Special to London Advertiser. ST. THOMAS, April 14.-Assessment Commissioner Freek has completed measurements of the buildings in the business district on Talbot street, according to the new system of assessing according to cubicle content, and has started measuring and classifying residences and other properties in assessment district No. 1.

Notices will, however, not be received by the property owners on Talbot street for some months to office, ripping open the safe come or until after the other disparting with the contents. tricts have been covered.

The new system requires a measurement of the cubical capacity of each building and this is taken though he claimed to have been into account with the finish, location, and general character of the

notices will be left in the homes instead of being mailed as heretofore, and this will mean a considerable saving in postage and clerical work. Citizens of the city will now know the amount of the assessment as soon as the commissioner comes around

This is the first year for the new RUM-RUNNERS system and for that reason the work will not be completed for som months. In succeeding years the assessment will not take so much time, because it will hereafter be necessary to measure only those buildings which have been erected in the meantime.

"Monoclass" means one class. Monoclass Cabin Steamships carry one class of cabin passengers only, instead of two (first and second).

The Canadian Pacific Monoclass Cabin Service to Europe is a moderate rate service, the rates of passage being only slightly in excess of regular second-class fare on two-cabin class ships.

Monoclass Cabin Steamships are comfortable ships. The "community" rooms around which the ship's life centres are bright, attractive and commodious. Passengers use all the upper promenade decks. The dining-saloon service and cuisine are of the highest standard. Staterooms are well furnished and well ventilated, with a courteous and efficient steward service.
