

LAWRASON'S WONDERFUL SOAP.

The purest and best soap made in America. Will remove all dirt, stains, and grime, and leave the skin soft and white. It is the only soap that will not crack or peel off the skin.

INSIST ON WONDERFUL SOAP.

A CALAMITOUS CHAPTER.

CHOLERA, FAMINE AND DISASTROUS FIRES.

Week's Reports Brought from Yokohama by the Steamer Empress of India.

Vancouver, B.C., May 3.—Advice brought by the steamer Empress of India, which arrived yesterday from Yokohama, are as follows:—

A big fire occurred at Kanda, near Behio, in the latter part of April. The fire started in the house of a charcoal merchant, and over 300 houses were destroyed, including the theatre, court house and three other public buildings. The Imperial Universal Hospital narrowly escaped destruction. Seven firemen were seriously injured. Several other persons were killed and injured.

Reports from Malacca say cholera is making terrible ravages, as many as 200 new cases being reported daily. A number of deaths from the disease have occurred.

Although it was hoped that the rider-pest had been stamped out, some cases had been reported at Kawabigun. Steps are being taken to prevent the spread of the disease.

Fire broke out in the Herosuites quarters at Tokio on April 13, and 45 buildings were destroyed.

Appalling distress has been caused among the poor of Shao Sin by the exceptional severity of the winter, and deaths from starvation have been numerous.

A very destructive fire occurred at Marilla on the afternoon of Good Friday, over 4,000 houses being destroyed and a number of lives being lost. Five bodies were recovered from the ruins. A number of persons sustained burns and other injuries while making their escape from the burning buildings. Great suffering has been caused as a result of so many persons being rendered homeless.

The fire is said to have originated from the upsetting of a lamp during a domestic squabble.

A famine is now prevailing in some sections of Ting Hai, near Ning Po, and the inhabitants—7,000 in number, men, women and children—have been going round in large bands demanding aid from rich people in the neighborhood. As a precaution against possible riots, a large body of troops have been quartered in the famine districts. No outbreaks have yet occurred, however, as the gentry, when asked for aid by sufferers, have generously responded to their prayers. Some rich officials and bankers, who own that portion of the country, and who are sojourning at Shanghai and Tientsin, have already subscribed, and nearly 40,000 taels for distribution in the famine district has been given.

San Francisco, Cal., May 3.—Advice from China and Japan say stringent measures have been taken at all ports to prevent the introduction of cholera. The disease is raging at Malacca. Cholera has appeared at Nagasaki. Singapore papers report the death of Chief Justice Sir Eliott C. Riville.

A serious riot was in progress at Seoul, Corea, when the steamer left. The foreign residents took refuge in the Legation. The man-of-war Yvernia was hastily despatched from Yokohama for Corea. The trouble is supposed to emanate from the Togaku-to, the Oriental learning party, numbering 200,000, who some time ago demanded the expulsion of a large number of foreigners. Later they sent a second deputation reiterating the demand. The deputation were arrested. Summary action is supposed to have precipitated the trouble.

The River Hoang-Ho has overflowed its banks with disastrous results. Some 400 villages were flooded late in March, with great loss of life. On March 28th the river again broke its banks in two places at Zor-Katoo, doing still greater damage. Refugees from the flooded districts are pouring into Tien-tsin.

THE FIRE RECORD.

Louisville, Ky., May 2.—The electric power building is burning down. A wall has just fallen, and several men are reported killed. The loss will be half a million dollars.

Ridgetown, Ont., May 3.—The hotel at Crystal Beach, the popular summer resort on Lake Erie, near this village, was completely destroyed by fire about noon to-day. The fire, which is supposed to have originated from a natural gas explosion, was confined to the hotel proper, the large new dining hall escaping destruction. The loss is heavy, partly covered by insurance.

Port Hope, Ont., May 3.—About 7.30 to-night fire again broke out in Trinity College School. Firemen were promptly on hand and extinguished the fire without much damage being done. Origin of fire not yet known.

That cure of Geo. W. Turner, of Galway, N. Y., of scrofula, by Hood's Sarsaparilla, was one of the most remarkable on record.

Five Persons Drowned.

Searcy, Ark., May 3.—Five men lost their lives in the Little Red River here yesterday by the upsetting of a boat.

A FOOT-HOLD for Consumption is what you are offering, if your blood is impure. Consumption is simply Lung Scrofula. A scrofulous condition, with a slight cough or cold, is all that is needed to develop it.

