**For A Scald**

One of the commonest injuries in the home is the scald. Upon the promptness with which you treat it, depends whether or not you will have blisters and sore places to show for it. Why not use a bit of preparedness? Keep some carbonate of soda somewhere in your kitchen. When the scald occurs, plunge the part immediately into one part of lukewarm water to which has been added one teaspoonful of salt and one teaspoonful of carbonate of soda. Leave it there until the pain ceases.

Should some other part of the body than the hand get scalded, wrap the part with cloth saturated with the solution. Renew frequently until all the stinging sensation is gone. Then apply a little carbolated vaseline. Keep the air away for a few hours by means of a bandage over the vaseline.

Scalds treated in this way leave no disfiguring blisters; but the treatment must be applied at once.

**Lost**

Chug-Chug! Br-r! br-r-r! Honk! Honk! Gilligillug-gilligillug!

The pedestrian paused at the intersection of two busy cross streets.

He looked about. A motor-car was rushing at him from one direction, a motor-cycle from another, a steam truck was coming from

behind, and a taxi-cab was speedily approaching. Zip zip! Zing-glug!

He looked up, and saw directly above him an airship in rapid descent.

There was but one chance. He was standing upon a manhole cover. Quickly seizing it, he lifted the lid and jumped into the hole just in time to be run over by an underground train.

**Canada's World Trade Power**

(New York Sun and Herald)

A noteworthy fact about the industrial expansion, commercial power and financial problem of Canada is that while Canadian exchange in New York has been at a discount of 10 per cent. to 12 per cent. British exchange has been at a discount of 25 per cent. to 27 per cent. While the British pound has been worth \$3.49 in New York it has been worth \$3.90 in Canada. And, let it be remembered, nearly half of all Canadian exports go to Great Britain. On the other hand, the United States is Canada's pre-eminent buying market.

For more than five years Canada has been a heroic financier of the Allies in general and in particular of Great Britain. Our intrepid neighbor's contribution to the winning of the war was not merely in troops which, measured by her population, were sent across prodigally, and in food supplies shipped stupendously for her own and to other fighting forces in Europe. Canada bought raw material in the United States and elsewhere by the hundreds of millions of dollars and manufactured it into munitions and war weapons and equipment of all kinds, speeding it across to the Allies on credit. Canada thus became and Canada continues to be one of the great creditor nations of the world.

For the nine months ending with last December Canada's foreign trade—\$1,707,597,390—was a gain of about thirty millions over the corresponding period in 1918. For the nine months Canada's exports, at \$976,651,791 showed a gain of more than twenty-six millions. Her imports, at \$730,942,599, a gain of twenty-four millions. For the nine months in spite of our heavy balance against Canada her net balance on all her foreign trade was about one hundred and fifty millions.

There are, however, credit bounds beyond which Canada, rich as she has become in international trade and finance, cannot go. She can sell and sell hugely out of her own surplus products. She can carry hundreds of millions more of such credit burdens. But Canada cannot buy without limit from us, for example, to resell to Great Britain and the Continent on credit.

She can postpone her collections on her deliveries of her own goods. She cannot pay slathers of cash to us for goods that are going to her non-paying customers abroad. No foreign trade of this country has for us a higher potential value, industrially, commercially and financially, than our trade with Canada. No other foreign trade makes so powerful an appeal to our hearts. We must give prompt and full attention to the need for Canadian financing on this side of the border. For both the United States and Canada it will be a 100 per cent. safe investment. For both it should be a 100 per cent. sound link in the chain binding together neighbors, friends and kindred.

**Children Cry FOR FLETCHER'S CASTORIA**

Ninety-six fur seal skins were received recently from the Russian Islands, Behring Sea, by the Dominion Fisheries Department. They represent the annual contribution from the American Government to Canada under the Pelagic Sealing Treaty by which the United States agreed to give the Dominion fifteen per cent of the gross number of seals taken on the islands included in the territory of Alaska.

Minard's Liment Cures Colds, etc.

**Children Cry for Fletcher's**

# CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

**What is CASTORIA?**

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

**GENUINE CASTORIA ALWAYS**

Bears the Signature of

*Chas. H. Fletcher*
