TO OUR CUSTOMERS.

We have just put in, at great expense, a WONDERFUL MACHINE, made by steam, work only passing through the rollers once; the result—Work is ELASTIC, WILL NOT BREAK, and will last much longer than when ironed by the old method, heated by gas, which has to pass through the rollers eight times.

P.S.—We have also added a newly invented machine to iron the edges of Collars and Cuffs.

Staff of Hotel Garner Pay Tribute of Appreciation to Mr. and Mrs. McColg—An Address.

There is not a traveller on the road, a boarder or servant in the Garner House, nor a business man of Chatham who is not sorry to see John McColg go out of the hotel business. During the last 21 months he has been proprietor of the hotel and during that time he has worked up the reputation of his house until it is today recognized as one of the very best managed hotels in Ontario. He is himself an enterprising business man, and a gentleman, courteous and obliging, and one of the Maple City's best-minded citizens and it is a source of satisfaction for all to learn that he intends to remain in Chatham.

Last evening the employees of the house—about 40 in number—gathered in the dining room and gave their departing employer a banquet and an address accompanied by a couple of rocking chairs. The affair was prepared without Mr. McColg's knowledge and he was greatly taken by surprise. After the banquet several speeches were made by Horace Davis representing the staff, and Mr. Mason, of the Maple City, representing the business community. Horace also sang. The following was the address: Dear Mr. and Mrs. J. N. McColg,—It is uncommonly regret and deep sorrow that fill our hearts on this occasion that you are giving up your retirement as proprietor of the Garner House. We have been so accustomed to having you here that we have longed for you as if you were our own. You have, during the last twenty-one months, at all times, treated us with a consideration that has stamped you as a gentleman and has completely won our affection. During the past six months, especially, when the hotel has been often overtaxed, you have displayed a courage and ability in its management that has won our admiration. We wish especially to pay tribute to your ability as a hotel man. We have with interest watched the system and discipline which has arisen out of the chaos attending the renovation of the hotel and you have, at all times, been a special pains to show us how to make the most of our work to establish a system which has made it better for our selves, but for you and better for the guests of the hotel, the fruit of which is your present reputation of the Garner House as "that Excellence."

JAPS TRIUMPH

Mikado's Men Score Several Victories Over Russian Forces.

PT. ARTHUR FALLING. Tokyo, June 29, 3:30 p. m.—It is officially reported that the Chik-Wan-Shan, Chit-An-Shan and So-Cho-Shan forts, south-east of and part of the Port Arthur defences, were captured on Sunday after an all-day fight, beginning with an artillery duel. So-Chou-Chan, it is added, was first captured, and the other forts fell soon afterwards. The Russians retreated west, leaving forty dead. The number of wounded has not been ascertained. The Japanese forces consisted of all branches of the service. The Japanese lost three officers and a hundred men killed or wounded, and captured two guns and a quantity of ammunition. The officials here do not confirm the report.

THE COMING BIG BATTLE.

St. Petersburg, June 29, 1:30 p. m.—The whole city is awaiting with breathless interest news from the opposing armies in Southern Manchuria, grappled in the decisive battle of the campaign. But these fully appreciating the almost impassable country through which the Japanese columns are advancing and the difficulty of moving large bodies of troops into position, hardly expect the battle to begin in earnest inside of several days, although admitting that heavy fighting is now in progress. The papers with the exception of the army organ and the Novoe Vremya, are unanimously of the opinion that a pitched battle is now certain. The former issued a special editorial on the subject, which may be significant, especially as General Kuropatkin's movements are shrouded in mystery. London, Thursday, June 30.—The Tokyo correspondent of the Daily Telegraph says that severe fighting took place at Chou-Chan on June 28, which resulted in the capture of that place on the morning of June 29.

FIGHTING FRONT OF 120 MILES.

The Tokyo correspondent of the Morning Post says that the Japanese second army has effected a juncture with the first army, and that the whole force now has a fighting front of 120 miles.

RUSSIANS DRIVEN OUT.

Chicago, June 29.—A special to the Daily News from Tokyo says: In fierce fighting which took place at the rear of Port Arthur, Sunday, June 26th, attack was simultaneous by the Japanese troops on three hills, which were strongly fortified. After an overwhelming bombardment Mikado's men advanced and drove out the Russians.

The Str. City of Chatham will not make the usual one way trip on Thursday, June 30th, or Friday, July 1st.

CLOSE CALL

Mischievous Lads Almost Derailed Pere Marquette Train—Detective Skirving's Good Work.

Detective Skirving reports that an attempt was made to wreck a Pere Marquette train, last week on the near Erieau. Two boys placed a steel cable across the rails near the past farm and when the work train came backing down with the men aboard, the wheels of the foremost trucks jumped the cable but fortunately stayed on the rails. Had they slipped a few inches the least bit, the whole outfit—train, workmen, engine and crew—would have gone down out of sight in the molky soil. Although many in the vicinity were questioned regarding the attempt at wrecking the train, no one seemed to know anything about it. Then Detective Skirving got busy, and like Sherlock Holmes the myrmidon, was very soon on the scene. He succeeded in collaring his man—one in Essex county and the other near Blenheim. They were summoned to appear in court at Blenheim yesterday, but only one turned up, the boy from Essex having skipped across the line to Uncle Sam's country. After hearing the case the railway company decided to make the charge one of trespassing and a heavy fine was imposed. It is supposed the boys did it out of pure mischief, but it might have turned out a very dangerous kind of mischief. Detective Skirving is to be complimented on his quick and decisive action in finding and delivering the culprits into the clutches of the law.

The other morning Willie arose late, and after a late breakfast began looking for his bicycle to make a late rush to his late place of employment. The "bike" had vanished. He notified the police and went to work via street car. In a dull moment a policeman poked his head into the store and said, loud enough for all the other clerks to hear: "Say, Mister Slimly, I got yer wheel found in where you left it last night—up to your bee' girl's house!"

Now, wasn't that horrid?—Detroit News.

Your experience isn't one copy three with the one I ran up against lately," said the Yankee. "Our church gave a large picnic out at a swampy bunch of green stuff called 'The General Grove,' up in Michigan. Talked out excitement, there was a big party, doing every minute. After we got to this elegant grove the party folks began, of course, to get busy with the eating preparations. Well, then there was all kinds of trouble. The coffee wouldn't boil, and it wasn't when it did. The pies that were eaten ahead of time by the party of business. Then when we started a speech about the joys of nature and by the time he got through the grub was cold. I about flew in your cold. I had so many in our coffee after it that the people who ate after it got a cold and thought it for one we had a swell time for fair, but when I want to enjoy the good old den, a hammock sitting beneath the trees, a pleasant surprise, plenty of fresh berries, and a colored man to rush boys of Manhattan cooking tails to me. The picnic may be fine, but a great look for mine."
