R. QUALITY

Eyes are Seldom Mates

After middle life, and frequently earlier, the eyes are apt to be of unequal strength.

If this inequality is not corrected, the weaker eye will be overworked and be thus made weaker still.

This shows the necessity of always having each eye separately examined.

We fit spectacles that will correct every defect of vision and strengthen weak eyes.

Examinations Free

GOOD HOCKEY IN THE C. P. R. LEAGUE

The Rovers Defeat the General Offices in a Keenly Contested Game Last Night

The long chase for the Foy Trophy was continued last night in the seventh game of the C. P. R. hockey league, the contestants being the General Offices and the Station Rovers. On account of the rivalry existing between these two leading clubs of the league, a very exciting contest was witnessed. In the heat of the tussle a little rough play was indulged in but that only made the game more interesting for the spectators.

Two minutes after the play started the Rover forwards rushed down with the puck, and from a pass to centre ice the famous "Midget Ker" poked the rubber in. Play continued and after two more minutes fast play McLeod made a splendid run down the ice and scored the lone goal of the General Offices.

The game now commenced in earnest both teams anxious to take the lead, fast runs being made by both sides. After ten minutes play Bellrose shot the third goal, making the score two to one in favor of the Rovers where it remained until the end of the half.

The fast work was continued in the second half and after fifteen minutes play O'Hara dropped one in with a long hit from centre ice. The rest of the game was played around the General Offices' goal, where Barclay made splendid stops one after another, but in spite of his good work Bellrose did the trick again and wound the game up the Rovers winning four to one.

J. Ryalnce of the Calgary Intermediates refereed the game to the satisfaction of all.

General Offices: goal, Barkley; point, Costigan; C. Point, Stockhill; rover, Connolly; r. wing, Boves; centre, Medley; l. wing, Kingston.

Station Rovers: goal, Crockett; point, Nickle; c. point, O'Hearn; rover, Kerr; r. wing, Bellrose; centre, Hensworth; l. wing, Graham.

HOCKEY TOURNAMENT IN CALGARY

The Tournament Expected to Last for Several Days

Arrangements are being made to hold a local hockey tournament at the Auditorium rink the second week in February. All the teams in the province will be asked to compete, including Edmonton, Strathcona, Wetaskiwin, Red Deer, Olds, Lacombe, Carstairs, Innisfail, Calgary city, Medicine Hat, Macleod, High River, Lethbridge and any recognized hockey club in the province.

Special prizes will be offered, the first being a grand challenge cup valued at \$200 and gold medals, the second winners will receive a shield valued at one hundred dollars and silver medals, and the third prize will be worth seventy-five dollars.

The tournament is expected to last three days, and during that time visitors to the rink will have an opportunity of witnessing some good hockey.

Hockey Notes.

The locals are arranging a hockey match for Friday night. Lacombe, Medicine Hat and Wetaskiwin will be approached.

A practice of the Calgary hockey team will be held this evening between eight and nine o'clock. McLeod, Boulanger, McKenzie, McHigh, Hensworth, Flummerfelt, Anderson, Hamber, and others are requested to go out.

The next game in the college hockey league will be played between the Business College and W. C. College. The two games have been played so far in this league, and the college have figured in both, winning each time.

Olds, the champion team, in the Central Alberta League, will be in Calgary next week, having arranged a game with the Calgary team on the 25th at the auditorium rink.

High River were in communication with the intermediates this week to arrange a game at High River but the locals will not go till next week some time.

The following games were played in the McNeill curling trophy last evening:

Walker, 11; Bradley, 8.
Bryan, 14; Savage, 6.
McLeod, 12; Tarrant, 4.

The games this evening are: Cameron vs. Mosley.
Watson vs. McKelvie.
Walker vs. Parker.
Freeze vs. McLeod.

Macleod Notes

Macleod, Jan. 12 1907.
Curling in full swing here and the ice is fine. Dr. Forbes rink is curling in the competition now on.

Work on the numerous buildings here is at a standstill but the farmers are not kicking, the heavy fall of snow will help the fall wheat.

The Gazette are getting an up to date printing press, gasoline will be the power used, good luck to you C. P.

The Southern Alberta Club is proving quite a success, the number of members has doubled in the past month.

The Juvenile Bostonsians played here to crowded houses on Wednesday and Thursday nights. They are all-right.

BIG IMPROVEMENTS IN U. S. HARBORS

The Appropriations Will Approximate \$81,000,000

Washington, Jan. 14.—The largest river and harbor bill in the history of the country was reported to the house today Chairman Burton's committee, which has been holding sessions during the holiday recess. The appropriations made in it will approximate \$80,000,000. About three-eighths of the appropriations in the bill will be for cash expenditures, and the remaining five-eighths will be authorized for projects extending out a number of years, some of which are now under way.

