

POSTPONEMENT OF COMMERCIAL COURSE URGED

DR. RAMSAY RANKIN STABBED TO DEATH IN MONREAL APARTMENT

Famous Hockey Player of Stratford, and Well Known Here, Victim of Quarrel.

TWO MEN, TWO WOMEN, ARE HELD BY POLICE

Police Find Bread Knife In Room Where Party Had Been Held.

MONTREAL, June 1.—(Canadian Press Dispatch).—Cut to the bone at the elbow and wrist, following a quarrel, the cause of which has not yet been ascertained, during which he was thrown through a glass door at the apartment house of J. B. Gunn, at 624 St. Catherine street west, Dr. Ramsay Rankin, of Stratford, Ont., died in the Western Hospital early this morning.

Two men and two women were being held this morning by the police for the coroner's inquest.

Dr. Ramsay Rankin was the son of J. P. Rankin, at the time the mayor of Stratford, and also a member of Parliament for North Perth. He was a great amateur hockey player, figuring prominently on his home town team and with McGill.

Party Interrupted. From information gathered by the police it appears that a party took place at an apartment at 624 St. Catherine street west. Around 11 o'clock, occurred in other apartments heard the front door bell ring. The door was opened and almost immediately a quarrel ensued. A sound of crashing glass was heard and when an investigation was made in the apartment where the body was found, a pool of his own blood. He was in his underclothes.

It is thought that Dr. Rankin was first stabbed with a knife and then thrown through a door, the glass in which cut him in several places. Occupants of the building telephoned for the police and an ambulance was brought. At the Western Hospital where the wounded doctor was taken, the artery in his right arm was found to have been cut. He was partly conscious, but his talk was incoherent. He died early this morning without having explained the affair.

FIND BREAD KNIFE.

When the police examined the St. Catherine's street premises they found glasses and two bottles of liquor. The furniture was knocked over and a struggle had taken place there and on the floor was found a large bread knife.

It was learned by the police that Dr. Rankin was staying in the apartment with a college chum. Among those who act as witnesses is James Brown Gunn, of Apartment 12, 624 St. Catherine street west. One man, minus his coat, left the house before the other was taken to the hospital. The witness declared when questioned by Inspector Cowan and Detectives Crowther, Broder and Monarque.

The detectives after securing several versions from the inmates of the apartment house, acted on the fact that one of the occupants of the apartment was in a position to have taken place at Gunn's rooms and who formed the party at the apartment house.

No one was found who could offer any explanation as to the cause of the fight or the identity of the other participants.

ROUSED BY NOISE.

When the fight occurred occupants of the other apartments in the house were aroused by the noise. On the third floor of the house, on the northeast side, is the scene of the fight. The participants in the fight were in the apartment of Gunn, and, according to what the detectives were able to learn afterwards, the fight took place in the hallway outside the door of the apartment. Information given to the detectives was that the door bell of the Gunn apartment had been rung and that someone had gone to the door and opened it. It was then that the fight started, according to occupants of the apartments on the same floor. The fight started quickly and was over almost as quickly. It is thought that Dr. Rankin was first

Man Who Captured Garfield Writes Sympathetic Letter And Offers Assistance

Condemned Man Reads It, But Pushes a Dozen Others Aside Unopened.

WOODSTOCK, June 1.—(Canadian Press Dispatch).—The most outstanding and dramatic letter of all those received by Norman Garfield, perhaps since he has come back to the town, was the one addressed to him by John Tracey, the man who put the handcuffs on him while he lay pinioned on the ground at Stewarttown on Friday afternoon.

Received by an officer yesterday morning, it was relayed by the sheriff to the justice who just before he took the provincial officers to the train after the inquiry yesterday afternoon. Letters, like all the things of life, that ordinarily are looked forward to with a thrill of expectation, have no interest to the condemned man. "A dozen more of them from the United States and Canada," he was heard to say yesterday and somewhat cynically, yesterday morning as he brushed a pile of them, noticeably increasing since his recapture, aside unopened.

