King's Plate on a Journey.

The King's gold plate, which is worth intrinsically more than \$5,000, will make several journeys between Windsor and London this summer, when there will be an exceptional number of state banquets to visiting royalties at Buckingham Palace.

The royal treasure is kept in strong rooms at Windsor Castle behind locks that are regarded as absolutely burglar proof. When the plate is removed to London, it is packed in express wagons, bearing the royal cipher, and guarded by a number of detectives.

These walk unobtrusively on each side of the wagons, and to the casual observer the wagons are in charge of the drivers only. But they are accompanied every yard of the way by two of the palaces by a strong corps of detectives and a responsible household official, who never lets the precious freight out of his sight during the transit.

### "The Blood Is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It cures and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 668 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

## IRISH HATE THE ENGLISH

Redmond Declares They Are as Much Rebels as in 1798.

English Rule Is Still Detested—Spirit of Their Forefathers Still Exists—Hurled Defiance at British Statesmen—To Use Force In Securing Home Rule—Question of Expediency When They Will Strike.

Dublin, June 25.—John E. Redmond delivered an address at Wexford Sunday at the ceremony attending the unveiling of a memorial to Wexfordians who fell at the battle of New Ross in 1798.

He gave a defiant warning to British statesmen, saying:

"We tell England that we hate her rule as bitterly as did our forefathers when they shed their blood on this spot."

"We tell her that we are as much rebels to her rule to-day as our forefathers were in '98."

"We tell her that she can change that hatred only by granting freedom, and so long as she withholds freedom, it will remain merely a question of expediency how and by what means we will strike at the power that holds our country in bondage."

Dublin, June 25.—Charles J. Dolan, member of the House of Commons for Leitrim, North, has now decided to resign his seat in the House and appeal to his constituents for re-election.

Mr. Dolan at a recent meeting of the National Directory of the United Irish League, supported resolutions calling upon the Irish members of Parliament to resign. These resolutions were defeated, and later Mr. Dolan wrote to the senior whip, severing his connection with the Irish party, but declined to resign his seat.

### BUSY WHILE IN JAIL.

Mayor Schmitz Vetoes Appropriation of \$720,000 and Refuses Tax Levy.

San Francisco, June 25.—The Appellate Court has taken Mayor Schmitz's application for a writ of habeas corpus and bail under advisement.

Chief of Police Dinan and Acting Mayor Gallagher have clashed. Gallagher had signed, as mayor of San Francisco, a permit for a number of boxing bouts. Dinan refused to recognize the permit and would not allow the doors to open or the crowd to enter the place until the promoters of the fight got another permit signed by Mayor Schmitz.

From his cell in the jail Schmitz returned to the board of supervisors the municipal budget and a message vetoing the appropriation of \$720,000 for the reconstruction of the Gery street railroad.

Mayor Schmitz also objected to a special tax of 20 cents to raise revenue for the city government.

### ALASKA'S BIG BEARS.

Are Finest Flesh Eating Animals in the World.

Very few persons really know that the largest flesh eating animals in the world are found in America. People generally believe that the African lion is the king of beasts, but he is not nearly as large or as powerful as an animal as the large brown bear of subarctic America. The bears are not as ferocious or combative as the lions, nor are they nearly as vicious as they are given credit for being; but the largest of them are much larger and more powerful than any of the lions. It is safe to say that the largest of the brown bears of the North would weigh three times as much as the largest specimen of lion, and is beyond all question greatly superior in strength. If brought together in combat, the bear would at first appear very clumsy, says Scribner's Magazine. It would not be capable of the quick rush or the catlike spring of the lion. It would not attack, but would remain entirely on the defensive, meeting its adversary with blows of such rapidity and terrific force as at once to illustrate its superiority not only in strength but in action. I do not believe that there is an animal in the world that can act more quickly or effectively or can aim its blows with greater certainty than the bear. The large brown bears of the Alaska peninsula, south of Behring Sea, are among the largest bears of the world, and it is evident that there is no part of the world outside of America in which such large flesh eating animals are found. The bears are flesh eaters, or carnivorous, yet there are none of them that depend upon flesh for food, and with most of them flesh comprises but a very small percentage of their food.

### DOCTOR'S WIFE SUICIDES.

Swallows Morphine Tablets Owing to Domestic Troubles.

Brockville, June 22.—Mrs. Sadie Mulholland, wife of Dr. W. Mulholland of Havelton, committed suicide by swallowing morphine tablets. The woman's act is thought to have been due to domestic troubles.

The couple had disagreed, and the doctor took their child to the home of his parents in Massena. It was during his absence that she took the fatal dose. Some hours later she was found in an unconscious condition, and soon afterwards died.

### BLEW HIS CLOTHING OFF.

Powder Explodes But Man Was Only Slightly Injured.

