

Now it's even easier than ever to buy a member of the IBM Personal Computer family. New low prices make owning a genuine IBM PC more affordable than ever.

If you act before December 24, 1986, you'll be able to take advantage of promotional prices on selected IBM PC attachments too.

And only an IBM PC is an IBM PC.

NOW
NOW IBM LIST PRICES
HAVE BEEN
REDUCED!

IBM suggested list prices are down on a number of

IBM Personal Computers. Consider the IBM PC Model 166 for everything from basic word processing to BASIC programming, use the broad range of software available or open a direct line to campus data bases and get a headstart on your career.

So why buy a personal computer that claims to be "as good as" or "nearly the same as" an IBM PC when it's now so easy to own a genuine IBM PC?

There's never been a better time to visit your participating IBM Authorized Outlet.

To find your nearest IBM Authorized Outlet, simply phone IBM Canada Ltd. at 1-800-465-6600.

NOW IT'S TIME TO
LOOK AT SOMETHING NEW
AND AFFORDABLE!

Introducing
the new high-
performance
IBM PC XT
Model 286.

The new IBM PC XT Model 286

is a logical progression for engineering and computer science students, it makes improved performance more affordable than ever.

The IBM PC XT Model 286 is approximately 3 times faster than the other IBM PC XTs. This new model comes standard with 20MB storage and 640K user memory.

NOW THERE'S EVEN MORE
GOOD NEWS!

Until
December
24, 1986, you
can buy any

member of the IBM Proprinter family or an IBM Colour Monitor at promotional prices. There's no better time than now.

Only an IBM PC is an IBM PC
