## From THE DAILY COLONIST, August 25.[

The Matter of Re-Division of the Wards Held Over for Further Discussion.

Bridge Aid Proposal Before the Government-Water Service Arrears-By-laws Advanced.

All the members except Ald. Williams were present at the regular meeting of the city council last evening, Mayor Beaven presiding.

A report from the police commissioners recommended that they be authorized to appoint a woman to act when necessary as female warder at the city gaol. The commissioners did not think it necessary to employ a matron permanently. The recommendation was referred to the finance committee.

A report from the water commissioner contained a list of persons resident outside the city limits who are in arrears water service. This included about fifteen names, with arrears totalling \$217.28, covering periods from one month to fourteen months. It was resolved that the water commissioner be instructed to take proceedings for collection from those in arrears for more than three months, and to shut off the water if necessary. Ald. Macmillan spoke several times on this subject, and during his concluding address it was necessary to wake a man in the audience who was snoring too loudly. "I am not surprised that there is a man asleep," remarked the Mayor.

Wm. Beaumont wrote from Duncan complaining that a man lately arrived from Washington had been put in charge of the agricultural grounds in his place, though upon temporarily removing to Duncan he had left the key with his wife take care of them. It was resolved to notify Mr. Beaumont that his successor, Mr. Johnson, had been appointed on the supposition that the office was vacant.

The secretary of the Anti-Mongolian Society at Vancouver forwarded copies of their printed matter and stated that two delegates from Vancouver would probably attend the meeting here.

The city solicitor wrote suggesting a Supreme court as sole arbitrator, in the matter of the land on Herald street in dispute between the city and the St. that this suggestion be acted upon, but only he and Ald. Wilson so voted, and the letter was filed.

The sanitary officer reported on the state of the Victoria Chemical Works, which he had visited on account of complaints made. He found that a few alterations at small expense, which the owners are quite willing to make, will likely remove the cause of complaint. The matter was left in the hands of the

sanitary officer to deal with. Drake, Jackson & Helmcken, representing the owners of the McTavish pronatural watercourse has been so obstructed that the water in winter is penned up on the property mentioned;

The following report was presented signed by Ald. Tiarks and Williams:

VICTORIA, August 21, 1896. GENTLEMEN: -We, your committee appointed in accordance with a resolution of the council as contained in a letter receiving financial aid from the provincial government towards the construction of a steel bridge, have waited upon the provincial government and placed the question most carefully before them. Acting upon the suggestion of the govbe placed before the government in writing, having received the assurance of the Hon. the Provincial Secretary that the same will receive the careful consideration of the executive. That the city clerk be now instructed to place in the hands of the Hon. Col. Baker full information as to the desire of the council as expressed in the resolution dated 3rd July, 1896, "re steel

Ald. Macmillan contended that this was not a report from the committee because he had not gone with the other two members and did not know the time when they did go. Ald. Tiarks explained that when Ald. Macmillan was asked, as the member first named, to call the committee together he refused to do so or to go with them to interview the government. They had therefore gone without him, and their report was It was resolved that a copy of the resolution be forwarded to Hon. Col. Baker

ALD. MARCHANT moved the resolution of which he had given notice calling for guardians of the game law are key certain information with a view to a redivision of wards; explaining that at present the representation of the North far forgot himself Sunday as to shoot Ward is altogether disproportionate to its large area and population. He wishes four wards, each returning two aldermen, in place of three wards returning three each as at present.

ALD. WILSON opposed the resolution, but would favor doing away with ward divisions altogether. ALD. MACMILLAN endorsed Ald. Marchant's proposition only because there is

no better one. ALD. PARTRIDGE thought the city got

along very well under the present plan, and as the hour was getting late he moved that the council adjourn. This motion was lost on division, and

Ald. Cameron, was adopted. had given notice, asking for information with respect to the waterworks contract,

The market regulation by-law was re-

onsidered, adopted and finally passed The council, at 10:35 p.m., went into private session in the committee room o consider certain important business brought forward by the Mayor.

## THE CITY.