But just as it depends upon the blood for its origin, so it depends upon the blood for its cure. The surest remedy for Scrofula in every form, the most effective blood-cleanser, flesh-builder, and strength-restorer that is known to medical science, is Doctor Pierce's Golden Medical Discovery. For Consumption in all its earlier stages, and for Weak Lungs, Asthma, Severe Coughs, and all Bronchial, Throat, and Lung affections, that is the only remedy so unfailing that it can be guaranteed. If it doesn't benefit or cure, you have your money back.

No matter how long you've had Catarrh, or how severe, Dr. Sage's remedy will effect a permanent cure. \$2.50 reward is offered by the proprietors of this medicine for an incurable case of Catarrh.

A PROHIBITION PLEBISCITE.

Minister Ross Introduces His Promised Bill.

A REMARKABLE MEASURE.

The Vote to be Taken at the January Elections, the Cost to be Borne by the Municipalities—A Special Ballot for Women.

Special from our own reporter.

Legislative Chamber, Toronto, May 3.—"Fake" legislation received a striking exemplification in the Legislature this afternoon, when Mr. G. W. Ross introduced his Bill for the taking of a plebiscite on the temperance question, and did it with a speech, for the delivery of which, with a straight face, he deserves a good deal of credit as an actor, for it was as full of humbug and sophistry as could well be imagined. The Bill provides that the vote shall be taken at the municipal elections in January next. Two styles of ballots will be used—one for men, and another for women. Here was where a specimen of Mr. Ross's sophistry occurred. The Bill says that the ballot for men shall be yellow in color, that for women blue. Mr. Ross said that the idea of this was to facilitate the counting of the ballots, and in order that they should be fully and easily distinguished from the ordinary municipal ballots. He actually said that without laughing, when to a babe it is as clear as noonday that the object of the different colored ballots is to enable the Government to size up the way the men and women respectively vote. There is nothing particularly wrong in this if it were done straightforwardly, and why Mr. Ross should shuffle and evade as he did when the plain, wholesome truth would have served equally as well, if not better, passes comprehension. It can only be set down to a natural liking for the crooked path and a desire to humbug his hearers. The Bill also provides for the appointment of scrutineers on behalf of the temperance party and of the liquor dealers, but—and this is the most important point of it—all the expense is to be borne by the municipal councils. Just here comes the thought, what would be the result if municipal councils ignored the passage of the Bill and neglected the taking of a plebiscite? It is quite clear they could do so if they felt so disposed, and what could the Legislature do? In his subsequent remarks Mr. Ross revealed the true inwardness of the whole "fake" when he said that a voter marking his ballot for prohibition would be regarded as asking the Legislature for prohibition only so far as it might be determined by the courts that the Legislature had power while they would be considered as asking the Dominion House for prohibition straight. The rest of his speech was a recapitulation of his own record as a temperance man, and although he did not put it in exactly so many words, it was simply an apology for his vote against the Martlet Bill.

At the first of the day was also devoted to discussion of the temperance question in general form, on a motion for correspondence between the Government and a license inspector. The features of the debate were a broad allegation by Mr. Campbell that the inspector of Eastern Algonia had been drunk in a hotel on a Sunday, and had been seen gambling in a hotel, and a further statement by Mr. Meredith that a couple of hotels in West Elgin were the property of the wives of two of the commissioners.

Mr. Mowat, in the course of the debate, admitted that all the commissioners were Grits. It had been, he said, intended to have a Conservative on every board, but the pressure from the party was too great and they had to make them all Grit.

GOSSIP FROM THE GALLERY.

It was shown at the Public Accounts Committee meeting to-day that the Brandon Manufacturing Company owe the Province some \$8,000 on account of Central prison labor. The Warden has frequently called the attention of the Government to the matter, but it has always ended there. It might be interesting to know who compose the Brandon Manufacturing Company. It might explain some election subscriptions, the reason for which doesn't appear on the surface.

An amendment to the Health Act permits municipalities to issue, without a vote of the people, debentures to cover any cost incurred in taking precautions against cholera. This law is only to remain in force for one year.

Mr. Meredith forced a division again this afternoon on the proposal to divide the office of County Crown Attorney of York. Fifty voted for the Government's proposal to create an office for a supporter, and 32 against it.

MEETING THE MINISTERS.

