10 and lost 4; and McGinntiy won 10 | Splendid Showing Made by the Citize Soldiers on their March out last Night.

"Chacham is rapidly becoming military town," said one citizen last another of their march outs. really the regiment have no reason to complain of the interest shown by the Chatham citizens. Every march out, and the one last night was no exceptook place yesterday. The score was ception, has been witnessed by crowds of citizens who throng King street and loudly applaud the splendid efforts

of the soldiers. Before the march the Regiment was drilled by the Colonel on Tecumseh. Park. The marching of the Regiment is almost perfect, the credit of which is largely due to the splendid music

furnished by the band. The non-coms. will run an excursion to Port Lambton to-night. The band will be on board and will furnish music for dancing. It is expected that the excursion will be largely attended.

FAST TIME ON THE CENTRAL

When the Empire State Express rolled into the Grand Central Staahead of schedule time, a run that the nairpad officials considered wonderful; though non a necord breaker, was completed. The pas-sengers, were so pleased by the achievement that many of them stopfend their wickets by the visiting cap-tain, who won the toss. The first tain, who won the toss. The first three men made a good start, put-ting on 12 for the first wicket and 41 for the second, but after that the side collapsed and simply made a proped to congravulate the engineer, "Denny" Cass, n, at veteran of the road, as he stood as the gangway of No. 2,994. Eassin had made up about the run from Abany-143 miles. To de that the great train had to make the trip in 143 minutes, which means a top speed of sevenny miles an hour for the greater part of the distance, for there were awd slow downs for water from track troughs, and four or five in passing through bowns and oven function points.

When he drew out of Adbany Cassin knew that extraordinary time must be made, for he was almost thirty-two minutes late; the special bearing the 9th Regiment home was to follow the Empire State, and a clean track was wanted. The big clear track was wanted. The big engine, one of the new Central-Atlantic type, did more than was expected of her.—From the New York Troune.

Note.—In should be born in mind

that this train weighs 682,000 pounds and that it has a carrying bapacity
