Stanfield's Underwear.

Sleeping in the cold and silent clay to-day are many men who should be alive and active — an asset to their country, but they allowed cold after cold to go un-cared for—result—Death. Many of these colds were contracted through wearing cotton underwear. There is nothing more dangerous in cold climates. After perspiring freely it is like a cold wet rag round the body, and the fleece rolls off in little icy knobs. Throw it away. Wear wool, it absorbs all moisture and lessens the chances of catching cold. Stanfield's, from \$1.00 per garment.