PRACTICAL SYMPATHY. But John Tracey's letter was not

QUITS LICENSE BOARD.

J. D. FLAVELLE, chairman of the Ontario License Board, who retired from that office June 1.

WOODSTOCK, June 1.—(Canadian Press Dispatch).—Norman Garfield spent his second last night on earth practically the same as the many others he has spent in Ontario County jail. He has taken a great notion to one of the provincial guards sent here by the Government and while he is on duty sits at the cell door and chats with him for hours.

GARFIELD IS QUITE COOL ON HIS LAST DAY

Talks To Guards For Hours. Spent Last Night Much As Usual.

HIS ATTENDANTS SAY HE WILL DIE GAME.

Restrictions May Be Somewhat Relaxed When Last Good-Byes Are Said To-Day.

WOODSTOCK, June 1.—(Canadian Press Dispatch).—At 2:15 this morning the House of Commons divided on an amendment moved by W. D. Euler to the Government Bill amending the Dominion Elections Act.

ELECTION ACT BILL CARRIES IN HOUSE

OTTAWA, June 1.—(Canadian Press Dispatch).—At 2:15 this morning the House of Commons divided on an amendment moved by W. D. Euler to the Government Bill amending the Dominion Elections Act.

FAIR-COOL. PROBABLES.

Moderate to fresh northeast to easterly winds; fine and comparatively cool today and on Thursday.

NOTES.

A disturbance which developed yesterday over the Toronto-St. Lawrence valley has moved out over the Gulf of St. Lawrence.

BIG CHANGES IN HIGH SCHOOL SECOND-YEAR COURSE TO BE SPREAD OVER TWO YEARS IN FUTURE.

FOUR-YEAR COURSE FOR MATRICULATION.

Teach General Course That Will Lead To University Or Normal School.

Sweeping changes in the high school courses study will be announced within a few days and Principal W. H. T. Moore, of the Collegiate Institute, today outlined some of the more important ones.

The new secondary course will be a compulsory four-year course for matriculation and Normal entrance, which will be effected by making both a junior and a senior school in place of the present one-year middle school.

Mr. Moore also pointed out that the Collegiate Institute, beginning next fall, will teach a general course, which will not lead either to university or Normal School, but will be completed in itself. In fact, a junior university course sufficient in itself to give young men and women a groundwork of culture only secondary to that acquired in universities.

This general course will also be very practical in that the peculiar needs of the students taking it will be considered. A young man planning to be a master plumber will not be called on, in the general course, for proficiency in Greek; a young woman with an ambition to become a trained nurse or social worker will not be required to specialize in trigonometry.

Wide latitude will be allowed principally in the changing of the course to meet local needs. But one of the most important changes to go into effect next fall is that all courses of study will be greatly amplified and that no student will be allowed to take more than eight studies at one time.

In the first year of high school only three subjects will be obligatory, namely, English literature and composition, geography and Canadian history, and algebra and geometry. Optional subjects of which only five may be taken include arithmetic, grammar, art, geography, biology, Latin, French, Greek, German, Spanish or Italian, music, and physical education.

Mr. Moore stated that the change would not come a moment too soon for the good of the pupils, teachers and the school system. The three-year course hitherto in force has worked a strain on pupils that proved prominent local physicians have several patients as harmful to the health of pupils.

Negroes and Whites in Fierce Fight; 75 Slain; Troops Are Called Out

Tulsa Center of Race Riots, Which Are Spreading Through Oklahoma.

500 WHITES BATTLE WITH 1,000 NEGROES. Trainmen Who Passed On Tracks Between Factions Among the Victims.

VANCOUVER, B. C., June 1.—Clad in khaki overalls, stout boots and a pack slung from his shoulder, W. H. Coulter, left yesterday on a march to Ottawa, where he will lay a grievance as a soldier before the Government.

Coulter served in the royal navy during his younger days, but when the war broke out and joined up, although he was then 52 years of age. He was later invalided out of the Canadian army on account of the Royal Imperial Engineers.

