Mischievous Lads Almost Derail Pere Marquette Train—Detective Skirving's Good Work.

Detective Sk rving reports that an ittempt was made to wreck a Pere Marquette train, last week on the near Ericau. Two boys placed a steel cable across the rails mear the peat farm and when the work train came backing down with the men aboard, backing down with the men aboard, the wheels of the foremost trucks jumped the cable but fortunately stayed on the rails. Had they slipped a deways the least bit, the whole outfit—train, workment, engine and crew—would have gone down out of sight in the mulky soil. Although many in the vicinity were questioned regarding the atempt at wrecking the train, no one seemed to know anything about it. Then Distective Sk rving got busy, and like Sherlock Holmes the invincince, was very soon on the seent. He succeeded in collaring his man—one in Essex county and on the scent. "Say, Mister Slimly, I got yer wheel. Found it where you left it last night—up to your bes' girl's house!"
