MASTERING THE SUBS.

LONDON, To-Day.

The Westminster Gazette publishes a message from a correspondent who says the submarine menace is being mastered by a simple method which the correspondent indicates is the invention of an American. It is giving away no secret, the correspondent writes, to say that the method, which is reputed to be infallible, requires only a little time to come into full effect and wear the German submarines out. It is a model of simplicity. The press has been liberal in its announcement of Marconi's device, but while extending encouragement to Marconi it must not be overlooked that while the genius who perfected one of the most monumental advances in maritime navigation devotes his unremitting consideration to the menace, this resourceful American too has worked toward a device along independent lines. Asserting that the British have better submarines than the Germans, the message continues, only a little time is needed for our pre-eminent inventive brains to outstrip the pirate professors, and by a method which is simplicity itself we already have the life of the U-boat campaign measured.

SAVAGERY UNCONTINUED.

LONDON, To-Day.

The German Government will sink all Entente hospital ships in the entire barred zone with the exception of certain ships from Saloniki to Gibraltar. It is semi-officially announced in Berlin, according to a Renter despatch from Amsterdam. The German announcement made reference to the British denials to the German allegations that the British misused hospital ships. It cited several instances which, it was asserted, proved the correctness of the German accusation. The semi-official announcement read in part: The German Government will prevent all traffic by hostile ships in the entire barred zone in the Mediterranean, including the road left open for Greece, and will regard hospital ships appearing therein as war vessels and sink all of them immediately. Germany, the announcement adds, will allow the transport of ill

and wounded from Saloniki on Greek railways to Kalamata Harbor, and thence on hospital ships to Gibraltar, on the following conditions: Firstly, these hospital ships on the road left open to Greek shipping must proceed at a rate of speed previously reported to the German Government. Secondly, the name of the vessel and the time of arrival or departure must be communicated to the German Government six weeks in advance. Thirdly, that a representative of a neutral Government representing Germany's interests in the particular countries in question shall certify before the departure of the hospital ship that she carries only ill and wounded, nurses and no goods other than materials for treating them.

BRITISH WORKMEN HOLD IMPRESSIVE SERVICES.

LONDON, To-Day.

An impressive demonstration by many thousands of workmen organized by the British Workers' League was held in Hyde Park to-day to express fraternal greetings to the people of the Allied countries and the determination of the workers to continue the war to a victorious conclusion. These sentiments were voiced in stirring speeches from twelve platforms. David Lloyd George, Prime Minister, in a letter which was read from all the platforms, expressed his hearty appreciation of the address which the Workers' League has presented to the Ambassadors of Britain's Allies. In his letter Lloyd George said a lasting peace will come when all the peoples of Europe are free and determine their own fate for themselves.

TREASON IN QUEBEC.

QUEBEC, To-Day.

Speaking at an anti-conscription meeting at Loretteville to-day, Armand Lavergne, ex-member for Montmagny, said: "I believe I should say that if the Government passes this damned law, if you have the heart, if you are still the descendants of those who wrested the country from the Iroquois, if of those who ascended the scaffold crying 'Vive La Liberté, Vive l'Indépendance', if of those who have written with their French and Catholic blood an epic such as no other race can show you, you should take the pledge to disobey it." Over 5,000 people cheered wildly the words of the speaker as he denounced the Government for their proposed measure. Lavergne stated it was England who wished the war to-day to crush Germany. She may have good reason for this from her point of view, said the speaker, but we have nothing against Germany. If Sir Edward Grey had

consented to say that England would aid France in July 1914, as Mr. Cambon had requested, the war would have been averted; but he would not do this, but awaited the fifth of August. The war had increased Canada's debts to \$2,000,000,000; after the war it will be four billions. If we add to this the debt of the Provinces, of the municipalities and parishes we will easily reach six billions. This represents \$7,000 per head. It was very nice to be blue or red in 1914 or 1911. You wished it, said the speaker; very well, you will pay for it. There is, moreover, the headed (?) British protection. England borrowed seven billions from the United States and mortgaged Canada. Have they then the right to tell us when the country is menaced by famine, "you shall send your sons to war in Europe"? I am not against conscription for the defence of Canada, because I believe it is the duty of all citizens to give their blood for their country, but I love my own enough to tell them that they should not give one drop to defend England. If we have to spill it, let us begin as our fathers did by doing so for the defence of liberty. The speaker then condemned the Government for trying to send Canada's sons to butchery without consulting the people and utter the words quoted in the paragraphs, which made a great impression on the crowd. The meeting at Loretteville lasted four hours. Lavergne declared that he had received numerous letters from people in English provinces, notably Toronto and Vancouver, telling him the people of these places were opposed to conscription and asking the Province of Quebec to aid them to crush the Government. Largely attended meetings were held all over the city to-day. At Jacques Cartier market place Lavergne addressed a gathering of ten thousand or more, speaking much along the usual lines, and he was wildly acclaimed.

THE BEST RECRUITING AGENTS.

LONDON, To-Day.

According to stories printed in the morning papers there has been a complete revulsion of feeling towards the war in the south and south west of Ireland as a consequence of the recent attacks by German submarines on the Irish fishing fleets. A number of fishing boats have been sunk and the victims of one attack off Baltimore, state that the Germans told them that they had already sunk the Kinsale and Waterford fleets and would soon put all Irish fishing boats to the bottom of the sea, because they sent fish to England. They also threatened to shell the villages on the coast.

RUSSIA IS WAKING UP.

