

Farming for the Future is a commitment of the Alberta Government, through the Alberta Heritage Savings Trust Fund, to support agricultural research of benefit to Alberta.

Financial assistance is available for studies having the potential to lead to increased agricultural productivity and improvement of net farm income, as well as the long-term viability of agriculture in Alberta.

Eligible research includes programs which have the potential to meet these goals and which would not likely be undertaken without support. Significance to northern agriculture is of major importance. Competence to carry out a proposed program, and commitment to complete the program, must be demonstrated.

Deadline for submission of applications for grants is December 1, 1981.

## Human Rights

**HAMILTON (CUP)** — Although some McMaster University officials have not read Senate proposals on improving human rights grievance channels, while others haven't even seen them, discussions on procedure changes begin next week.

"I can't remember what the proposals were," said Sheila Scott, dean of women and a member of the senate committee on Human Rights — the group that initiated the proposals.

Brian Harrison, dean of men, and also a Human Rights committee member, said he couldn't remember the proposals well enough to talk about them.

The suggested changes were circulated months ago, but the McMaster dean of humanities and the dean of graduate studies both said they had not read the proposals in detail.

"I haven't seen the proposals yet," said Alex Daschko, president of the McMaster Student Union.

The Human Rights committee report suggested amendments to current procedures at McMaster for handling human rights problems, including instances of sexual harassment. Presently, only a few brief lines in the university calendar suggest the appropriate dean for students to refer their complaints to.

The new channels, the committee proposes, would better inform students and faculty on procedures and actions at the option of the administration.

Ombudsman Bob Jarecki said the senate proposals are an important step in building better methods to deal with human rights problems, including sexual harassment.

## Win & Still Lose

**LONDON (CUP)** — A tuition lottery has been organized at University of Western Ontario.

Hoping to sell 3,500 tickets at one dollar each Western's graduate student society will offer five prizes representing a student's expenses.

Two prizes of \$1,000 will be offered representing one year's tuition. Two second prizes of \$500 representing one term's tuition along with a third prize of \$250 representing the cost of books.

The primary purpose of the lottery is not to raise money but to heighten awareness of the Federal Government's intentions for education funding.