Not for fourteen years has such a big budget been prepared by the Rivers and Harbors committee. Ten years ago \$12,650,350 was appropriated in cash. The bill which was passed in 1905 carried a total of \$35,166,533.

This afternoon the matter will be discussed and it is expected there will be the most serious work of the plan for the fourteen-foot waterway from Chicago to St. Louis, costing thirty-one million dollars, the members from the Mississippi Valley will favor the project but it looks as if the measure will not receive recognition at this session. The prevailing idea is that only such undertakings as can be finished within a reasonable time will receive sanction. A member of the committee this morning said that it would be the policy to finish all the most important improvements now under way and that steps will be taken as soon as possible to improve New York harbor. This plan includes the enlargement of Ambrose Channel, from a point just below the narrows in the south easterly direction to the sea. This was originally estimated to cost \$11 million, but a contract was entered into for four thousand dollars, and the work now in progress is being done by government dredges. Considerable concern has been expressed by the army officers who have the river and harbor improvements in charge, lest the enforcement of the eight-hour law in government contract work increase their cost. Some have estimated the increased cost as high as twenty-five to fifty per cent. The validity of the law has been questioned by the contractors, and it is probable that a test case will enter the supreme court in a few days. Decisions of the lower courts have sustained the new law. These officers say that the natural increase is only a small part of that due to the law. There was no greater pressure for river and harbor legislation than at present and among the new projects that will probably carry are a new Soo Lock and alternate channels in the Detroit River at a cost of \$10 million dollars, the deepening of the harbor at Boston, and extensive improvements of the Delaware and Mississippi rivers.

MINNESOTA FARMERS LIKE THE CLIMATE

A Number of Visitors Express Pleasure at their Visit During Last Few Days

A large number of American farmers from Minnesota left the city last evening for their home after spending three days in Calgary purchasing farm lands.

The party arrived on a special car some few days ago being brought up by the Canadian Pacific Irrigation Colonization Co. for the purpose of looking over this part of the province, to purchase irrigated lands for farming purposes.

The party included some of the best people of that state including A. S. Burrows who was the only one of the party living outside of Minnesota, coming from N. Dakota; E. M. Walsh, W. M. Low, and mayor J. H. McPhee of Crookston, Harry Stain, N. Rabin, and A. Thompson, and C. H. Hitchcock ex-mayors of Crookston, A. P. Toupin, Chas. Bourdon and E. Estel from Red Lake Falls, with W. M. Dewing, J. the party.

Messrs. Walsh and Low, Crookston, are the companies agents and both accompanied the party, they say that during the next three months they themselves will have large parties coming to this province. They have all the advantages in starting here, and this will have a great tendency towards bringing settlers into Alberta.

Mayor McPhee in conversation with the Albertan said: "This is a great country" and I am greatly pleased with the prospects in store for this province and especially Calgary. The weather has been very cold, but we were unfortunate in striking here when a cold snap was on. I can judge what the weather conditions are by today which I think is ideal for this time of the year. I have been following this part of Alberta for some considerable time and know that it is not often you get such a snap as we have experienced these last two days. Still the cold did not trouble us, and we have been round, and had a thorough good time. Last evening we were entertained by the Elks in the Norman block, all of us took in the theatre and afterwards adjourned to their rooms where we spent a thorough good time.

Mr. Hitchcock another of the party who purchased 400 acres of land, spoke in loud praise of the country, and was especially pleased with farming conditions of Alberta.

RED DEER HAS IT'S OWN COAL MINES

And Accordingly has on Fears of a Coal Famine

Red Deer, Jan. 14.—The weather has been intensely cold here for the past week, the thermometer going down to 58 below on Monday morning. The snow fall has been the heaviest in this district than for a number of years.

A. Paradis, proprietor of the new Red Deer Sash & Door factory, received a car of machinery last week but is delayed in putting it up, on account of having to wait for the shafting. The machinery is of the latest and most improved pattern.

There has been building going on all winter in spite of the cold, but everything is suspended now on account of the extreme weather.

There are several large business blocks proposed for building this coming spring.

The work on the new fire hall is nearly completed, and the painters are starting to work.

Red Deer has had no coal famine this winter since the local mines started work. It is a very usual sight to see ten large loads of good lump coal coming in behind the other every few days. Henry Reinhart has secured several orders for Red Deer coal.

Work on the brick work of the new school has been stopped, on account of the cold weather of late. Reports coming in from the ranchers east of here say that hay is very scarce and that there will be great loss of stock on this account.
