INFANT MORTALITY. This is the month when infants die, and although the number of deaths this season is small in comparison with some other years, yet the mortality is the cause of comment. Since the first and in the majority of cases the cause of death has been cholera the cause of death has been cholera from New York for Charlottetown, P. E. I., returned to City Island on the 27th, and reported: Aug. 25, at 4.30 p. m., when about 12 miles W. S. W. of Gaton's Neck, L. I., a heavy N. W. squall carried away flying jibboom and split mainsall, foresall, forestaysall, jib, outer jib and foretopsail. The ves-E L. returned to City Island on the sel will repair at City Island.

cough, which was responsible for quite a number of deaths, but this has about university has often been asked what his middle initial stands for, but was generally evaded a direct answer. The other day, however, he said that the cholera infantum gets in its work and during the last couple of months many "N" stood for "Nothing." This, he pro-ceeded to explain, was actually true. He had never been given a middle name and so gave himself a middle in-