He asked to be re-established as a navigator, but says he was informed he was too old to take a course and one of his complaints is that he was not too old to go to France. Another of his grievances is that he was given 42 days' field punishment while in France and landed to the wheels of guns in action.

It is these matters he hopes to call attention to by walking to Ottawa.

THROW SAFEGUARD ABOUT INFANTS. Social Service Council Stages Baby Weeks.

LOWER MORTALITY. Rev. Peter Bryce Director of Child Welfare.

His majesty the baby to be elevated to a pedestal and showered with all sorts of attention by the Social Service Council this year. More welfare weeks will be held throughout the province and special clinics will be established as a result of the decision reached by the executive committee of the provincial council which met at Toronto yesterday and at which the director, Rev. P. D. McCullough, was present.

"We are practically certain that Rev. Peter Bryce will accept the position which has been offered him as director of child welfare for the province," said Mr. McCullough. "With a man of his outstanding ability at the head of this important department, the work is bound to progress. I don't believe there is a man in the Dominion more qualified to undertake the duties of director than Mr. Bryce, who has so successfully extended the Mothers' Allowance Act throughout the province."

Propaganda for the amendment will be relied upon by the new director to focus the attention of the public on child welfare. Literature and exhibits of an appropriate nature will be supplied, while educationists who are posted on the needs of the work will lecture at different intervals throughout the province when welfare weeks are being held.

SAVE THE BABIES. One of the main objects of the work is to reduce the excessively high mortality rate among young children. In cities like London it has been shown that by prenatal clinics and other attentions the percentages can be reduced where the deaths among infants up to a year old have been exceedingly numerous.

The aim of the child welfare week which has been held in this city and in other parts of the province, is twofold—educational to the community and to the individual parent. By means of a concentrated week's attention on the child the individual citizen is roused to the claim of the baby and the child upon the municipality.

MONTREAL, June 1.—As a result of the United States emergency tariff, cattle prices in the market here have fallen two cents since the tariff was imposed, stopping of the exportation of stock to New York State.

TORONTO JOB PRINTERS ON STRIKE FOR 44-HOUR WEEK AND HIGHER WAGES

Between 2,000 and 3,000 Employees Are Affected—Printing Houses Are Standing Firm.

TORONTO, June 1.—From 2,000 to 3,000 employees of printing houses here are on strike to-day, as expected. The men are asking for a 44-hour week with a minimum wage of \$44, while the employers represent by the Toronto Typothetae, made a final offer of \$36 for a 48-hour week or \$33 for a 44-hour week.

Rev. S. W. Falls, of the Methodist Book Room, who has been appointed as chairman of the employers' defense committee, said this morning that there had been no fresh developments overnight. He said that the employers were resolved to stand firm in the belief that the industry would not bear any more costs than those at present shouldered.

The employees are prepared for a protracted strike, having recently levied a 10 per cent. weekly wage assessment on its members. It is expected that the Toronto printers will receive \$17 a week strike pay for single men, or \$22 for married men.

AT OTTAWA, TOO. OTTAWA, May 31.—Printers, pressmen, book binders and apprentices will strike in 15 out of the 23 job printing companies in the city to-day, as announced by union leaders announced to-night. About 300 members of the International union are affected. The only newspaper affected will be the French daily, Le Droit, where 10 of the members of the union are employed. The employers have called on Le Droit printer along with the job men on the ground that the management of the paper uses its new machines for job printing work.

Le Droit in commenting upon the situation says that, while the management is ready and willing to negotiate with its employees, it will refuse absolutely to take any contract with an association which is irresponsible in this country and which does not respect its engagements.

STRIKE AT VERA CRUZ. VERA CRUZ, June 1.—A 24-hour general strike was begun here at 7 o'clock this morning as a protest against the deportation of Mexico of alleged extremist leaders during the past two weeks.