PETROGRAD, To-Day.

Virtually all the divergent political factions and all classes, organizations, Councils and even the Socialist leaders, with the exception of the extreme left, to-day support the appeal of the Minister of War, Kerensky, to the troops and applaud the new order of the day, "Advance." It remains to be seen how the army itself will receive this final exhortation to patriotism and the defence of Russia's newly won freedom. All the Commanders have added their appeal to the order of Minister Kerensky. General Alexieff says tersely "Forward advance to attack the enemy." General Brusiloff says, "It is necessary to conserve and consolidate freedom, the soldiers must overthrow and defeat the enemy; shame and dishonour to those who have a weak spirit." General Drammloff is less laconic, "An advance upon the enemy," he says "is an immediate necessity. The enemy is taking advantage of our passivity to leave this front open and send forces westward. The French and British are honestly doing their duty as our Allies. They are saving our new Freedom which otherwise we would lose, but soon their advance must wear itself out and then there will be no one to help us." The newspapers contain similar appeals from the heads of the Government. Premier Lvoff writes, "Honor demands our activity. We are drowned in speeches and words. The muscles of our organism are being atrophied; further passivity will mean ruin." M. Skopoloff, the new Socialist Minister of Labor, joins the chorus with the declaration "Our present task is to advance."

NEW TRACTOR INVENTED.

WASHINGTON, To-Day.

A new type of tractor, combining power and speed and the ability to turn within its own length, has been developed by army engineers for hauling guns of medium calibre, the War Department has announced.

TROUBLE IN OHIO.

CLEVELAND, Ohio, To-Day.

The police, attempting to prevent anti-war speeches by Socialists on the public square, were attacked by crowds of about 300 yesterday after-

noon and a pitched battle ensued. Just previous to the trouble the Recruiting Station erected on the public square registered 211 recruits. The police dragged one of the Socialist orators off the stone rostrum, and the crowd attacked them. Reserves rushed to the scene and clubbed the crowd back and half a dozen men were arrested. The crowd followed the police and prisoners to the police station, where another battle took place and more arrests were made.

SERIOUS FOR BRAZIL.

RIO JANEIRO, To-Day.

A Noticia says that in German circles it is asserted that Germany will declare war on Brazil within two or three days.

WANTS CONFIRMATION.

LONDON, To-Day.

Complete repulse of all Italian attacks after the most furious fighting is claimed in an official statement issued by the Austrian War Office on Sunday. The statement also asserts that more than 13,000 unrounded Italians have been captured in the last 16 days.

FRENCH REPULSE GERMAN ATTACKS.

PARIS, To-Day.

The Germans delivered three attacks last night and this morning in the region of the Casque and Mont blond. All were repulsed, the War Office announces. The Germans are bombarding heavily the French position in the region of Deadman Hill and Hill 304 along the Verdun front. A French detachment penetrated to the second German line near Uffholes in Alsace and found many dead in the trenches. Prisoners were brought back.

BRITISH REPORT.

LONDON, To-Day.

Hostile raiding parties were repulsed last night northwest of Cerisy and south of Lens, says to-day's official report. On the Franco-Belgian front we inflicted a number of casualties on the enemy by rifle and machine gun fire and captured several prisoners. Successful raids were made by us north of Armentieres, and in the neighborhood of Wytchette our troops reached the German support line and captured between 20 and 30 prisoners.

TERRIFIC TORNADES DO GREAT DAMAGE.

CHICAGO, To-Day.

Tornadoes during the last three days in seven states of the middle west and south have killed nearly 250 people and injured more than 1200, wrecked thousands of houses and killed hundreds of head of live stock and devastated many thousands of acres of ground crops, according to a summary early to-day. The latest in the series of tornadoes started on Sunday afternoon, apparently in the vicinity of Willisville, southwest of Illinois, swept south across the river into Kentucky, down the Mississippi into Arkansas and Tennessee, and finally veering eastward toward Alabama, where the storm apparently spent itself. The dead in the four southern states were roughly estimated at 100 and injured at several hundred.

A GOOD STEP.

NEW YORK, To-Day.

The Germans here have formed an organization called the "Friends of the German Republic," whose object is the dethronement of Emperor William and the establishment of a German republic. It was announced last night. The organization is said to be nation wide in scope and has established headquarters and has issued an appeal to Germans to help in its propaganda.

THE CHAMBER OF HORRORS.

A member of the City Council, on being shown through the picture gallery of a well-known citizen, said, in the course of his inspection, "why haven't you the photos of the City Council among your elaborate collection?" The owner's reply was that he intended shortly to construct a new wing to his gallery, to be known as the Chamber of Horrors, and possibly he would find room to exhibit the photos in question.

COUNTRY STORE TUESDAY.

For the benefit of those who did not see the delightful Indian act last week it will be run again and its safe to say will still draw, as all the beautiful costumes and songs and dances have not been seen by all. With new pictures a splendid entertainment is assured. Mrs. Rossley has been complimented many times on the performance. On Tuesday a great big country store will take place and what a lot of lovely things to be given out--more than ever. Next Monday being the King's Birthday the

Great World War pictures will be shown--The Somme Victory, under the distinguished patronage and presence of His Excellency the Governor and Lady Davidson who had a private view of this wonderful five reels of actual daily happenings right at the front taken nearer than ever a camera got before. Both His Excellency the Governor and Lady Davidson complimented the Rossleys on being the first to secure this picture, and kindly promised to see it again when shown to the general public.
