PORCUPINE CLAIMS ATTRACT BUYERS

The Cobalt Herald says: Local interest in the Porcupine gold district is still at a high pitch, and gold claims are almost the sole topic of conversation about the hotels and in the local brokers' offices. The market for claims is getting better all the time, as more and more corroborative evidence of the richness of the new country is being brought down by those who have interests there. In Toronto, in Montreal and in New York investors are beginning to awaken to the possibilities of the new country, and buyers are by no means scarce when any sort of a showing can be made. Prospectors are now penetrating further

west, and there is considerable excitement over the reports of exceptionally rich leads in Godfrey Township. It is confidently expected that last year's Gowganda boom will be a mere flash in comparison with the rush that will take place this winter to the Porcupine Lake gold

A Little Feeling Occasioned by Action of President of Board of Trade.

There was a little by-play at the council meeting yesterday that escaped the average spectator, but that was nevertheless worthy of notice. While the meeting of the council was on, a letter was handed to Mayor Beattie from Mr. A. T. McMahen, still asking that he be allowed to appoint the representative of the board of trade on the London and Port Stan-

> It was clearly understood to mean that Mr. Samuel Stevely would not be the board's representative, as Mr. McMahen favored the appointment of Hon. Adam Beck on the railway committee.

Mayor Beattie would not grant Mr. McMahen the privilege of naming the representative, and told him so. Ex-Mayor Stevely and Mr. McMahen also clashed over the letter, and Mr. Stevely protested against what he considered the unwarranted interference of Mr. McMahen. Considerable feeling was engendered

over the incident. Mr. McMahen withdrew the letter 199% 199% and it was not read at the council meeting. Mayor Beattie did not appoint Mr. Beck on the L. and P. S. board.

POWER PLANT CONTRACT

City Has Not Yet Signed Agreement With Mr. Beck - Other Business.

At the inaugural meeting of water commissioners some of the problems left over as unfinished businessheritages from former boards-were suggested by a letter of Secretary Ellwood. They included the appointment of a competent engineer to succeed Mr. Local Option in 121 Towns council did yesterday, have wood. They included the appointment the signing of the contract with Hon.
