Contractor's Hoist

This hoist is designed for use with our vertical engines and is intended for general contractor's use where a double platform elevator is employed, one platform descending as the other ascends. It is equipped with winch head on one side which can be used for elevating beams or other material that cannot be taken up on regular elevator. The drum sheave over which the elevator cable runs is placed on the other side of hoist. This sheave and the winch head are interchangeable so that they can be placed on either side desired. Can be operated by steam, gasoline or electric power.

EUREKA SUPREMACY IT IS SELF-

EVIDENT

Furnished with Steam, Gasoline or Electric Power.

The Eureka Concrete Mixer is adaptable to all kinds and classes of work. Easily moved and ready for work instantly when on the job. The measuring is automatic and guaranteed accurate and reliable.

THIRTY-SEVEN plow-shaped blades in an open mixing trough mix the material thoroughly, first dry, then wet.

In justice to yourself, it will pay you to know more about Eureka mixing. We have some astonishing evidence of Eureka superiority. Ask for it.
