General Stores

**German Guns At Fredericton**

Two howitzer guns captured from the Germans during the war have arrived at Fredericton from the director of war trophies at Ottawa, being part of the number allotted to the government of New Brunswick to be placed in suitable positions in the provincial capital.

In all six guns have been allotted to New Brunswick, the other four being those which arrived here two months ago from Ottawa consigned to the mayor of Fredericton and which it was believed at the time were the allotment to the city.

**More Print Paper Must be Provided**

That the shortage of essentials is due to the world wide war is axiomatic, but the deficit in print paper has more far reaching results than that of almost any other commodity, incidental directly and indirectly, it affects everybody.

Within the last year or two even the layman has become familiar with the term wood pulp, and realizes now, if never before, that a shortage of print paper is vital. Newspapers that had their quota of advertising and circulation have suspended for no other reason than their inability to procure print paper to continue their publications.

One of the results is that considerable capital has been taken out of use. Another is that thousands who know no other occupation have been deprived of their means of livelihood and driven into other lines for which they are unfit. This has increased the demand for expert labor which being scarce has caused a higher scale of wages.

A higher wage means a higher cost of living, of which everybody has heard too much. Like begets like, from an economical point of view.

The suspension of a newspaper deprives a community of a knowledge of events. This creates a state of ignorance. Ignorance means suspicion. A suspicious man or woman is more or less dangerous.

It is up to everybody to assist in every possible way every effort that is being made to supply the demand for the production of print paper.

**THAT'S WHAT YOU NEED**

for that cut, burn, sore or eczema. Ends pain, prevents blood-poisoning and grows new skin.

**Canada Has No Cause for Worry**

Cleveland Plain Dealer: The situation in which Canada now finds her trade with this country, instead of being peculiar, can be paralleled in the trade of practically every nation of the world. The United States sells to England wheat and cotton of greater value than the English manufactures she imports; she also imports from Brazil coffee much greater in value than the manufactured articles which she sells to Brazilians. England in her turn imports from Brazil produce the value of which is much less than that of the manufactured goods sold in Brazil. All three of these countries present with regard to one of the others a situation entirely analogous to that of Canada and the United States. Yet in every case the surplus of imports from one source is paid for by a surplus of exports to another. A country having the undeveloped resources of Canada and a highly industrious people should be the last to express concern over her trade balance. Even a considerable excess of total imports over total exports would, now that foreign capital is being invested in her railways and industrial enterprises, be no cause for alarm. She will still find advantage in buying in the cheapest source of supply, irrespective of the amount of her own industrial products that may be disposed of there.

**The Path to Health**

For many thousands of women the Path to Health has certainly been through Lydia E. Pinkham's Vegetable Compound. When this great remedy was first introduced, and for many years after, skeptics frowned upon its curative claims, but as year after year has rolled by and the little group of women who had been cured by it has since grown into a vast army of hundreds of thousands—doubt and skepticism have been swept away by a mighty tidal wave, until today this purely vegetable medicine is recognized as the greatest remedy for woman's special ills in the world. This is because it is a wonderful tonic and reconstructor which acts directly and favorably upon the feminine organization and is a specific for that purpose.

Women in All Countries Depend Upon

**Lydia E. Pinkham's Vegetable Compound**

**You Need More Than A Laxative**

To correct constipation, all organs of digestion and elimination should be helped. Try NR and see how much better you feel.

**NR Today—Keeps the Doctor Away**

To live and be healthy, your body mechanism must properly digest your food, extract all the nourishment from it and promptly throw off the waste that is left. This is accomplished by the process of digestion, assimilation and elimination. The work of the stomach, liver, kidneys and bowels. The failure of any of the vital organs to do its work properly affects the action of all the others. A forced bowel movement does not help constipation; it only relieves for a few hours the uncomfortable condition that constipation brings about.

Now if you are used to taking so-called laxative pills, oil, prunes and the like, you know rightly well you've got to be taking them all the time. Moreover, if you stick to any one laxative, you're apt to be becoming used to it all the time. That can do you a lot of harm.

Stop doing yourself with such things just long enough to give Nature's Remedy (NR Tablets) a trial, and let the results show the difference. NR Tablets are not mere bowel movers, their purpose is to correct the condition that induces constipation and give you real relief.

Constipation, better known as sluggish digestion and assimilation, gives you a good heavy appetite, regulates your liver and bowels, loosens the kidney action and gives your pores-clogged body a good cleansing cut. Nature's Remedy (NR Tablets) is not harsh; it is mild, easy, pleasant to take, and gives you relief over others. It is not a habit, but it is thorough and sure. By its action on the digestive organs it promotes assimilation, which means extraction of full nourishment from your food, and thereby gives your system strength, energy, better blood, better complexion, better nerves, better sleep, better appetite, better strength over long years. NR sends you into the land of the living, improving internal digestion. Lastly, by gently encouraging more vigorous bowels and kidney action, NR drives poisonous impurities out of and cleans up your body.

Try Nature's Remedy (NR Tablets) and just see how much better you feel in every way. Get a 5c box today and take one each night for a week. You'll say you never felt better in your life. NR is sold, guaranteed and recommended by your druggist.

**SOLDIER'S INSURANCE**

The returned soldiers' assurance act, passed by parliament last session, came into effect on Sept. 1st. Applications are now being received and policies will be issued as rapidly as possible.

Any returned soldier who served in the military or air forces of Canada in the great war or who was domiciled or resident in Canada on Aug. 4, 1914, and served in any of His Majesty's naval, military, or air forces, or in the armed powers, may obtain life insurance under the act.

Witness of returned soldiers who have died after retirement or honorably discharge from the service, and having the signature of 1,000,000 soldiers from the coming into force of the act, are also eligible for insurance.
