consultation with Prof. Woods of Harvard, who made the autopsy on the bodies of Mrs. Gibbs and Mrs. Gordon Mr. Holmes said that there have been eleven suspicious cases of death in houses at which Miss Toppan was employed as a nurse, and they are all being investigated.

Mr. Holmes admitted that there is a ossibility of the bodies of Alden P. Davis and his wife being taken from their graves in the Calumet cemetery for an autopsy, and he would not be surprised, he said, if the body of Mrs Edna Bannister, who died August 27th at Lowell, is exhumed and examined. Something may also be done to determine the cause of death of a patient in Watertown, whom Miss Toppan attended before the Davis family died. This patient, Mr. Holmes has been told,

was ill but a short time. During Miss Toppan's stay at Calumet there were several mysterious fires in the Jachin house, of which Alden P. Davis was the proprietor, and the

Davis cottage adjoining. Information has been given to Mr. Holmes that when Miss Toppan lived in Cambridge there were similar fires, which people were unable to explain at the time of their occurrence.