Toronto Deputations Discuss the Question of Farin Reform Privately.

Toronto, May 3.—The corridors leading to the rotunda of the Board of Trade were lined to-day with deputations, representing the several sections of the Board, awaiting their turn to discuss the question of tariff reform with Ministers Foster, Bowell and Anger. For the past week preliminary meetings were held by the sections and arrangements made with Secretary Willis whereby certain hours were allotted to each deputation. The proceedings were not confined to lengthy speeches by one or two of the members of each deputation, but were of a conversational character, in which everyone was able to express his opinion on the question at issue. The discussions were of a private nature and centered on the question of tariff reform. There were also present at the interviews our three local members, Messrs. Maclean, Cockburn and Denison. Deputations representing the following industries were:—Wholesale grocers, dry goods, bar-wire manufacturers, locked wire fence, linen bag manufacturers, soap manufacturers. On Friday morning at 10 o'clock the Ministers will inspect the Massey Manufacturing Co. Works, and at 2.30 p. m. they will hear a deputation from the manufacturers of leather. At 3.15 p. m. the Council of the Board of Trade will interview the Ministers in connection with the mail service between Toronto and New York.

All Men.

Men, young, old or middle-aged, who are weak, nervous and exhausted, broken down from overwork, or from any cause not mentioned, should send for and read the box of Labon, a treatise on diseases peculiar to men. Sent sealed, secure from observation, on receipt of 50c in stamps. Address: M. V. LUBON, 24 Macdonald Ave., Toronto.

24 Macdonald Ave., Toronto.

BREAK IN A RESERVOIR.

ALMOST ANOTHER JOHNSTOWN DISASTER.

A Flood Ten Feet Deep and Three Miles Wide Sweeps Everything in Its Path—Terror Stricken People Flee for Safety—No Loss of Life Reported.

Urbana, O., May 3.—The greatest calamity that ever came to the people in Logan and Hardin counties was that of last night, when the Lewistown reservoir broke and turned an immense flood of water upon the residents along its course. The break was in the north-east corner of the reservoir, where a "waste" way, 820 feet in length, is located. A break 250 feet wide occurred, and the water came rushing down in a flood 10 feet deep and three miles wide, completely submerging the country around and carrying everything in its way. The big covered bridge, 150 feet in length, was swung completely round and then torn loose and swept away. In the course of the flood stood the houses of Jack Smith and Wm. De Vault and a large number of tenement houses and squatters' and bachelors' homes. All of these were submerged, though fortunately everybody managed to escape from the danger. People fled in terror from their homes, while the swift-rushing flood came on down the valley, taking everything before it. The first town along the course of the flood is Port Jefferson, where the dam throws the water into the Miami Canal. A portion of the town is very low, and it was badly flooded. Quincy, Loganville, De Graff, Piqua, Troy and Dayton are also in the course of the flood. The artificial bank of the reservoir is five miles around, and most of the way they 20 feet above the land, and the bottom of the reservoir is at least 10 feet above the immediate country below. Water averaged 10 feet deep over the whole reservoir. The reservoir is located five miles north-east of Huntsville, Logan county, and contains 12,000 acres. Hundreds of families left their homes and fled out of the reach of the coming torrent. So far no loss of life has been reported, but when the floods subside it will likely be revealed that more than one unfortunate perished. The damage to property in Logan county alone is estimated at \$50,000. Many farmers will lose everything but their land, and they will be financially ruined.

RIVERS STILL RISING.

Cincinnati, Ohio, May 3.—Special despatches report raging floods all over Southern and Central Ohio. The Scioto river at Chillicothe has cut off every wagon exit from the city, except one leading from the west. Below Chillicothe the great valley is an immense lake. The Baltimore and South-western and the Norfolk and Western Railway tracks are partly submerged. The river is still rising rapidly. The damage to the Ohio Canal will be great. Circleville reports great damage. At daylight the Big Miami is rising, and there is a prospect of a happy escape by that city. A bridge spanning the Big Miami at Miami town was completely washed away yesterday. Springfield, Ohio, reports the bridges of the Ohio Southern washed away, but the waters are receding. The greatest floods and the great losses will be in the rich corn raising valleys of the Scioto and its numerous tributaries, where such another flood was never known. Ground there was plowed, ready for planting, and all this will have to be done over again.

FOR CUBAN FREEDOM.

Grand Reception of Senor Marti, the Revolutionary Leader.

