MEMORANDUM FOR THE PRIME MINISTER:

C221195

April 13, 1943  
No. 11

I am attaching an able and very interesting analysis of the background of the Polish-Soviet difficulties from the Minister at Kuibyshev. The despatch was completed ten days before the Soviet-Polish differences culminated in the breaking off of diplomatic relations, and throws a good deal of light on recent developments. It is, I think, one of the best despatches we have received on any subject from any of our offices abroad.
