Investment News.

St. John's, July 29th, 1913.

THESE are good reasons why Maritime Rail Preferred Stock is a desirable investment by itself, without any other inducement.

IN point of security it ranks next to a comparatively small bond issue, one-tenth of which is being retired annually. Aside from this advantageous feature, the present security is unusually strong, as there are assets by appraisal equivalent to \$150 for every \$100 share of Preferred Stock, not counting the assets covering the Bonds now outstanding.

DIVIDENDS are 7 per cent. and cumulative. The excellent record of the issuing Company in the past, and its enhanced prospects for the future, as the result of recent improvements reducing costs 7 1/2 per cent. and increasing output 40 per cent., altogether furnish satisfactory assurance of these dividend requirements being met.

THE Common Stock Bonus of 50 per cent., now included with each share of Preferred at par, is therefore an additional inducement making a purchase of the Preferred one of the most attractive investments offered in the Maritime Provinces for some time. Ask for the circular which tells the whole story.
