**Securities**

Our Statistical Department has just completed a special report on Robt. Jones & Whitman, Ltd., which should be received by the investing public with considerable more than usual interest in view of this Company's recent Common Stock Dividend announcement.

**The Common Stock Bonus**  
This Common Stock is still offered as a bonus with the Preferred, on a basis of one-quarter share of Common with each full share of Preferred. The Preferred is 6 p.c. Cumulative and sells for 85 p.c. at which attractive price the yield is 7.97 p.c.—to which should be added the dividend on the Common Stock.

**Strength of Both Stocks**  
The remarkably strong position of both Preferred and Common may be judged by examining the summary of the Company's operations for the past four years, which is included in our report. This summary shows that the average yearly net earnings for this four-year period represented almost six per cent. on the Common Stock. This report would be a good thing to send for—TO-DAY.