DR. NOBLE FINED. For Mixing Hard Stuff With His Ginger Ale. TORONTO, June 1.—Dr. John Noble, former "dean" of the Toronto Board of Education, was today fined \$100 and costs or 30 days under the Ontario Temperance Act for "drinking liquor in a public place." The doctor was one of the prominent citizens who were caught in the act of drinking at the Victoria race track with a little something harder than water. Other defendants are still to be tried.

NOTE CIRCULATION. OTTAWA, June 1.—Dominion note circulation on May 26 totaled \$263,706.491. It is covered by gold to the extent of \$81,132,001, and by deposits of approved securities to the extent of another \$147,172,775.

WORKERS AT HOSPITAL GO OUT ON STRIKE. HAMILTON, June 1.—Because some nonunion men were put to work, the colored men, carpenters and plasterers employed at the Ontario Hospital for the Insane, in the rebuilding of the Orchard House wing, destroyed today the use of such devices this morning. Nelson Hicks, provincial architect, is being sent for.

FIRST PROSECUTION UNDER AMENDED PURE FOOD ACT. The first proceeding under a recently added section of the Dominion Food and Drugs Act, which prohibits the use of artificial coloring matter in the manufacture of sausage, was taken by William E. Wilson, Dominion food inspector, against the St. Thomas Packing Company and this morning William S. Robbins, the manager of that company was fined \$25 and costs.

Inspector Wilson said afterwards that all violations of the act will be prosecuted and penalties imposed. The case of Mr. Robbins was the first and the only one in which he was found guilty of such a violation. The case of sausage taken from the packing company's plant by the inspector.

Inspector Wilson said afterwards that all violations of the act will be prosecuted and penalties imposed. The case of Mr. Robbins was the first and the only one in which he was found guilty of such a violation. The case of sausage taken from the packing company's plant by the inspector.

ASSEMBLY TOLD COMMERCIAL COURSE TO BE EXTENDED FROM TWO TO THREE YEARS

PROGRESS IS MADE; CO-OPERATION URGED.

Financial Report Shows Presbyterians Had Record Year of Giving.

TORONTO, June 1.—(Canadian Press Dispatch).—Unanimous agreement recommending the Presbyterian general assembly further postponement of organic union with the Methodist, Congregational and Anglican churches has been reached by the church union committee which will report to the assembly this week, according to The Toronto Telegram.

The report recommends, it is understood, a constitution of co-operation with the other denominations toward Christian unity, but the committee is of opinion that the time is not ripe for actual organic union.

Incidentally this is the first time that the Presbyterian church union committee has reached a unanimous report on this contentious subject. At previous assemblies a minority report has always been presented.

THE YEAR'S GIVING. The grand total of the giving of the Presbyterian Church in Canada during 1920 for maintenance, equipment and extension reached the sum of about four and a half million dollars, or to be more exact, \$4,464,566, the highest figure in the history of the church in Canada. This was the summary of the report presented by the treasurer, Rev. Robert Laird, D. D., for Western Canada, and Rev. Thomas Stewart, D. D., for Eastern Canada, at the General Assembly, which opened for business here to-day.

Forward movement thank offerings constituted the largest individual item on the list making up the total of \$2,619,175. The budget giving of congregations totaled \$1,185,538.

Contributions to the China famine fund made up \$237,594, and the amounts raised by the women's missionary societies totaled \$220,000. The total amount to the church funds amounted to less than \$100,000.

The treasurer reported that the Forward Movement campaign for subscriptions amounted to \$5,272,000, of which \$2,729,000 had been paid in. The objective subscription for this fund was \$4,000,000.

The budget for the year showed an increase of \$18,304 over those of 1919, and of \$160,437 over those of 1918.

The total amount for the maintenance of missionaries, educational and benevolent work was \$1,872,663, as compared with \$1,615,155 in 1919 and \$1,387,739 in 1918. This is known as "budget revenue," including congregational giving and other receipts, amounting to \$1,377,826 in 1920, \$1,151,710 in 1919, and \$1,005,436 in 1918.