The People Depend on Him to Free Them from Spanish Rule.

New York, May 3.—The Herald's Key West, Fla., correspondent writes to-day that Senor Jos. E. Marti arrived from Tampa this afternoon. By the time the steamer reached her dock every residence and business house occupied by Cubans was gay with bunting and Cuban flags. Representatives of sixty voluntary lodges carrying banners and flags, headed by brass bands, marched to the dock. Marti had landed, and was awaiting the arrival of the procession. He was surrounded by enthusiastic crowds waving their hats and shouting—"Viva Cuba Libre." When the procession started he marched with him behind a band to the residence of Theodore Perez, his host. The crowd tried over and over for a sign or a hand clasp from the man in whom they have put their trust for leadership. The crowd was soon dispersed, and then Marti attended a council with the Junta, a board of revolutionary leaders. Addresses will be made at a mass meeting in Jackson Square Monday night. Marti addressed the largest crowd of Cubans in Tampa Monday night that was ever gathered there.

In an interview Marti said Cuba was ripe for rebellion. The revolutionary party is not to be suppressed, and has opened channels through which the war is to be conducted. It is to be a revolution in keeping with the dictates of humanity and practical democracy. Marti says Spain is afraid, yet it desires the premature outbreak in the hope of quelling it the sooner. He does not pretend to prophesy the outcome of the movement. Such depends on Spain, but he evidently believes it will spread all over the island, having begun in the most populated part of the island. He insists that the revolutionists will respect the rights of this Government, and it is certain that the mistakes made in former expeditions will not be repeated.

Five hundred men met on a retired portion of the beach last night, and were addressed by prominent speakers, who called on volunteers. From eighty to one hundred men stepped out and pledged themselves to fight for Cuban freedom. The custom house force still guard the beach, and the United States cutter is ready to sail at a moment's notice. It is reported the cutter McLane has been ordered to sail on a cruise to Cedar Keys at daylight. It is said the district of Manzanilla has been added to their contingent for the rebellion under Mariano, a chief of the former war. News has been received that the insurgent forces number not less than 2,000 well-armed men, who have had previous experience and are operating in the mountainous regions of the recesses of which are well known to them. Even considering the suddenness of the outbreak it does not seem possible that the revolution can easily be quelled. The leaders' meeting last night was very harmonious, and all are ready to face any difficulty. It is known here that Gen. Gomez is in Cuba, as has been reported.

New York, May 3.—A special to the Times from Key West, referring to the Cuban rising, says:—There seems to be but little doubt that an expedition will leave in a short time. It is believed that as soon as the cutter McLane leaves this port and the moon wanes, a party will embark for Cuba.

MONTREAL.

Navigation to Quebec Opened—Frightful Death in Jail—Precautions Against Cholera—A Telegraph Operator Drowned.

Montreal, May 3.—The ice bridge which had so long blocked navigation between here and Quebec has given way and the first ocean steamer to reach Montreal this season arrived in port to-day. Fifteen steamers which had been delayed below by the ice are to arrive to-day, and tomorrow the biggest fleet on record. The Richelieu Steamer Quebec arrived from Sorel to-day and goes on the route between Montreal and Quebec to-morrow.

Trade is paralyzed here by the non-opening of the canals. The bridges across the Lachine Canal are not ready so that boats cannot get up.

A prisoner in the Montreal jail named John McVey died to-day from the effects of a kick received. The circumstances are mysterious, as it is not known whether the kick was given by a fellow-prisoner or one of the guards. An investigation will be made.

A report is in circulation here that Mr. W. D. Foad, who formerly worked in the offices of the C. P. R. Telegraph, Montreal, was drowned yesterday at East St. Louis. Mr. Foad was well known among the telegraph fraternity of Canada and the United States, and belonged to Toronto.

The various municipalities in the Province, acting on instructions from the Provincial Board of Health, are taking stringent precautions against cholera.

Fire at the Montreal annex this morning destroyed a house belonging to C. R. Dinick, of Toronto, and valued at \$3,000.

THE NEWS IN BRIEF.

CANADIAN.

The first steamer of the season have left Quebec for Montreal.

Mr. Geo. Jenkins, who served in the rebellion of 1837, died at Belleville Tuesday, aged 89 years.

The Patrons of Industry in Ontario propose holding political picnics through the country next summer.