Sydney, N. S., June 22.—While Norman McLeod was carrying some plugs of powder inside his clothing on the way to work yesterday morning, a spark fell from his pipe and set off the powder.

The explosion actually blew the clothing from his body and did damage to the street, but beyond a slight burn and a bad fright McLeod is none the worse for the experience.

### SMALLPOX IS PREVALENT.

Serious Situation in Leeds and Grenville Counties, Ontario.

Dr. R. W. Bell, inspector of the Ontario Provincial Board of Health, who has returned from a visit to sections of Leeds and Grenville counties—the third visit made within a recent period—reports a serious condition of affairs in regard to smallpox. This is particularly true of Matilda and Edwardsburg townships, in Grenville, and around the village of Athens, the township of Bastard and Malorytown and vicinity, Leeds county. There has been and still is a large number of cases of the disease which has spread because of neglect. In some sections the disease has been allowed to make way for the past two or three months without apparently the slightest attempt to check it. It has possibly been mistaken for chickenpox in some instances, the doctor thinks, but in others information of the condition of affairs has been suppressed with the idea of preventing business losses in the localities. There has been little or no quarantine and an almost total disregard of disinfection. Not only recovered patients but members of their families who have been exposed to the disease have been allowed to go to school or work all the time. While in a majority of the cases the disease is of a mild type, there are some very severe cases in the county of Grenville, the doctor says. An unfortunate feature of the outbreak is that one or two local doctors are making light of it, and the people are taking their cue from them. In the places which he visited on previous trips Dr. Bell he found that the necessary precautions were being taken.

### Sailor Signs and Tokens.

There is a general idea that the sailor labors under more than one pet superstition popular tradition assigns to each individual, says a writer in The Youth's Companion, but those who know him best declare that "lars who go down to the sea in ships" are no more superstitious than any of their equals in training and opportunities.

In the past superstition was a part of every ship; it entered into its keel, climbed to its flags, ran at its launching, controlled its crew and cargo, evoked portents and governed its ventures and arrivals. A bit of stolen wood was always mortised into the keel to make a ship sail fast. A silver coin was placed in the mainmast step to insure lucky ventures. The modern christening by the wine bottle arose from the ancient libations poured on the deck by priests.

On a sailing ship lawyers, women and the clergy are looked upon with disfavor, as they are supposed to bring ill luck. Every black cat that comes on board "carries a gale in her tail." Whistling is much against the prophecies of sea life. If one whistles for a breeze he is only too apt to bring a tornado. Ship bells are blessed, and to this day if a mistake is made in striking one it is immediately struck backward to break the spell.

The belief in the desertion of a sinking ship by rats is founded on reason, for rats like to be dry footed, and when a vessel is unsafe it becomes leaky under deck and too wet for the creatures' comfort. Figure heads were first images of gods, then of saints and sea heroes. Chinese junks bear two glaring eyes on their bows, for "No have two eyes how can see? No see how can go?"

Girls will smile through the years. Their eyes will always glisten with gloe.

They will never be hidden by tears. If they take Rocky Mountain Tea. A. I. McCall & Co.

## Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor. We have no secret! We publish Ayer's Sarsaparilla in all our preparations. Lowell, Mass.

# A Safe Investment

What Marshall Field Once Said

Real Estate in a good locality and in a growing village, town or city is the safest investment a poor man or woman can make. It cannot run away, bust up or cheat. My advice to a young man or woman who can spare \$5 or \$10 per month from his or her earnings is to put it into a small piece of mother earth. Even if it is only a small vacant lot. My first start in life was doing just what I now advise others to-day.

The above was the the advice given by Marshall Field in an address given to young men and women on **How to Succeed in Life.**

## The Elms Sub-Division

At head of King Street opposite St. Joseph's Hospital, presents to you the opportunity of your life. Lots in first block east of our sub-division sells at from \$18 to \$20 per foot. Ours at only \$11 per foot and some at \$7 and \$9 per foot, other lots at \$160 and upwards.

## Pay as You Like

You can own a lot in the Elms Sub. by paying \$10 down, \$5 per month, with only 5% interest, or you can pay whole, or any part just as you like. Perfect right, no mortgages or notes asked from purchasers, you get a land contract which you can bring into the Merchants Bank, Chatham and get credit thereon for whatever you want to pay or whenever you want to pay a little or more.

## CUT THIS OUT

When you have an hour to spare, take a walk up the Elms Sub-Division of No. 1, there you can select your own lot. As every lot has a white stake in the center of the lot and 22 feet back from the front lot line, which is known as the building line. On this stake you will find a white card, giving the No. of the lot, size and price. All sold lots have a red card marked sold.

Drop me a card to Garner House and I will call on you with full particulars, or you will find my city salesman on the grounds every evening from 6.30 to 9 p. m. Don't miss this opportunity.
