WHAT is natural gas?

Natural gas is the result of the Washington never favored or meant with a perfect radio. the question of rate equalization to the Railway Commission, asked that board to investigate measures for the encourter independence, that the Revolution was only a civil war, and sement of the movement of traffic through Canadian ports. But much books' tradition" in no way resembled water has gone under the bridges be-tween June and January. During that been given. He described Washington tween June and January. During that time another crop has been harvested, and as the grain began to move in the late autumn and early winter it was seen that a greater proportion of it than ever was going through American channels. Widespread discussion of the facts by many Canadian newspapers from coast to coast brought the issue sharply before the public, and it was soon recognized that the main purpose leading to the construction of the National Transcontinental was being defeated, and that the declared determination of Liberal and Conservative governments that Canadian traffic should be carried on east and west lines, were not being lived up to. Not only the economic loss but the danger to Canadian unity was brought out sharply.

The Best of Advice

When I was one-and-twenty
I heard a wise man say,
"Give crowns and pounds and guineas
But not your heart away;
Give pearls away and rubies,
But keep your fancy free."
But I was one-and-twenty,
No use to talk to me.

When I was one-and-twenty
I heard him say again,
"The heart out of the bosom
Was never given in vain;
'Tis paid with sighs aplenty
And sold for endless rue."
And I am two-and-twenty,
And, oh, 'tis true, 'tis true.