W. P. Hussey, of Boston, has purchased the iron areas of the Inverness & Richmond Coal & Railway Company at Mycomagh, Cape Breton.

The Shipman murder trial has been adjourned until the fall sittings of the Brockville Assize Court, owing to the serious illness of Mrs. Wheeler, an important witness.

The tug John Logie was successfully launched at Goderich Tuesday evening. Mrs. Miller, of the Albion Hotel, doing the honors of christening the staunch craft. The Logie is a fine specimen of marine architecture.

Mr. Corbett, the well known assistant secretary of the Montreal Y.M.C.A., has been chosen by the International Committee on Foreign Work to represent it in Honolulu. He will leave for his new field of labor at the end of the present month.

A Cornwall despatch says:—Navigation was delayed a few hours on the canal to-day, caused by some gravel getting in the track of the gate in the Maple Grove lock. The gate was closed after some difficulty. The report that a break occurred is incorrect.

Major W. H. Cooper, of the Toronto Mail, who had just returned from visiting the new gold mining property at Carleton Place with a palatial accident at the Intercolonial Railway station at Truro, N. S., Monday, severely spraining the right ankle and leg and being otherwise injured.

The body of a man, Joseph Bowen, an hostler, about 50 years of age, and a resident of Lindsay, was found drowned near that place Tuesday. It is supposed he was walking on the boom, when he fell in the river and was carried over the falls. His body when found was jammed under a pier below the dam.

Woodies village had a cholera scare yesterday. An employee at Haynes & Platter's mills was taken suddenly ill and died in a few minutes. A report was circulated that the symptoms strongly resembled those of cholera and they placed his body in a coffin and shipped it to Detroit, where his parents lived. No inquest was held.

The Earl of Derby has notified his servants at Richmond Hall that he will no longer require their services at the same time giving them three months' pay from Tuesday. He informed them that he would recommend them to his successor in office. His Excellency will likely leave first of August, when the new Governor General will arrive.

Mr. Richard McGovern and Mary Barkley, members of the Roman Catholic congregation at St. Andrew's, were excommunicated by Archbishop Clancy, of Kingston. Mr. McGovern was divorced from a former wife, and had been married to Miss Barkley by a magistrate at Ogdensburg, N.Y. Their offence was in living together.

AMERICAN.

Rev. Tom Sing, of Chicago, is sick in bed at Tacoma, Wash., and Collector Wasson has refused to admit 216 Chinese actors who arrived by the steamer Victoria, and all of whom Rev. Sing expects to take to Chicago as part of the Chinese World's Fair exhibit.

A Band of Moonshiners Captured.

Wheeling, W. Va., May 3.—The largest haul of moonshiners ever made in West Virginia was closed up yesterday, and the moonshiners, forty-five in number, are now en route to Charleston in charge of a strong posse of United States marshals and guards. Among the prisoners are two women, Clara Smith and May Betchell, who have been particularly active and successful in making mountain dew for several years past. They were all rounded up in Milledge County, and their arrest practically breaks up the moonshine business in that part of the State.

A Southern Tornado.

Charleston, S. C., May 3.—A tornado passed through a portion of Lexington and Newbury counties to-day, wrecking houses and mills and destroying barns, stables and outhouses. Much damage was done to orchards and woods. A white woman was killed and a number of persons were injured.

Mr. Henry Graham, Winham, writes us:—"For fifteen years I have suffered with indigestion, and during that time I could get nothing to give me relief, although I tried a great many different kinds of medicine recommended for that complaint. I now feel like a new man, and this wonderful change has been accomplished by the use of four bottles of Dr. Williams' Pink Pills for Pale People. To me it is a valuable medicine."

London Furniture Mfg. Company

184 TO 198 KING STREET, LONDON, ONT.

The steamer Sitka, bound down Lake Huron, loaded with 85,000 bushels of corn, went ashore at 12 o'clock on Monday night on the reef at Kettle Point, 20 miles above Fort Gratiot light, on the Canadian side. When she struck the reef she knocked her foremast off, and is leaking badly. She is out about two feet aft, having bounded over the reef. The tug Wales with lighter and full wrecking outfit left to assist her. The Sitka is owned by Captain Thomas Wilson, of Cleveland.

SHILOH'S CURE.

Cures Consumption, Coughs, Croup, Sore Throat. Sold by all Druggists on a Guarantee. For a Same Side, Back or Chest Shiloh's Porous Plaster will give great satisfaction.—25 cents.
