

PALESTINE'S FUTURE

(From the Westminster Gazette.)

Sir Alfred Mond, who returned to London last night, from Palestine, in an interview with a Central News representative, described Palestine as a basket of jewels. "There are immense possibilities there," he said. "The country is in a terrible state of neglect—the legacy of the Turkish misrule. I can only describe it as a basket of jewels, or a glorious estate which has been let down by centuries of neglect. The Turks cut timber down and never troubled to afforestate. They slaughtered cattle for meat, and did not trouble to replace the slaughtered animals, and the land has been let to itself. Those areas which have been cultivated under European methods have demonstrated how productive the soil is.

Everywhere during my visit I listened to the grateful thanks of the people to the British Government. I am the bearer of a letter to Mr. Lloyd George from the Jewish Council of Jerusalem thanking him for the San Remo declaration. Capital and labor are needed today in Palestine. They are the pressing needs and will, I am sure, be met. There are huge public utility schemes under consideration, and a Government loan of several millions is to be floated for these. There will be ample security for capital and interest in the railways and the hydro-electrical works to be constructed. Sir Herbert Samuel has done a wonderful work there, and is trusted both by the Arabs and the Jewish population.

"One thing I would say, and that is to warn British traders. The Germans are making desperate efforts to recapture their old market there. Before the war they had the monopoly. British traders must be awakened to the possibilities of a great and growing trade with Palestine. The seeds must be sown now before the Germans again get the monopoly. When I came away there was a large German ship discharging a cargo of cement for works in Palestine. I want to see British traders, there, and the people want to see British goods."

FORESTS SUPPORT OUR CREDIT IN THE U. S.

Public not Appreciative of Part of Forest Products in our Export Trade

For the first nine months of 1919 paper, wood and manufactures of wood were exported from Canada to the United States to the value of \$163,941,802. The total value of exports of Canadian goods to that country for the same period amounted to \$370,246,970.

With our forests supplying over 44 per cent of the exports to offset our purchases, it is not hard to realize what position our exchange would be in but for the forests.

The depreciated value of our money hurts the patriotic pride as well as the pocket of all Canadians. Those who have occasion to visit the United States realize the additional cost to them in purchasing with Canadian money, but it is hard to make the general public realize that the forests of Canada are carrying a tremendous load as the chief support of our credit in the United States. Every effort should be made to protect our forests from fire and to provide efficient forestry management, to enable them to continue in perpetuity the large part they are taking in our foreign trade.

Advertising in a local paper is worth many times as much per unit of circulation as advertising in bulky papers of general circulation.

APPENDICITIS

Warm Water Properly Applied Prevents Operations, and Has Cured Many Advanced Cases

Hundreds of operations for Appendicitis have been avoided by the "J. B. L. Cascade," and thousands of others who have had Stomach Trouble for years have regained their health completely. Most troubles arise from poison accumulated in the Colon, which is absorbed into the system. Internal Bathing keeps the system clean, cures Constipation and the hundreds of ills which are directly traceable to it. These letters from among thousands in our possession should convince you that Internal Bathing brings positive results. Mr. James McLaughlin, 91 Evanson Street, Winnipeg, writes:

"I bought a 'J. B. L. Cascade' for the cure of a bad case of Appendicitis. My doctors told me I must have an operation at once. I had spent more than fifty dollars in doctor bills, but the Cascade completely removed in a few days every trace of soreness and pain. I eat and sleep well now, have regained my former weight, and am now in perfect health."

A Mother from R. R. No 1, Leamington Ont., writes: "About two weeks ago our eldest son took sick with cramps in the bowels. He had he could not move. Our doctor gave him hypodermic injections and ordered him to the Hospital to be operated on at once. Before doing so, however, I induced him to use the 'J. B. L. Cascade,' and in less than a week he was up and around, and has been well ever since. It also cured me of severe Headaches and Constipation. I cannot praise the Cascade enough. It is a wonderful invention."

