She brought to this city the whole of the survivors of the wreck. The wreck has resulted in the certain loss of nineteen persons, most of them belonging to the crew, and five men, including the third officer, still missing in one of the boats. The passengers and crew saved nothing but what the stood in. As usual, and as what unhappily hap pens everywhere when a wreck occurs, the shore people behaved very badly. BY J. W. DAWSON, LLD, FGS. Principal of McGill College. Montreal, Author of " Acadian Geology, &c Principal of McGill College, Montreat, Author of Academic Medical Geology, &c.

Nosubject have of late years more occupied the attention of thinking men than the alleged discrepancies between the Mo-hao and t-sological accounts of the origin of the world, and the antagonism of many of the recent theories of the origin of the human race to the account given by the inspired writers.

It affords the Publishers great pleasure to bring under the notice of the public a book on a subject so interesting and important by an author whose abilities are so well shown both in Europe and America, and who is so well sitted by his previous studies for the treatment of such tepies They feel convisioned that it will at once take a high rank among the public tions of the English and American press, read will form a welcome and valuable edition to Christian as well as to scientific literature.

The work will be pullished early in November. It is will contain 420 pages, and will be printed in a bold, clear type, in a manner to compare havorable with publications of a similar character in other countries.
