

PARLIAMENT OF CANADA.

Special Telegram to the Tribune. Interesting to Dishonest Managers of Gas Light Companies—The Appointment of a Pacific Railway Investigating Committee.

OTTAWA, April 9. There was as great a rush to the galleries of the House yesterday as I anticipated, but the debate did not meet the expectations of the spectators. It was too decorous for the scene-loving public. After Hon. Dr. Tupper had given notice of a resolution providing for the official inspection of gas meters and the testing of the purity of gas furnished for consumption, Sir John Macdonald moved for a committee of inquiry into the charges contained in Mr. Huntington's motion in reference to the Pacific Railway. He explained that Mr. Huntington's motion had been treated as if it had been because it was regarded as a want-of-confidence motion. It had been voted down, and now he was ready to give full opportunity for enquiry. He proposed to give the committee power to sit during recess, and to examine witnesses on oath. The investigation must be judicial and exhaustive. Mr. Mackenzie denied that Mr. Huntington's resolution was want-of-confidence. He was glad the Government had been compelled to concede the investigation asked for. After some discussion as to the manner of empowering the committee to examine under oath, the committee was elected, namely—McDonald of Preston, Hilliard Cameron, Blanche, Blake and Dorion. A resolution to permit the tariff of Manitoba to remain unchanged for the present passed, and the House went into Committee of Supply.

PROVINCIAL LEGISLATURE.

Special Telegram to the Tribune. HOUSE OF ASSEMBLY.

FREDERICTON, April 9. The rates and taxes bill was agreed to with important amendments. Mr. Gillespie introduced a bill relating to distress for rent. The rest of the afternoon was taken up by the discussion of the Chatham Railway bill. Hon. Mr. Kelly explained the bill. There were eight miles of road to be built, and a company had been formed with a capital of \$50,000. The Government proposed to give a subsidy of \$4,000 a mile and take stock to the amount of \$8,000 a mile—\$56,000 altogether. The bill was opposed by Lindsey, Covert, Hubbard, Huntington, Maher and Lashby, and supported by Napier, Crawford, Beckwith, Coram, King and Ryan. Mr. Gillespie moved to increase the subsidy to \$10,000 a mile. The motion was ruled out, as money motions must be made by Government. Mr. Gough said he would accept the bill, and a few minutes afterward, announced that he had decided to oppose it on account of the insufficiency of the subsidy. Mr. Adams said he was opposed to it, but did not give reasons. Mr. Huntington's motion to throw out the bill was lost by a vote of 18 to 23, and the bill was agreed to.

To-Day's Proceedings.

Hon. Mr. Crawford's bill relating to the storage of petroleum in St. John and Portland was agreed to. It provides that owners may store petroleum in any quantity in buildings the fitness of which is certified by the Chief Engineer of the Fire Department of St. John. Hon. Mr. McQueen committed his bill relating to the New Brunswick Railway Company. Mr. Gough asked if it was a Government measure. The mover said the Government had agreed upon the provisions. The bill extends the time for building a bridge at Woodstock to 1877, and if not built by that time the Company forfeits 400,000 acres of land. The Secretary, answering Mr. Hilliard, said the bill does not relieve the Company from the performance of any part of the contract, but only extends the time for building the bridge, and gives Government the power to withhold 400,000 acres of land in case of failure. An additional section was added, making it compulsory on the company to provide sufficient accommodation for freight and passengers, and it was agreed to. Dr. Palmer committed his Albert Railway bill. Palmer, Hubbard, Huntington, Lindsay, Phillips, Beckwith, strongly supported the bill, and Willis, Ryan, Adams, and Crawford as strongly opposed it. A motion to postpone 3 months was lost, and the House rose.

The circulation of the DAILY TRIBUNE is rapidly increasing. The brig Ottawa captured from the Wreck Commissioners and taken to St. John. The brig Ottawa was out of the ice in the Bay some time ago by Albert County men and brought to St. John, as related at length in THE TRIBUNE. Mr. Reed, one of the owners, came from Boston and offered the lady sailors \$1500. They refused the offer, and demanded \$2,000 and expenses. Mr. Reed declined to pay the sum asked, and suggested that the vessel be libelled, which would give proper security to pay whatever might be accorded by the Admiralty Court. The sailors, however, did nothing, and Mr. Reed threatened to have a writ of replevin served on them. Then the Ottawa was placed on board. Last night the steamer Albert went along side the brig, and preparations began to be made for taking her to sea. The watchman came on deck, vainly protested against the proceedings, and left in search of a policeman. The steamer towed the brig out, and she proceeded to sea. Mr. Reed is still in town.

The police made no arrests last night or yesterday. A case of assault between two young men of the colored persuasion created amusement for those who were present. Augustus Delph had John Bailey arrested for an assault on him Saturday night. Delph said Bailey came up and knocked his pipe out of his mouth and struck him. Bailey, on the cross-examination, asked him if he (Delph) didn't want to "fight him for four cents," and say "he could beat him every day in the week." Delph denied it, also said he didn't have a razor in his boot-leg. Bailey first said he was only a boy, but said he had a child at home three months old. The Judge fined him \$5, and told him to give the balance of what he should have been fined to his child.
