Mr Justin McCarthy, replying to the toast of his health, which was proposed by Mr Parnell, at the recent banquet I can assure you that I could have no higher possible gratification and no higher reward than the words of our gues tonight and the applause of you, my friends. I have, and I have ever had, no ambition so high as to serve in any way, however humble, the cause of Ire-(Applause.) I am selfish in that No success in the world would gratify me so much as having the plause of Irishmen and the Irish Parliamentary Party. (Renewed applause.) I may say that I have never changed since those far-off days of '48 (applause), for, going back to an earlier generation than that of a friend on my left, to those days when we were boys-we were very much boys in those days. (Laughter. I was, I think, not quite eighteen years old; but we thought it nothing to risk our lives for the national prosperity of our country. (Applause.) New, those are the principles I started with, and to those principles I have always adhered. (Renewed applause.) We have changed our methods since that time-I have changed my methods with them.

DAYS OF '48.

But let me remind you that we were not in those days of '48 the utter idiots that some people are now pleased to regard us (hear, hear). Remember that in those days there were no weapons of pre Remember that the old rifles we bought and buried afterwards-I say this in a poetic mood, and I wrote the song but it was, I think, in the Nation or Irish Felon. There were Irish felons in those days, and we were as proud to be ble grounds. First of all, we had no English party whatever to support us. We were under the conviction, young and old of us, that there was no way of getting Irish National Government but by a movement of armed rebellion. The European continent then was aflame with Remember, then, that we thought-as other people thought-that if you could only keep up an army, a rebellion going on for long enough, some great European power, acting for its own purpose, would come in and help you out. I am not saying our movement was a wire one, but I say this distinctly, our movement was not that movement of mere insanity which sometimes now people are disposed to regard it as (hear

I tell you with the utmost sincerity that there is no success which I ever have made which I value in the faintest degree in comparison with the success I have made in being a member of this Irish National party, in fighting with them in those dark and desperate days (hear, hear) when we were some only half a dozen men going in one lobby and the whole House Commons trooping into the other lobby

A Temperance Tale.

A mouse fell into a beer vat, poothing, and a cat passing by saw th struggling little creature. The mouse said

'Help me out of my difficulty.

"If I do I shall eat you," said the cat "Very well," replied the mouse; "I would rather be eaten by a decent catthan drowned in such a horrible mess stuff as this." It was a sensible cat, and said,—

"I certainly shall eat you, and you must promise me on your word of honor

'Very well, I will give you the promise, I promise. So the cat fished the mouse out ; and trusting to the promise, she dropped for an instant to clean her own mouth of the abomination of the vat, thinking that she had better do so before she took

a meal off the mouse.

The mouse instantly darted away and crept into a hole in the corner where the

cat could not get him. "But didn't you promise me I migh eat you?' said puss.
"Yes, I did," replied the mouse; "he t don't you know that when I made that

The Re-organization of the Ontario Cabi net-Three New Men, Harcourt, Dryden and Bronson-Prince George at Montreal-The Toronto Fair.

TORONTO, Sept. 15.—The Ontario Cabinel has been reorganized. The Ministers will be sworn in as follows:

Premier and Attorney-General — Hor Oliver Mowat. ner of Crown Lands—Hon. A. S. lardy.

Provincial Ser ctary—Hon. J. M. Gibson. Commissioner of Public Works—Hon. C. Fraser.

Minister of Education—Hon. G. W. Ross.
Provincial Treasurer—Hon. Richard Harcourt (succeeding Hon. A. M. Ross).
Minister of Agriculture—Hon. John Dryden (succeeding Hon. Chas. Drury).
Minister without portfolio—Hon. E. H. Bronson.

Mr. Ballantyne will likely be elected

Speaking of the changes outlined above the Globe says: "Owing to the fact that Mr. Bronson, of Ottawa, is burdened with the management of a heavy and exacting busi ness, he could not without grave danger to his personal interests take charge of a de-partment. But by entering the Cabinet without portfolio the Government and the province will have the benefit of his counsel and experience at least on questions of which he has special knowledge. And a better representative of the lumbering, timber and general business interests of the province is not to be found in the Legislature. The general interests of Eastern Ontario will also be-come his special concern, and that part of in a poetic mood, and I wrote the song of my own buried rifle—as long the word has very willingly let die, (laughter) the province must derive large advantage from his admission to the Cabinet. The appointment does not carry salary. tice of having Ministers without portfolios is recognized under the British constitution and has been in use for some hundreds of Irish felo s then as some people are now (hear, hear); but we had some reasona-Cabinet without portfolio, and there are such Ministers in the Cabinets of Quebec New Brunswick, Nova Scotia and Prince Edward Island. It is not necessary under the practice for Mr. Bronson to go back to his con-

stituency for re election." The plans for the restoration of the Uni been approved of by Architect Dick, have been approved of by the trustees, building committee and the senate. The plans increase the number of locture rooms by seven the number of locture rooms by seven the number of locture rooms by seven. the number of professor's rooms by eight, and add a whole range of new rooms in the basement of the reconstructed eastern wing. The girl students will have extra accommodation. A library is now being fitted up in the new School of Science, which will also supply examination halls in the mean-time. President Wilson received a contribution of £500 from Edinburgh the other day toward the building fund; £100 is donated

for extension of residence. A number of Toronto gentlemen have evolved a new and original solution of the Esplanade difficulty, which is causing so much trouble between the railways and the city. Instead of the railways having the best part of the water front they propose building a tunnel under the land now being fought for. The cost of such a tunnel would be less than a million dollars, and it would be wide enough for a double track.

The annual Industrial fair, for which Toronto is so justly famous is now in full swing. It was opened with much state and ceremony by the Earl and Counter of Aberdeen. His Excellency the Governor-General has also paid a visit to the city for the purpose of taking in the Show. He was banquetted at the Queen's Hotel by the Civic reception committee before he left. The Fair is a greater success than ever.

Some great and awful stories are telegraphed sensational American papers by correspondents in Canada. Ottawa and Montreal have for years past been noted for possessing the two greatest newspaper liars in the Dominion. The far West however has now been heard from. Last week several American papers contained accounts of a terrific snow storm in Manitoba and the North-West, which had ruined the harvest, snow fell in-a far northern settlement in the North-West Territories, but did not do much damage and disappeared almost as rapidly as it came. But the champion lie of the year undoubtedly is that telegraphed on Sunday to many of the sensational Sunday editions of the great American press. The fake despatch states that H. R. H. Prince George of Wales had been on a spree in Montreal, got into a row and had been locked up by the police. Startling headings such as "Royalty in Jail" astonished many people. It is a disgusting thing to think that the Queen's grandson should remember his visit to Canada, in connection with a malicious and blackguardly lie like this.

This is greatly to be regretted, by all right minded people. It is rumoured that an action will be entered against the Montreal correspondent who is well known.

A convention to be held in this city next How many promises made in liquor of Toronto. It is the annual gathering of the American Association for the Advance-ment of Women. This is not a movement intended to secure the enfranchisement of the sex in a political sense; neither is it a temperance crusade, although on the roll of the Association are some of the best-known names in connection with the temperance famous "smoke-room" of the House of Commons.
