A Few Blunt Facts About the NATIONAL

The National Cream Separators are constructed to suit the needs of the Canadian farmer.

The bowl device consists of only two or three simple parts, making it extremely easy to clean, and guaranteed to skim close.

The simplicity of construction, together with the use of cone ball bearings at all speed points, make the National the most durable as well as the easiest to turn.

Has low milk can—short handle, and very handy to operate, perfect ratchet clutch, allowing outside gear to stop with the handle. Machine finished in hard black enamel.

Made in Canada by Canadian workmen.
