnson, of Ashland, Oregon.

At New Maryland, Allen T. Lipsett, aged thirty-three. He leaves a wife and three children, and is also survived by his parents, three brothers, John, George and Harry, at home; four sisters, Mrs. Eldon Boome, North Devon, Mar. 15, May and Mary at home.

Mrs. Annie Duplisa passed away at Fredericton Junction, Monday, at the age of seventy-five.

The death of Mrs. Mary J. Wetmore, relict of C. P. Wetmore, formerly of St. John but latterly of Boston, occurred at the home of her niece, Mrs. C. P. Edgcombe, Fredericton, Saturday evening.

## WAR NEWS OVER STOCK BROKERS WIRE

(J. M. Robinson & Sons private wire telegram.)  
New York, Oct. 16.—Steel takes \$10,000,000 more Liberty bonds, making a total of \$50,000,000 on this loan and \$14,000,000 of all issues.

A director of Mercantile Marine says negotiations for sale of company's British ships are progressing and only final details remain to be settled.

Berlin dispatches say Socialists have decided in view of general political situation not to oust the new chancellor.

Total Liberty loan \$2,954,870,000, with only four days to go.

Dispatch to Sun says information reached London that there has been a radical change in government at Berlin, extent and circumstances of change matters only of speculation up to present moment.

## TOTAL OF CASES IN THE CITY IS 213

(Continued from page 1.)  
Dr. G. G. Melvin, chief provincial medical officer, said this forenoon that he had no new cases to report. He was officially requesting that all city cases be promptly reported at the local board of health office, so that the definite number of cases be known at that bureau.

## NEW HEALTH DEPARTMENT'S GREAT TASK

The present international epidemic breaking out in the very midst of the organizing of the new health department's various branches throughout the province has imposed upon Hon. W. F. Roberts, M. P., father of the Health Act, his newly appointed deputy, Dr. G. G. Melvin, a Herculean task. It is for them to issue the orders and general instructions which place the situation under government control and with sub-officials appointed in only a few districts because of the suddenness of the outbreak, they are carrying on an uphill fight of the most strenuous kind. However, besides these official duties, he is very fruitful and it is complimentary to New Brunswick's health legislation that the Canadian cities are now following our example in many important particulars, though not before the influenza epidemic has run its course.

## PROVINCIAL HEALTH OFFICERS

in this city do not get their provincial reports until late in the afternoon or night. Since the epidemic has commenced they have been in conference here and in telephone communication with various parts of the province as late as two and three o'clock in the morning. Hon. Dr. Roberts, besides these official duties, has a widespread local practice that scarcity of professional help makes it imperative he attend to it up to last midnight.

## More Bodies From States

Today's American train had on board four more ex-military provincial specialists aboard, destined to Nova Scotia parts for interment. Yesterday the same train brought seven corpses from the territory and the daily average is about four. In nearly every case Spanish influenza is the cause of death.

On today's train one of the bodies was that of Miss Minnie Sheehan, a train nurse belonging to the staff of the State Hospital, Taunton (Mass.). She will be buried at her old home in Meteghan (N. S.).

B. J. Sheehan, a brother, accompanied the body.

Another body was that of Karl A. Faust, son of Julius A. Faust, of Boston. The lad is to be interred at Digby where his grandparents live. The boy's parents accompanied the casket. The Faust family have been living in Boston for a good many years.

## Fredricton's Report Today

Fredricton, N. B., Oct. 16.—In accordance with instructions issued by the Board of Health of Fredericton, the physicians of the city are beginning to make reports of the cases of influenza, which they are attending. Up to noon today Secretary Dibble of the board had received reports of fifty-two cases, with several doctors yet to report. All these cases, however, are not the so-called Spanish influenza. There is little doubt, however, that that number can be multiplied by four to get the total number of cases of influenza in Fredericton.

Neighboring places also are severely affected by the disease. Devon, Barker's Point and Maryville all have numerous cases. From Marguerville today the report was that that section seemed to have escaped the epidemic well.

The by-law prohibiting spitting in the streets and public buildings, which has been rather a dead letter for some years, is to be rigidly enforced.

