OLD RUMOR IS REVIVED THAT KITCHENER WILL RETIRE

Sir Bindon Blood Named as his Possible Successor—More Peace Negotiation Talk—A Fierce Fight.

London, July 27.—The Cape Town correspondent of the Standard, confirming the rumors which have been in circulation for a fortnight in London, says:—"Mail advices say it is reported in Pretoria that Lord Kitchener will give up his command August 31, and proceed to England, where he will remain five months, then taking over the supreme command in India, and that Sir Bindon Blood is expected to succeed him in South Africa."

A DOUBTFUL RUMOR.

London, July 28.—U. S. Ambassador Choate has left London for Holland, says the Daily Express, not for a holiday, but—so rumor states—at the invitation of Mr. Kruger, who desires him to act as a mediator in bringing about a settlement. It would naturally be supposed that a settlement could not take place without the irrefragable Dr. Leyds, but if Mr. Choate has gone to Holland, Dr. Leyds has left the country for Brussels, starting Saturday. No importance is attached to this rumor by the Daily Express, for the paper refers to it editorially in a facetious vein, as a "South African gooseberry."

BOER LEADER.

A Johannesburg despatch, dated July 27th, says: "Boer Commandant Spruyt, was killed yesterday while endeavoring to cross the Heidelberg."

FOUGHT FIERCELY.

London, July 27.—Telegraphing from Pretoria, under date of July 26, Lord Kitchener reports to the war office as follows:—

"A detachment of Steinbacker's Horse, occupying Bremerdorp, was forced to evacuate July 24 by a superior force of Boers, probably commanded from Amsterdam and Pieterb. The detachment fought its way to Lombob, a distance of 16 miles, losing ten killed or wounded and a few missing."

KING'S PRAYER

That a cure May be Found for Dread Cancer.

London, July 27.—"God grant that before long you might be able to find a cure for cancer or check its course." This sentence in King Edward's address to the delegates to the British Congress on Tuberculosis has been a subject of much private comment, and has given vitality to the gossip of some months ago that the King was affected with cancer of the throat, for which, however, there is no sort of foundation. In this sentence King Edward doubtless referred to the suffering of his sister, Empress Frederick of Germany, who is daily reported to be in a more painful condition, and whom King Edward is shortly to visit.

BAD BLOOD

Boers Angry at Their Fellows Who Take Oath of Allegiance.

Jamestown, St. Helena, July 26.—Bad blood among the Boer prisoners in St. Helena over the question of taking the oath of allegiance to King Edward has led to so much fighting and disorder that it has been necessary to remove those who have taken the oath to a separate enclosure. There were several severe encounters, and the vigilance committee of the irascibles subjected those who had taken the oath to indelible indignities. The ringleaders have been imprisoned in the fortress.

LOCAL FACTORY

The Peate Fuel Company Shipping Machinery for the New Works.

"The work on the Peate Fuel Factory is steadily progressing," said J. L. Scott to The Planet this morning. "The workmen are today finishing up the buildings. The engine" was shipped from Chatham today. After the buildings are completed the machinery will immediately be put in. The directors of the company hope to have the factory in running order by the 15th of September. This, however, is very uncertain, as it is altogether probable that a delay will be caused in securing the machinery. It will only take a week to install the machinery after it arrives."

GREY ARRESTED

The Man Who Said He Committed the Fosburg Murder in Custody.

New York, July 27.—William Lewis Gray, the man for whom the police have been looking in connection with the Fosburg case at Pittsfield, Mass., voluntarily surrendered himself to the detectives at police headquarters today. Gray was implicated by a woman named Olive Handyside, or Olive Gray, with whom she had lived. She alleged that Gray committed the burglary and the murder. Gray denied any connection with the case and said he told the woman the story in order to frighten her and make her leave him. Word has been sent to Pittsfield, and Gray will be detained until a reply is received.

SULTAN YIELDS

To Russian Demand, but Arrests of Servians Continue.

Constantinople, July 28.—Yesterday the Sultan agreed to comply with the demand made by the Russian Government for the release of Servians recently arrested in Albania, together with the restoration of the arms taken, and for the recall of Djemal Bey, the Matessarif of Prishtina, the instigator of the arrests. Notwithstanding this prompt compliance, the arrests were continued, and today Russia repeated her demand in peremptory terms. France is pressing for a settlement in connection with the French-owned docks, the contract calling for their purchase by Turkey. All the legations are making representations against interference by the Porte with the decisions of the sanitary council. The palace officials received the protests with the utmost serenity, replying that the Sultan is the Sovereign of Turkey.

W. E. Risip, City Passenger and Ticket Agent, 115 King street, will issue tickets July 24th, 25th and 26th to Chicago and return at \$8.70 each, good returning July 31st, and extension of time can be granted on payment of 50 cents in Chicago, good until 24th of August. He is also selling cheap tickets to Pan-American Exposition, Buffalo, and to Winnipeg and all points in the Northwest, special excursion July 23rd.

INSANE WARD

Rice is in Solitary Confinement at Kingston.

Kingston, July 29.—The convict Rice, undergoing a twenty years' sentence in the Kingston penitentiary for burglary, and who is also accused of shooting Constable Boyd, of Toronto, is isolated from all the other convicts in the penitentiary. He occupies a cell in the insanity department. His cell is the only one occupied in the entire corridor, so that his confinement is as solitary as it can be. The only person he sees is the guard who brings him his meals. Rice was placed in the insanity department not because he is suspected of insanity, but because the confinement would be more solitary, and he would not come in contact with any of the convicts.

VITROL FIENDS

Something Must Be Done to Stop the Horrible Crime.

Paris, July 28.—Agitation for legislation to provide some adequate punishment for vitrol throwers is again being started, this time by M. Goron, former chief of the Paris detective service, who says that something must be done to stop this horrible crime of blinding and torturing its victims. He cites the case of a handsome girl who was vitrolized by a rival. One eye was burned out and her nose and mouth eaten away. Her appearance is so repulsive that the authorities of the Beaujon hospital, where she was taken, could not give her any employment because she frightened the patients.

Meanwhile the girl who threw the vitrol, after a few months' imprisonment, married the young man over whom the trouble arose, and is now living happily, while the other, it seems, is destined to starve or be driven to suicide. M. Goron considers the present conditions a direct encouragement to the use of vitrol as a weapon of attack.

HEARD 140 MILES

Were Reports of Fleet Firing at Late Queen's Funeral.

London, July 29.—A remarkable record has recently been brought to light concerning the distances at which the firing of heavy guns can be heard. These discoveries have an important bearing upon rain-making experiments and throw side lights upon the Sampson-Schley controversy. An expert named C. Davison made elaborate preparations to take observations of fleet firing when the late Queen Victoria's body was taken from Cowes to Portsmouth. The report of those observations established the fact that the reports of heavy guns were clearly audible at the extraordinary distance of 140 miles inland, while at a distance of 84 miles the reports were so loud that laborers in the fields put down their spades to listen, and at 61 miles from the guns windows were shaken and other symptoms of concussion were shown not usually connected with any but adjacent detonations. These statements bear upon the Sampson-Schley controversy inasmuch as Admiral Schley's statement made May 23, 1898, concerning the hearing of guns forty miles away, which he believed was the Spanish fleet, was received by many persons with considerable incredulity.
