### WHAT A MAN WITH EXPERIENCE SAYS

**R. S. Horn Buys Farm in  
Province, Confident He Can  
get Larger Returns Here  
than in B. C.**

(Woodstock Press.)

Satisfied that New Brunswick has its advantages over the Western Provinces, R. S. Horn, who is now residing in Lincoln, Sunbury county, is convinced that he made no mistake in moving from British Columbia to this province.

Mr. Horn in August last sold out his farm in the much-advertised Okanagan Valley of British Columbia and came to New Brunswick. Through A. H. Wilnot, the Dominion immigration agent in charge of the New Brunswick office here, he bought half of the Dr. Peake property in the parish of Lincoln and about nine miles below Fredericton.

One of the type of hustling, hard-working Englishmen who succeed in Canada, Mr. Horn had spent almost ten years in the Canadian West. For four years he had been at Red Deer in the mixed farming district of Alberta, and then went to the Okanagan Valley of British Columbia to farm for five and a half years. It will thus be found that he spent a long enough period in the West to know whereof he speaks.

His attention to New Brunswick's opportunities for settlers with moderate capital was attracted by the literature sent out by the Provincial government. "I read the pamphlet entitled 'New Brunswick the land of Comfortable Homes,'" said Mr. Horn to the Standard, "and it impressed me greatly. Contained in the pamphlet were testimonials from recent settlers telling of conditions they found them and I went to several of those giving testimonials and they replied verifying their statements in the pamphlet and giving me further glowing reports as to the possibilities here."

"The result," he continued, "was that I sold out my property in British Columbia and came to New Brunswick. I am convinced that \$1 capital will bring better returns to the settler here than \$2 in British Columbia."

"I sold my farm of 40 acres in the Okanagan Valley at \$200 an acre, or a total of \$8,000," he said, "and with \$4,000 invested I know I can make just as large, if not larger, returns here. While you may not be able to produce quite so much, farm properties are so much cheaper here and prices are almost equally as good in all cases and somewhat better in many instances. I don't intend to run down British Columbia, but I am simply delighted with things as I have found them here," declared Mr. Horn with all the enthusiasm of a Westerner, "and New Brunswick is the place for the settler with moderate capital."

Speaking of prices for farm products in British Columbia, Mr. Horn, who was himself engaged in market gardening and truck farming, said that last year potatoes had been selling for 60 cents a barrel there, while twice and three times the amount was paid here. Late reports from the Okanagan Valley quote \$8 and \$9 per ton, as the price for potatoes with a charge of 10 cents each for bags and all potatoes have to be put in bags. He had heard from one man who had sold his plums for one cent per pound.

The scarcity of unskilled labor and the consequent inflated wages demanded was proving a serious handicap to farmers in British Columbia, Mr. Horn asserted, and he referred to a recent letter from his former home saying that \$2 per day was the minimum wage for unskilled farm laborers with Chinamen demanding 40 cents an hour.

Mr. Horn plans to have an orchard on his Lincoln farm, to plant about 7 or 8 acres in potatoes next spring as a starter and also intends to raise some live stock, finding that there is a good market with satisfactory prices for horses of all kinds. Lately he has been engaged in getting out lumber from off the wooden portion of his property and will use it in the erection of a modern bungalow next spring. The St.

INTERCOLONIAL RAILWAY  
CALENDAR FOR 1913.

Bringing visions of comfortable and luxurious travel through a territory unrivaled for scenic beauty, the calendar of the Intercolonial Railway just received with the company's new traffic department is warmly appreciated as a happy reminder of past enjoyments and as an inspiration for future travel.

The calendar is as usual very handsome and is printed with exquisite taste. On a hand tooled background of maple leaves is an oval centre picture printed in quadra color showing the Ocean Limited speeding through a scene where ocean and land with a setting of fleecy clouds combine to form a very beautiful picture. Over this is the emblematic moosehead encircled with a halo of scarlet with the words "The Fast Line—The Peoples Railway" in pale yellow.

Set in the four corners are the reproductions of the I.C.R. booklets descriptive of Quebec and the Maritime Provinces.

The lettering is done in white with gold outline while the tab is of chocolate brown with white figures showing prominently, the statutory holidays being marked by squares of shaded white and gold. On each side of the tab in white lettering on a tablet of gold are some cheerful facts concerning the splendid through trains the Ocean Limited and the Maritime Express. The design of the calendar is greatly enhanced by a surprising of gold on a background of maple leaves.

As a reminder of the Intercolonial and its fine train service it is excellent. As something both ornamental and useful for office use it is much to be desired.

**Had Rheumatism**  
WAS CONFINED TO HIS BED FOR FOUR MONTHS.

Mr. W. H. Riley, Russell, Sask. writes:—It is with the greatest pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Kidney Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who has me then would not know me now, as I am strong and active since taking your valuable medicine.

Rheumatism is caused by the presence in the blood of uric acid, and the kidneys not working properly is the sole cause of this, and unless you remove the uric acid from the blood, there is no possible chance of getting rid of rheumatism.

Doan's Kidney Pills help the kidneys to get rid of the acid and poisonous impurities which have collected, and thus clear out the kidneys, and dispel the rheumatism from the system.

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto.

**MOTHERHOOD SUGGESTIONS**  
Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once children because of the nervous strain of caring for the child, and a distinct change in the mother results.
