

Gleaned by the Way.

The measure of a man's life is the well-spending of it—not the length.

A theory is a beautiful thing to indulge in; but experience is usually about fourteen laps ahead of it.

What a Joy to Feel Well.

Do you know what it is to feel well—to feel young, hearty and vigorous—to enjoy work and to look forward with hope to the future. This is the way you will feel if you revitalize your wasted and depleted nervous system by the use of Dr. Chase's Nerve Food. Not in any miraculous way, but when your system has been gradually built up by this great restorative treatment.

Never joke the man who is always joking everybody else. There isn't anybody in the world more sensitive to ridicule.

Lives of great men all remind us As we learn them day by day, That they'd best be put behind us Out of sight and far away.

There's Danger in Every Cold.

Once you come to realize the danger of neglecting coughs and colds you will not run the risk of depending on any "cough mixture" the druggist may choose to hand you out and will insist on getting a medicine with a reputation, such as Dr. Chase's Syrup of Licorice and Turpentine. Croup, bronchitis, asthma and coughs and colds are promptly and thoroughly cured by this treatment.

If ability and integrity and industry

Some plan should be devised to see that this condition of affairs is no longer allowed. Much of the growth and prosperity of Wolfville depends upon her educational institutions; let all see that "anniversary week" is made a success in every way in our power.

There was a good representative attendance of citizens at the public meeting in Temperance Hall on Thursday evening of last week. Mayor Black presided in an impartial manner and succeeded fairly well in keeping the different speakers to the point. A resolution was moved by Mr. C. R. H. Starr and seconded by Dr. DeWitt, authorizing an expenditure of \$20,000 under the provision of the Act of the legislature passed last winter, for the purpose of installing and carrying on an electric light and power plant. A lengthy and at times animated discussion ensued, in which a number of citizens took part, the vote at the close standing 45 for to 12 against.

An exchange says the first seizure of liquor in Truro under the new Provincial law, which affects carriers, was made Thursday morning, when officers Gass and Johnson seized four cases of liquor and part of another case, which they found in the warehouse of the Canadian Express Company's office there. We understand that a number of cases have been received at this station, but for some reason have not been seized. The law gives any inspector authority to examine, and if necessary, open any package suspected of being shipped in violation of the act, for the purpose of ascertaining whether such package contains liquor.

The 'Brown Tail Moth.'

During the past two weeks the government has had from two to five men going through the Valley, giving instructions how to recognize and combat the 'Brown Tail Moth.' Prof. Cumming writes THE ACADIAN that he regrets to find that this serious pest is more widespread than was at first suspected. In order to encourage the further destruction of nests the Department of Agriculture will pay three cents each for every nest collected, morning or evening, when the caterpillars are in their nests. To insure the success of this work all school-teachers are asked to co-operate in receiving, counting and reporting to the Department of Agriculture in Truro the number of nests handed in by the various collectors. Any expense for postage, etc., incurred in this connection, will be paid by the Department. Should any teacher not be familiar with the appearance of the nests the Department will, on application, send an expert to identify the specimens. Here is an opportunity for the school-children to earn some pocket-money, and at the same time assist in warding off an attack of the most serious insect pest we have yet had to contend with in Nova Scotia. It is hoped that teachers and all others will in every way assist in this work.

The lecture given by Rev. W. R. Foote in St. Andrew's church on Wednesday evening, under the auspices of the Senior Mission Band, was a most interesting and instructive one. Rev. D. Wright presided, and after singing, scripture reading and prayer, introduced the speaker, who gave a very clear and interesting statement of the work being done by missionary enterprise in Korea. At the close addresses were given by Dr. R. V. Jones, Rev. L. D. Morse and Rev. Mr. McCabe, all of whom expressed themselves as having been intensely interested in the story told. The offering amounted to something over twenty-one dollars, which will be devoted to the Band's contribution to the missionary cause in Korea.

The Lumbermen's Association of Western Nova Scotia is to meet at Yarmouth on Wednesday, Thursday and Friday of next week. Among those who contribute to the program will be Dr. DeWitt, of this town, who is to read 'A Plea for Forest Preservation and Perpetuation.'

Ask for 'WHITE WHEATEN MEAL,' the best ever. Beware of imitations. 20 years on the market. All grocers sell it. Manufactured by Nickerson, Grant & Co., Yarmouth, N. S.

