Report That the Imperial Government Has Ordered Military Conscription in Jamaica-The Revolution in

ATTACKED BY REBELS. London, June 20 .- A dispatch from Prahsu to the Daily Express, dated yesterday, says: "Capt Wilson and Sergt. Humphries, with 140 West African frontiersmen, while reconnotering between Bekwai and Kusha, were attacked by the rebels. Capt. Wilson and ten men were killed and seventeen wounded. Sergt. Humphries brought the detachment to Fumsu."

JAMAICANS EXCITED. Kingston, Jamaica, June 20.-The community has been excited by the receipt of news that the secretary of state for the colonies, Mr. Joseph Chamberlain, has ordered a military Conscription at St. Kitts and Nevis, by which every male between 17 and 40 is Mable to compulsory military service. The local press denounces the step.

IRISH NATIONALISTS. Dublin, June 20.-The Nationalist convention opened yesterday under the presidency of John Redmond, chair-man of the united Irish parliamentary party, and was largely attended, many Roman Catholic clergymen being pre-sent. The Healyites were absent. Mr. Redmond said it was the most representative assembly of Irishmen since the union. No attacks, he added, would be permitted on their absent brother Nationalists, but the hand of tellowship was held out to everyone willing to work on their lines. Resolutions were adopted, declaring there was no longer anything to prevent the Nationalists from reuniting, pledging Mr. Redmond their unflinching support, and asserting that the first ob-ject was to secure independence for Ireland as a nation.

THE FIGHTING IN PANAMA. Kingston, Jamaica, June 20.-The following details have been received here, furnished by passengers who arrived here from Panama on board the British steamer Don, from Colon, of a battle which was fought June 13 and 14 on the Bejuca Plain and Antom Hill between the government forces, composed of three battalions, numbering about 1,500 men, and a force of revolutionists under Gen. Belasarce It is asserted that 400 soldiers and 35 officers of the government force were killed, and that the remainder of the government army was divided. One portion, it appears, retreated to Emprador, on the Atlantic side of the isthmus, from where the troops were conveyed by the Panama railroad cars to Panama. The other portion proceeded to La Boca, on the Pacific side. Among the latter were, it is asserted, 25, car loads of wounded, who were taken to the Panama hospitals after

the battle of June 14.

The passengers of the Don further assert that Gen Parra addressed a letter to Gen. Campos, the governor of Panama, demanding the surrender of the city, and adding that otherwise the place would be taken by force. The following day consuls and merchants

The nature of your ailment will be decided by your constitution. The poison left in the blood by deranged kidneys will find lodgment in the weakest part, and set up some dreadful disease.

It may be Bright's disease, diabetes, or dropsy. It may be the twanging pains of rheumatism, it may be chronic stomach troubles, or bladder allments. Whatever the form of disease this polsoned blood may cause, the cure can only be brought about by setting the kidneys right.

The experience of tens of thousands of men and women in Canada and the United States points to Dr. Chase's Kidney-Liver Pills as the most effec-tive means of setting the kidneys right. No other kidney medicine can produce such irrefutable evidences of its wonderful curative virtue. No other kidney medicine has received such heavy indorsation from physi-Nor is this to be wondered at,

SABBATH SCHOOL REPORT. The committee on Sabbath schools reported that there were 2,698 ordinary schools, an increase of 260, and 120 home department schools, a total in-crease of 380 schools.

In 1899 in the 2,563 ordinary schools that reported there were 21,016 officers and teachers—a gain of 2,025—and 177,-689 scholars-a gain of 17,548. Counting the 3,782 reported in home department schools, there were in the re-ported schools 202,496 in attendance, an increase of 23.355. Of 2,563 schools, 937 report 3,777 scholars becoming members in full communion during 1899. Seemingly from 1,626 schools there were none that could be reported.

YOUNG PEOPLE'S SOCIETIES. Rev. Alfred Gandier reported for the Young People's Societies, and maintained that a decrease is shown by the returns, still there had been a great deal of excellent work accomplished. He opposed any lowering of the standard of the societies in order to obtain a better attendance. What was necessary to arouse and maintain an interest in the societies was the power of the old Gospel.

An interesting reunion of the alumni of Queen's and Montreal Colleges was held at the Halifax Hotel in the afternoon, when about 100 guests sat down to luncheon.

# DOMINION

Ottawa, June 19.—This afternoon Sir Charles Tupper moved an amendment to a motion to go into supply, declar-ing that immediate provision should be made for the representation of the Yukon Territory in the Canadian Parliament. In support of the amendment the opposition leader quoted a resolution passed at a mass meeting in Dawson giving reasons for the demand, among these being the statement that the Yukon yielded 1-25th of the gross federal revenue, that there was suffici-ent population, according to the mounted police census, to warrant the right of electing two members, and that it was un-British to enforce taxation without representation. The premier pointed out that there could be no controversy over the fact that, according to the spirit of the British constitution, the people should be represented in all legislative assemblies; but he added, the intent of the constitution also was that legislative action which would disturb the existing condition of things should be slow and gradual, and not precipitate. A law was passed last session conferring the power to elect representatives to the territorial council, and the government would issue a proclamation, immediately putting the law into force, so that the elections might take place at an early date. As to representation in the Dominion House, it would be better to wait until the exact condition of things in the Yukon had been determined by the cen-sus. The suggestion had been advanced that the Yukon should be granted two members, but that number would not be in accordance with what was acknowledged to be the unit of represen-tation in all parts of the Dominion, which was one member for some 22,000 electors. If the Yukon were allowed two members on what was believed to be the present population, the representa-tion of the gold territory would be in excess of that enjoyed by the rest of the Dominion. When the people of the Yukon had elected two members to the territorial council, the House of Commons would be placed in possession of valuable suggestions as to the parlia-mentary representation to which that

region was entitled.

Mr. Foster spoke for some time in criticism of the large powers which he said were enjoyed by irresponsible officials in the Yukon. He attacked Mr. Ogilvie's course in regard to liquor permits, and blamed the minister of the interior for prohibiting liquor permits and then departing from the order in response to political pressure. The amendment was defeated on

vote of 72 to 46. The supplementary estimates for the current year were then taken up.
At 2 o'clock the house was still in session on the Nova Scotia public