If you have Constipation, Headaches, Appendicitis, or feel languid and not right, don't drug yourself, bath internally. The "J. B. L. Cascade" is being shown and explained at A. V. Rand, Druggist, Wolfville. Ask for booklet or write Tyrrel's Hygienic Institute, 163 College Street, Toronto.

MORE LIGHT ON THE ADAM FAMILY

(From the Boston Transcript)

Referring to the recent statement of a scientist that the Garden of Eden was located in Ohio, we are reminded of the Scotch laird who told a famous singer that Gaelic was the language of Adam.

The singer afterward spoke laughingly of the claim to another Scotchman, who remarked in all seriousness, "That laird was quite right. Dinna ye ken that the Garden of Eden was in Scotland? Dinna ye ken that Adam's name was McPherson?"

Kitty, aged four, had been naughty and her father had had to administer vigorous correction before going to business.

What an impression had been made was apparent when, on his return from business in the evening, Kitty called upstairs with frigid politeness: "Mother, your husband's home."

ACADIA GRADUATE

Wins Fellowship at Yale University.

Announcement is made that Donald D. Foster, B. Sc., youngest son of Mr. and Mrs. D. E. Foster, of West Torbrook, Annapolis County, has been awarded the Loomis fellowship in physics at Yale University, New Haven, Conn. This fellowship, which is worth about \$600, was awarded to Mr. Foster as the result of a competitive examination in physics in which there were three candidates. Mr. Foster is a graduate of Acadia College, having taken his science degree there last June, when 20 years of age. He began his studies at Yale last fall for the Ph. D. degree, specializing in physics.

The Loomis fellowship in physics was established in 1902 by Professor Francis E. Loomis by the gift of ten thousand dollars. The fellowship is open to recent graduates of Yale College and the Sheffield Scientific School of Yale University and to graduates of other institutions who have spent at least one year in the study of physics in the graduate school of Yale University.

It is granted to the candidate who passes the best competitive examination in physics (descriptive, mathematical and laboratory practice). The holder must be a candidate for the degree of Doctor of Philosophy and must make physics his chief study.

The first Acadia man to win the Loomis fellowship was Mr. Foster's elder-brother, J. Stuart Foster, B. Sc., (Acadia 1911), who was awarded the coveted honor two years ago.

THE LATEST FAD

(From the Ottawa Citizen)

Now the girls are going around with the top clasp of their overshoes unhitched, and getting away with it as the latest fad. We wonder what would happen if mere man attempted some of these things, such, for instance, as eliminating his necktie so as to reveal the large Woolworth diamond stud-hitching his collar to his shirt, or wearing one trouser rolled half way up to the knee and showing the skin you love to touch. Chances are about 100 to 1 wife would order him back to the barn to be dressed before he got half a start out of the house.

BABY SLEIGHS

THE MAN WHO COUNTS

(From the Albany Journal)

It is a mistaken idea that only the man whose name appears in print frequently is the man who counts. Some of the biggest things that have been accomplished have been made possible by the assistance and knowledge of the quiet, unassuming man who has been content to do his work to the best of his ability and allow others to get the credit. There are many men who are compensated by knowing that they did their best. They are not of the spectacular type, they are just good, substantial citizens who hoe their row and produce results. There has been a marked tendency recently toward self-exploitation and personal advertising. There is no doubt that some have profited by it temporarily. In the long run it is unwise to advertise oneself as being exceptional, for the time always arrives when a test is made which reveals the fact. While the trend has been toward this method of getting to the front, every now and then something happens to separate the real from the fictitious individual whose fall is never anything but a question of time.

CO-OPERATE

If you would boost the game along—

Co-operate!

Even though your plans go wrong—

Co-operate!

If perchance the other man

Wants to work as per his plan

Work his way—you surely can—

Co-operate!

There's just one way to advertise;

Co-operate!

Don't take time to criticize;

Co-operate!

When things go the other way

After you have had your say—

If you're in the game to stay—

Co-operate!

Let's make success our common aim—

Co-operate!

Let's be sports and play the game!

Co-operate!

If someone gives you a slap,

Laugh it off—don't give a rap—

Boost the game all over the map!

Co-operate!