An effort is being made to have a military medical officer detailed for duty in Stanley and vicinity. Capt. Alder E. Gerow, C. A. M. C. of this city has been instructed to proceed to Albert County in connection with the outbreak there.

For Use as Hospital.

The trustees of Thorne Lodge, I. O. G. T., have generously offered their hall at Thorne avenue for use as a hospital for influenza patients. This course of action was decided upon at a meeting of the trustees held on Saturday and the hall has been forwarded to the minister of public health. The hall, which was built only a few years ago, is a good sized structure and could be fitted to accommodate about thirty beds. Owing to the epidemic regulations, no meetings of

## Victims of Epidemic

Yesterday's Montreal Transcript reports the following deaths:

On Monday, Fred Shaw, accountant with the tramways company, aged 26 years.

On Sunday, Angus LeBlanc, aged 17 years.

At Salisbury, on Monday, Walter, son of Miles Wortman, aged 39 years.

At Sunny Brae, Sunday, Sarah A. daughter of William Cliff, aged 37 years.

In Moncton, Saturday, James, son of A. Baikirk, aged 8 years.

On Saturday, Cecil, the little son of Corey Blakely.

At Painesburg, on Sunday, horses, wife of William Powers, aged 22 years.

In Moncton, on Monday, Telephone T. Cormier, aged 30 years.

On Sunday, at Sunny Brae, Vera A., aged 7 years, daughter of William J. Hadden.

In Moncton, on Monday, Mrs. Eva Mitton.

On Sunday, Blair LeBlanc, aged 17 years, son of A. D. LeBlanc.

On Monday, Mrs. Edgar Doyle, formerly Miss Thorne.

At Harrold, Monday, Pte. Edgar L. Francis, aged 29 years. He has three brothers in France.

On Tuesday, William Melanson, aged 18 years.

On Tuesday, Frank H., son of Hiram Smith, aged 18 years. A sister died on Saturday and two other children are ill.

On Sunday, in Charlottetown, Miss Ada Bradbury, formerly of Moncton.

On Monday, in Moncton, William L. Listerick, aged 27 years.

## Fredricton (Fredericton) Gleaser

The prevailing epidemic is getting such a foothold in the city, and incapacitating so many people, the local health officials met in special session, today, to formulate methods for meeting might necessitate assistance.

It was decided to again request all physicians to report cases of la gripe, pneumonia, as well as Spanish influenza, in the past one physician was complying with the request. Up to noon today, twenty cases of the so-called Spanish influenza had been reported to the board.

It has been decided by the officials not to placard the houses where the cases are, but the occupants of the houses will be notified not to allow any one to go in or out. This measure is being carried out in other cities and is proving very satisfactory.

Several households are reported with all occupants down with la gripe, and no one to take care of them. One home in particular was unable to bear the expense of a nurse. For cases such as this the inspector was authorized to try and arrange with one or more nurses to daily visit such places in order to administer the proper care and attention.

The physicians are kept constantly on the jump, and some of them are tired out from the many demands made upon them, but are keeping everlastingly at their work endeavoring to check the epidemic from developing into pneumonia.

Two deaths occurred at the Military Hospital Saturday night—Nursing Sister Agnes Alpaugh and Q.M. Sgt. Roland Richards.

Miss Bessie Parsons, aged twenty-six, daughter of Sgt. and Mrs. John H. Parsons, is dead. She is survived by her parents, three brothers, Edward, Francis, Alden and Robert at home; two sisters, Mrs. Frank Brown, city, and Dorothy, at home. Two brothers, William and John were killed in action overseas within the last fourteen months.

Among the recent victims of the influenza in Boston was Dr. John Sverlow, of Dorchester, who passed away on Sunday, October 4, after an illness of less than a week. He is survived by his widow, who was Miss Jennie Rogers, of Gt. Boston, a sister of Howard Rogers, of Fredericton.

## PERSONALS

Friends of Mrs. John A. Barry will be pleased to hear that her condition is considerably improved today. She has been seriously ill during the last few days.

Hon. Sydney Fisher of Brome, P. Q., passed through the city at noon en route to Truro.
