THE COTTON MARKET IS UNSETTLED

New York, June 12.—This morning's news was conflicting. Cables were a shade lower than due, advice concerning the Manchester market were such as to emphasize the unprofitable character of past business if not such as to create apprehensions of organized short time and there was further fear of liquidation. On the other hand the week end figures were moderately bullish. Fall River sales which included the Borden purchases were very heavy and the weather had showed considerable rain in central sections of the belt where the continuation of dry weather would have been considered desirable. On the whole the effect of the news was to promote evening up for over the week end rather than fresh ventures on either side of the account and fluctuations in consequence have been narrow and irregular. The opening was steady at a decline of one point to an advance of four points, the market sold about 3 to 4 points net higher right after the call then weakened to a net loss of about 2 to 3 points and during the latter trading ruled close to the final figures of the previous day. There seems to be plenty of people to buy cotton on a scale down but those buyers are not yet following the market up in an aggressive style which might promote a movement of consequence.

CROPS IN GOOD SHAPE

Montreal, June 13.—Advices to the Ogilvie Flour Mills Co. to date covering all districts in the Canadian northwest show all crops making excellent progress and conditions generally much better than same time last year.

At the conclusion of the evidence at the trial of Mr. Hanson, the witness Mr. Shute was sworn, and told what he had seen of the assault, his evidence being practically the same as that given when the case came before the Police Magistrate. He told of seeing Hanson assume a threatening attitude towards Mr. Crockett, and called out to the parties Hanson had made a motion of striking at Mr. Crockett, and saw Mr. Crockett's hat fall to the ground when he was struck.

At the conclusion of the evidence at the trial of Mr. Hanson, the witness Mr. Shute was sworn, and told what he had seen of the assault, his evidence being practically the same as that given when the case came before the Police Magistrate. Continued from page 1.

Mr. Carvell's examination included the House of Commons debates, unreviewed edition for 1909, in the month of February, Mr. Hanson objecting that the unreviewed edition was inadmissible as evidence, and also that anything said by a member in the House was privileged. His Honor admitted the report on limited grounds and subject to objection. Mr. Crockett's cross-examination was concluded without the elucidation of any new facts in connection with the case.

Dr. W. C. Crockett was then called and gave evidence that Mr. O. S. Crockett, the plaintiff, had appeared at his office at about 1 o'clock on the day of the assault. His right cheek was red and swollen, to the extent that it was noticeable. It was also still noticeable on the evening of that day. A slap with the open hand, would not in his opinion, have caused a similar mark.

A. E. Hanson "On the War Path." Col. T. G. Long, Deputy Surveyor General, was next called. He told of a conversation addressed to him by A. Hanson between some time in February early in March, in which Hanson referred to Mr. Crockett's remarks in parliament, and stated that he intended to slap Mr. Crockett's face. Witness in a conversation later jokingly warned Mr. Crockett that he was on the war path. In the cross-examination by Mr. Carvell, Col. Long could not recollect having asked Hanson if he had seen in the papers what Mr. Crockett said about him in parliament. He was quite certain that Hanson had opened the conversation, and Dr. Crockett was recalled and asked whether the bruise and swelling on Mr. O. S. Crockett's cheek were not said to be the result of ten or so slaps.

Would Not Take Chance

When court opened at 2.15 this afternoon counsel opened the case for the appellant, calling Mr. Arthur A. Shute as the first witness. Mr. Shute's evidence was mainly a resume of that he had given in the Police Court. Mr. Shute is the witness who says Hanson used his open hand to strike Mr. Crockett previous to the second blow, which was given with clenched fist. In all other respects his evidence tallies with that of the witness who saw the assault. Mr. Crockett cross-examined the witness and was frequently interrupted by opposing counsel, while Mr. Shute seemed inclined to qualify many of his statements.

During Mr. Crockett's cross-examination of the witness, Mr. Shute, the counsel's table was thrown back by an attempt on the part of the prisoner (Hanson) to coach his Worship Mayor Chestnut as to his evidence. The Mayor, however, was heard to whisper: "I know just what I saw; don't you bother in this matter. I can tell what I saw." At the conclusion of the evidence Mr. Shute, his Worship Mayor Chestnut was sworn, and told what he had seen of the assault, his evidence being practically
