

species which have not as yet been recorded from Quebec province, I am including here those of which I have notes. Some of these are well known species, but it is thought well to include them, as they are new additions to the Quebec list. During the past year, as far as I know, no extensive collections of diptera were made in any part of Canada, but a number of specimens collected in previous years have been studied in 1911, and records of some of these are also given.
