

TUBULAR--or "Back Breaker?"

When you see the waist low Tubular you can't be driven into buying a back-breaking, "bucket bowl" separator. Can and crank are just the right height on the Tubular. Here is the largest Dairy Tubular along side four "back breakers." The girl with her hand on the Tubular is 5 feet, 4 inches tall. This is an exact reproduction from a photograph. Which kind for you? Makers of "back breakers" try to get their cans low by setting the cranks low. High cans break your back backward—low cranks break it forward. Unless you are a double jointed giant, you'll find a high can is no joke. To show you how high these "back breaker" cans really are, when the machines are set high enough to turn easily, we raised these "back breakers" 'til their crank axles were level with the Tubular crank axle. "Back breaker" makers don't like this picture—it's too true. They try to squirm out of it. You wouldn't like turning cranks as low as "back breaker" makers put them.

The low can is only one of many advantages Dairy Tubulars have over all others. Dairy Tubular bowls are simple—"back breakers" are complicated. Tubulars are self-oiling—no oil holes to fill up. "Back breakers" are oil drippers and oil wasters. To learn a lot more about Tubulars, write today for catalog N-16.

Carnefac Wishes for its Patrons
A Happy and Prosperous New Year.

There are thousands of users of CARNEFAC in this fair Dominion who write us of the pleasure and the profits we have brought to them. By the use of CARNEFAC they are now able to keep their horses sleek and healthy, always ready for work or market; their cows flowing milk every month in the year; their steers going to the block a year younger; their calves are a joy to look at, and their hens laying in January as in June. (Those letters make us happy.)

This is no idle dream, but cold, solid facts: from the far east to the farthest west the shrewdest farmers send to us for CARNEFAC. They are delighted with it, and with our system of dealing. There are many stock foods, but only one CARNEFAC, and there is nothing can take its place.

THE CARNEFAC STOCK FOOD CO.
