that was coming to it, the Opposi tion's proposition is very clever, but it would be vastly more expensive to this country than the Government's proposal, and it is not need-

ed and is not practical. "The Opposition tries to make it appear that Canada is taking a cowardly position hiring Englishmen to the front, on the firing line, instead of going herself. This sounds ve:y plausible and is valuable no doubt, for political purposes, but will not bear scrutiny. There is no fighting line, and we do not expect any; what we want to do, and what needs to be done, is to build a defence about Britain and British interests that no one can have the least hope

of getting over. "We want the ships built in the best manner and at the lowest cost, and that certainly cannot be done in Canada, and we want them, when built, to be placed where they will be of the most value, if ever needed and that would not be as individual units in the North Atlantic and Pacific oceans."

Referring to the "extraordinary political turnover" that occurred on September 21 1911 lineabathary political turnover" that occurred on September 21, 1911, his lordship GREAT PREPONDERENCE have justified the country's action. the members present, the Reeve in No. 22 in Brantford Township. Mr. Borden was always recognized the chair. as a man of honor, and he has shown himself a man of ability as well as a devout churchman. The rector of "The maritime supremacy of St. Paul's Church, Halifax, told me there was no one for whom he had a higher respect or more affectionate regard because of the consistency of

> The tribute to Premier Borden concluded with these words: "A man whom the country can trust."

Covers 30 blocks, comprises scores of monumental structures, with 33 miles of tracks underneath.

New Grand Central Terminal

A wonderful city within a city built for the · comfort and convenience of the traveling public.

The main Grand Central Terminal Building in New York is now lines of local traffic-subway, suropen to the public. This vast improvement is more than a great railway Terminal-it is a Terminal City, complete in itself, providing every detail essential to comfort and convenience.

It will embrace convention, amusement and exhibition halls, hotels, clubs and restaurants; post office, express offices, modern apartment and office buildings, and numerous stores and specialty shops.

Grand Central Terminal is the Heart of New York at Forty-second Street and Park Avenue (4th Avenue), one block from Fifth Avenue and convenient to Broadway.

face and elevated. More than 7,000 cars pass its doors every day, affording easy transit facilities to any part of New York. Around it, within a radius of a few blocks are forty-nine hotels, fifty-eight clubs and thirty-five theatres.

Three new lines of underground transportation are now building to Grand Central Terminal, and soon there will be six levels of human traffic in Forty-second Street.

Below the Terminal City under all its buildings and streets are 33 miles of railway tracks on two

It is the only Terminal on all separate levels, the upper for Through Service and the lower for Suburban Service.

> Each level forms a complete terminal in itself, separate entrances and exits, with equal facilities for the comfort of passengers.

> Both levels are reached by gently inclined walks, (no need to climb stairs) and no confusion, since incoming and outgoing traffic is separated.

> Ticket, Pullman, Baggage and other facilities are progressively arranged from waiting room to train, no step need be retraced.

Plan your trip East over the New York Central Lines; enjoy restful sleep on the "Water Level Route," three hours of picturesque grandeur along the historic Hudson and enter

The Heart of New York City

SOME FEATURES OF GRAND CENTRAL TERMINAL— THE LARGEST RAILWAY TERMINAL IN THE WORLD.

Area 30 blocks, three times larger than any other terminal. Excavation, 3,095,000 cubic yards, two-thirds solid rock. Sixty-seven tracks on two levels, aggregating 33 miles. Five miles of passenger platforms, level with the car floors. Eight hundred trains in and out of terminal every day, Passengers handled annually, approximately, 25,000,000. Thirty thousand people are accommodated at one time.

SOME FEATURES OF GRAND CENTRAL TERMINAL—UNSURPASSED IN USEFULNESS TO THE PUBLIC

Direct entrance to subways for New York and Long Island 54 elevators for passengers, mail, baggage and express. 48 ticket windows conveniently located in concourse. Taxi cabs and motor busses right under terminal roof. Women's private manicure, hair dressing and rest rooms Restaurant and lunch rooms with unique vaulted ceiling. Complete system of paging-friends are quickly located
