

## Caught a Cold Which Ended in a Severe Attack of Pneumonia.

Too much stress cannot be laid on the fact that when a person catches cold it must be attended to immediately, or serious results are liable to follow.

Bronchitis, Pneumonia and Consumption are all caused by neglecting to cure the simple cold.

Mrs. G. W. Bowman, Pattullo, Ont., writes:—"Three years ago I caught a cold which ended in a severe attack of Pneumonia. Since that time at the beginning of each winter I seem to catch cold very easily. I have been so hoarse I was unable to speak loud enough to be heard across the room. Last winter, however, a friend advised me to try Dr. Wood's Norway Pine Syrup, saying it had helped her. I bought a bottle and before it was half used I was completely cured. I also find it a good medicine for the children when they have colds."

Beware of the many imitations of Dr. Wood's Norway Pine Syrup.

Ask for "Dr. Wood's" and insist on getting what you ask for.

It is put up in a yellow wrapper; three pine trees the trade mark; the price, 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

An old Pennsylvania German living in the mountains had a hard three hours' dusty walk to accomplish one morning and he rose very early to make his start. He had gone but a little way when he was overtaken by an automobile, which was probably the first that had passed along that way. The driver picked up the old man, and they were at his destination in about twenty minutes. "Danks so much awfully mit de ride. If I had known myself to be here already two hours in front of de clock yet I vud be at home fast asleep already to start unless I knew you vud not have picked me up since."

## CARRIED GLADNESS TO THIS HOME

Mrs. Annie Vanvorst's Heart  
Disease Cured by Dodd's  
Kidney Pills.

She found quick relief in the old reliable Kidney remedy, and advises all her friends to use Dodd's Kidney Pills.

St. Benedict, Sask., March 13.—(Special.)—Gladness has replaced the anxiety that reigned in the household of Mrs. Annie Vanvorst, of this place. For some time past Mrs. Vanvorst had suffered from Kidney Trouble and palpitation of the heart, and fears were entertained of those terribly sudden fatalities that so frequently accompany affections of the heart. But relief from both ailments was quickly found in the old reliable remedy, Dodd's Kidney Pills. In an interview, Mrs. Vanvorst says:

"I had palpitation of the heart, and my Kidneys were out of order. I took one box of Dodd's Kidney Pills, and found great relief. For a Kidney pill, Dodd's Kidney Pills cannot be beat. You may publish what I say, as it may be the means of benefiting others who suffer with Kidney Trouble or Heart Disease."

Pure blood is the basis of all health, and you can't have pure blood unless your Kidneys are in good-working order. Dodd's Kidney Pills never fail to put the Kidneys in perfect-working order.

### QUESTIONS AND ANSWERS. Miscellaneous.

#### ALFALFA MANURING AND DISKING.

I sowed a field to alfalfa and got a fair catch. Last fall I topped dressed it, using a manure spreader. Would you advise raking off what long straw and cornstalks that are on top this spring? Would disking be all right next spring, or is it more for older meadows? J. P. P.

Ans.—If there is much long straw and cornstalks, it might be advisable to rake off the rough of it so as to keep it out of the hay. We have never tried disking a field under these conditions, and should not consider it necessary. You might try it on a small strip as an experiment.

#### STALLION ROARS—PILING MANURE VS. LEAVING IN YARD—WIRE-FENCE BOUNTY.

1. There is a valuable Clydesdale stallion in our vicinity which roars. Is it advisable to breed a mare to that horse, and will the offspring be affected with roars, too?

2. Which is more advisable, to draw the manure to the field and pile in one heap, and let it rot there and plow under in spring, or to leave it in the barnyard and haul it out in little heaps in spring, and then have it plowed under?

3. We intend to make a wire fence along a side-road. Some townships allow ten cents per rod to any person making wire fence along the roads, because it does away with snowbanks in winter. Is this only a by-law, or is the Council bound to do so? FARMER'S SON, Ontario.

Ans.—1. It is not wise to breed to a roarer. The tendency to that trouble is considered hereditary.

2. It depends on conditions. Probably on level land, the best plan is to haul out to the field as made, and spread on the land. On rolling fields, intended for corn or turnips, it is probably better to deposit in small piles, or else stack in large, neat piles, and distribute early in spring with the spreader. While the manure will be preserved in the barnyard with little waste, if kept fairly well together and trampled with stock, the work of hauling in spring is so heavy as to render this plan uneconomical under most conditions. Avoid conditions which favor fermentation. Rotting means waste.

3. Wire-fence bounty is purely a local affair, brought into effect by township by-law.

#### ORCHARD QUESTIONS—PIG PASTURE.

1. What time in the spring is the right time to plow an orchard?
2. How deep should it be plowed?
3. Is it best to sow rape on it; and, if so, what time should it be sowed, and how much should be sown to the acre?
4. Is it all right to turn pigs on the rape, and how far advanced should the rape be before the pigs are turned on?
5. What is the right time to prune an orchard?
6. Is it best to plow the rape under and sow clover in the latter part of the summer?
7. How many pigs will two acres of red clover pasture, and, in pasturing pigs, is the clover enough for them, or should they get grain with it? H. S.

Ans.—1. As soon as the land is in good plowing condition, or as promptly thereafter as may be convenient. In your locality, it should be done early in May.

2. About as shallowly as it can be plowed, and a good job done. Run the plow very lightly near the trees; it may go 3½ or, possibly, 4 inches deep in the center of the spaces.

3. Some cover crop should be sown the last of June or early in July. Rape is not a very good cover crop for a bearing orchard. Common Red or Mammoth clover is better. Vetches and alfalfa are also excellent. The cover crop, of course, is to be plowed under the next spring.

4. As a rule, the cover crop had better be allowed to grow without any pasturing.

5. June is the best time, but March is generally preferred, because there is then more time to do the work.

6. No. See answer to question 3.

7. It all depends. The pigs should be fed meal and skim milk or whey, if available. Then two acres of clover would graze quite a herd.

### GOES OVER THE ROUGHEST ROADS WITHOUT LIGHTENING THE LOAD

Equip your wagons with T-K Wide-tire Steel Wheels, and eliminate all annoyances and trouble incident to travelling over bad roads. You can load and unload in half the time required with wagons fitted with wooden wheels, and no matter how rough the road, or how heavy the load, these wheels will stand the strain that would put others out of business in no time.

**TK**

#### WIDE-TIRE STEEL WHEELS AND HANDY FARM WAGONS

T-K Handy Farm Wagons are the best kind of wagons on earth for all sorts of hauling, and will last a lifetime without repairs. They combine all the best features that are to be found in any wagon, irrespective of price, besides several other features of superiority exclusive with us.

Write to-day for literature that will help you save money on the farm.  
Address: Tudhope-Knox Co., Ltd., Orillia, Ont.

Write for Free Book and Special Prices To-day.
