Tracadie—Hay crop, fair; wheat and oats, potatoes and roots and vegetables, poor; fruit, has a good appearance, Near-ly all the crops are backward.

SIMMER SCHCOL (F SCIENCE, A rangements for cussions at St. Stephen--

The Course Outlined.

rangements are now perfected for the ession of the Summer School of Science here from July 22 to August 8. Calais and St. Stephen governments have made appropriations for the entertainment of arrangements.

to a successful term. Excursions will be arranged to points of interest. Calais wait for formal introductions. When you arranged to points of interest. Calais and other cities in New England will send students to the classes. This will give the sessions opportunity for the display of international friendship. There will be three classes of subjects taught, Physical science, embracing phys-ics, chemistry, geology and mineralogy; Biological Sciences, including botany, zoology,physiology and entomology; mis-cellaneous, including literature, music, ed-ucation and drawing. Certificates will be avarded after a reasonably strict exam-

"Are you engaged for the next?" awarded after a reasonably strict exam-ination by the president and secretary associating with them the lecturer in each department. The following courses of study will be taken up by the members of the faculty appointed for the different subjects "No."

bination that suggested possibilities. We were now pretty close to the Daisy, and the lady was plainly visible. Her back was toward us, and the red sunshade, hanging She Was a Fair Deceiver. over her shoulder, concealed her figure as

far as the waist. Jimmy was studying her She loaked a typical summer girl. And most intensely. although dancing in August may sound as Suddenly he clutched my arm, and said much out of season as tennis on Christmas in a voice full of tragedy: "I believe it's

t le girl in gray." "What! The girl you met on the pier and did not meet at the station? Fancy any lady having the inexcusably bad taste details of her costume-pale blue blouse, to prefer old Watson's company to yours." I could not conceal the sarcasm, for I felt that it served him right, Jimmy did not

seem to appreciate my sympathy. Suddenly the lady turned round, and it was my turn to be surprised. "The girl in blue," I gasped.

array, we might as well get on the water.

We therefore went for our bikes, and reach-

WANTED.

**UUIIIPICU: INSULY** OI HIG **RAI**. The war between the British and Boers is ended and we have now ready in a few days the complete and authenito history of this eventful struggle, covering the whole field of contest, historically and otherwise. The causes, origin, progress, lessons, terms of surrender and issues of the war are all set forth in the most readable and facin-ating style. Besides a record of the war, this book contains a comprehensive history and description of the countries, their inhabi-tants and resources of the entire rection of South Africa. A large volume profusely il-lustrated, including special portraits of volunteers who went to the war from all parts of Nova Scotia, New Brunswick and P. E. I. We want agents everywhere to handle this book. Best terms guranteed. Canvassing outfit and full particulars mail-ed free on receipt of 10 cents to cover cost of postago and wrapping. Address R. A. Morrow, Publisher, 69 Garden street, St. John, N. E.

is so well adapted to children

Castoria.

I recommend it as buy promy nown to me." D. A. ARCHER, M. D. Brooklyn, N. Y

Therapia, European Turkey, July 14-Another severe shock of earthquake is reported to have occurred at Salonica.

The following deal charters are reported: British steamer Mantinea, 1,737 tons (or sub), from Miramichi to West Britain, with deals, 37s. 6d.—August-September; Norwegian steamer Hirundo, 1,343 tons, from Miramichi to Garston, with deals, 41s. 3d.—August 15; Norwegian steamer John Christie, 974 tons, from Pugwash to Preston, with deals, 40s.— late July. Also the following lumber char-ters: British barque F. B. Edgett, 491 tons, from Bear River to Rosario, p. t.; British schooner Robert Ewing, 329 tons, from Eag Chaleur to New York, with ties, 14½c.; British barque Luarca, 632 tons (previously), from Weymouth (N. S.) to Buenos Ayres of Rosario, p. t.; British barque Hillside, 439 tons, 'rom St. John (N. B.) to Rosario, \$9.50. When the French General Bourbaki re treated into Switzerland before the Ger-mans in 1871 his army of 84,000 men had 10,000 horses, which were sold to the Swiss. The animals, which were called "Bourbakis," are now all dead but one, which is being cared for by a butcher in

lozzi for his successors and others in all he had brought with him for bathing pur-

Lates. Lates. Lates. Laglish literature, Miss Eleanor Robin-son, St. John (N. B.)—A course of 12 lectures on Tennyson's Idylls of the King will be given. The aim is to assist in the intelligent reading of the Idylls. Geology, Prof. L. W. Bailey, Ph. D., University of New Brunswick—The fol-lowing will be some of the special sub-jects considered: The distinctive features of minerals, and the recognition of the more commonly occurring kinds; rocks, their relation to minerals; how minerals and rocks reveal their history; some of the changes to which rocks are liable; the arrangements of rock masses; stratified

the changes to which rocks are liable; the arrangements of rock masses; stratified and unstratified rocks; the relation of rock masses to physical geography; the velation of minerals and rocks to human history and interests. Kindergarten, by Mrs. S. B. Patterson, Truro Normal School—This course con-sists of a combination of theoretical and practical work.