WANTED.—A young man with some years' experience, desires position on farm in Kings county for summer months. Christian home and good surroundings desired. Testimonials from former employers. Apply to A. R. D., care of Mr. B. O. Davison, office of THE ACADIAN.

Hunting Deer at Seven Oaks.

By LER.

Seven Oaks is a peculiarly beautiful mountain resort, forty miles from San Bernardino, at the north base of "Old Gray Rock," one of the three great mountain peaks of Southern California. The elevation is 1300 feet, and the ranch contains about 20 acres of comparatively level land, set out to apple trees, in the Santa Anna river bottom, and 140 acres of mountain side. As there are no fences to the south and east, the ranch supports about 100 head of cattle, which range for miles on the adjoining government reservation. The present occupants of the ranch are Mr. and Mrs. Forrest Ball, the latter a former San Bernardino girl, for whom I performed the marriage ceremony in the summer of 1907. There have been no children and the life has been very lonely for the woman accustomed to the city. On one of my trips with my boys into Big Meadows, 12 miles east of the ranch, Mrs. Ball fell in love with Douglas, my youngest son, and he has been her boy for 3 months each summer since. Mr. Ball is the only son of the pioneer.

Some plan should be devised to see that this condition of affairs is no longer allowed. Much of the growth and prosperity of Wolfville depends upon her educational institutions; let all see that "anniversary week" is made a success in every way in our power.

Going Him One Better.

An American tourist on a visit to Glasgow, on emerging from the railway station, was accosted by a lad with a familiar shout of "Carry your bag, sir?" The gentleman handed the boy the bag and requested to be shown through Glasgow. Crossing George Square, they came opposite to Sir Walter Scott's monument, and the boy said proudly:

"That is one of the largest monuments in Scotland."

"Oh," said the Yankee, with an air of indifference, "we have three-penny cigars as big as that in America."

They got on a tramcar going east, and just as they alighted at the terminus a long circular piece of iron on a lorry drawn by twelve horses came up the street. The American, in surprise, asked what that was for. The boy, remembering what the Yankee had said about the cigars, and with a resolve to be even with him, replied:

"Oh, a new hotel has just been built in the Trongate, and that is the kitchen poker."

Do Your Eyes

On the whole, the most common complaint of the eyes is that they are not clear. This is due to a variety of causes, but the most common is a deficiency of the tears. The tears are the natural lubricant of the eyes, and when they are deficient, the eyes become dry and irritated. This is the case with many people, and it is a condition which should be remedied as soon as possible. The best remedy is to use a good eye medicine, such as the one offered by the National Optical Company. This medicine is made of the finest ingredients, and it is guaranteed to give relief to all cases of dry eyes. It is sold in bottles of 50 cents and 1 dollar. Write for a free trial bottle.

Grand Concert.

KENTVILLE, MAY 24TH, 8. P. M.

PROGRAMME

PART I.

1—Instrumental Selections—Ode-fellows' Orchestra.

DOCTOR BRIGHAM SAYS

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's

Vegetable Compound

The wonderful power of Lydia Pinkham's Vegetable Compound of the disease of womanhood is not known. It is a stimulant, not because it is palliative, but simply because it is most wonderful tonic and reconstructive ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvellous cures are reported from parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia Pinkham's Vegetable Compound, are fair enough to give credit where it is due.

If physicians dared to be frank, open the country by women, they would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female illness, as they know by experience it can be made to effect a cure. The following letter proves it.

Dr. S. H. and Dr. Lydia E. Pinkham's Vegetable Compound I am not only a well woman to-day, but have a beautiful child and a healthy baby. I advise all suffering from the same to try it.

Dr. S. H. and Dr. Lydia E. Pinkham's Vegetable Compound I am not only a well woman to-day, but have a beautiful child and a healthy baby. I advise all suffering from the same to try it.

Dr. S. H. and Dr. Lydia E. Pinkham's Vegetable Compound I am not only a well woman to-day, but have a beautiful child and a healthy baby. I advise all suffering from the same to try it.

Dr. S. H. and Dr. Lydia E. Pinkham's Vegetable Compound I am not only a well woman to-day, but have a beautiful child and a healthy baby. I advise all suffering from the same to try it.
