The John Abell Engine and Machine Works, Toronto THE "DUPLEX" CORN & FEED MILL

Why the "Duplex" should be bought in pre-
ference to all others:

- 1st—Because it is a Duplex Mill, and having double
grinders, is capable of doing much more work
than any other mill the same size.
- 2nd—Because it is the only Mill in the world that
grinds on both sides of the revolving burr at
the same time.
- 3rd—Because it is the most perfect in construction,
the strongest and most durable.
- 4th—Because it produces better meal; does not
heat by long running, having no toe to get hot.
- 5th—Because the grinding rings cannot be injured
by the Mill running empty, and if broken by
accident can easily be replaced.
- 6th—Because it has a positive face feed, gradual
reduction plates, a continuous frame; and be-
cause it is the only Mill that grinds ear corn and
all small grain with equally good results.

Having secured the patent of the above Mill for
the Dominion of Canada, I am now prepared to
supply the "Duplex" Corn and Feed Mill.

TIME SAVED AND PROFANITY SENSIBLY DIMINISHED WHEREVER

THE DANDY PATENT BAG-HOLDER

gets a footing. Quite indispensable to Farmers, Millers, Postmasters, etc. No hooks or clamps to wear
and tear the bags; they hold on by their own tension, as close as "a hungry cow to a hay stack." It may
be readily attached to the front of a grain-bin, the head of a barrel, the tail-board of a wagon, to a bar
screwed under the handles of a truck, to two staples or screw eyes, or any other suitable support. "Dandy"
took a special diploma at the Ontario Provincial Exhibition, 1887. A quick selling article for agents.