CHURCH IS UNDIVIDED. Introducing Dr. Chappell, Rev. George Dewitt, of conference, commented upon the fact that the Washington visitor was here because of a visit of London men to the United States capital on the occasion of the recent brotherhood convention.

"It seems to me," he said, "that whatever political or other walls they may set up, we of the church of Jesus Christ are determined to keep close together."

Dr. Chappell, who is to conduct devotional exercises each morning, based his talk to-day upon Acts iv, 31-32. His Scripture lesson, the latter part of this chapter, was not read, but given from memory.

"The great thing in our churches to-day," said the preacher, "is to be baptized anew with the Holy Spirit. Let St. Paul's words come into our churches to-day, as he did the little church at Ephesus, I am sure he would have said: 'Did you receive the Holy Ghost when you believed?'"

"When I go down to the post office and they tell me there is a letter for me, I have no better judgment than to reach out and take it. Here is this promise: 'I will come to you, and come to you He does, in the presence and power of the Holy Spirit.'"

"Did you ever see the Holy Ghost when you believed?"

"What you are doing here is to do it," said the preacher. "I will come to you, and come to you He does, in the presence and power of the Holy Spirit."

"Did you ever see the Holy Ghost when you believed?"

"What you are doing here is to do it," said the preacher. "I will come to you, and come to you He does, in the presence and power of the Holy Spirit."

COMES TO LONDON.

Radical Change in High School Course Expected to Produce Good Results.

ADD THREE SUBJECTS TO THE CURRICULUM. Night School Classes Will Be Continued—New Teachers For Staff.

Headmaster J. A. Dickinson, of the commercial department of the Technical School, to-day announced that a sufficient number of his pupils had been enrolled to insure that a third-year class in his department will be organized at the opening of the fall term. This marks a distinct departure in educational system in the city and is probably the first third-year commercial high school class to be announced in the province.

Mr. Dickinson also stated that the enrollment this year in the commercial section totals 190 pupils and that 50 will graduate within a few days.

Over 100 business houses in London, he stated, had their clerical staffs composed of graduates and that the number is growing. The young men and women turned out of the commercial high school classes are considered very efficient by employers, he stated, and the three-year course which will be in full swing next fall will guarantee the turning out of much more efficient graduates prepared to cope with the business problems of any office.

MORE TEACHERS. New teachers will have to be added to the commercial school staff, he pointed out, and one, at least, will be added for the fall term.

Three new subjects will be added to the commercial school curriculum. Economics, economic geography and comprehensive courses in arithmetic will be the ones composing this addition.

The headmaster pointed out, though, that brilliant students will be permitted to finish the high school commercial course in two years if they have the ability. Such pupils will be issued with certificates which will be known as "junior graduation certificates." Those who complete the three-year course will be issued with senior certificates of graduation.

Night school work will be emphasized as hitherto, which will put this form of professional training at the doors of all ambitious students.

Eventually, many educationalists hope, Western University will inaugurate a night school in higher commercial subjects. When that hope becomes a reality, it is believed that London will be the center of commercial education, both preparatory and collegiate, that will be second to none on the continent.

BRITISH IN PALESTINE MAY WITHELDRAW TROOPS

WASHINGTON, June 1.—The situation of the British forces in Mesopotamia was reported to-day in official circles to be increasingly unstable. According to the latest reports it was expected that the British were faced with the necessity either of withdrawing from the country or of adding reserves to the forces already there. One plan was reported to be under consideration by the British was a withdrawal to Basra and the organization of an Arab state there, under Emir Feisal.

Cash Box in Church Robbed

A new cash box in the board room of Lambeth, where London Methodist Conference is meeting this week, was prior to open between 11:30 and 12:30 a. m. last night. The board room is used as quarters for the conference and contains a conference post office and telephone station, and the money was taken in for stamps and postage. The cash box was found empty, and the money was taken in for stamps and postage. The cash box was found empty, and the money was taken in for stamps and postage.

THOUGHT HE WAS BEE AND PARKED HIMSELF IN CENTER OF FLOWER BED

Patrick Murphy Tells Court He Had Nothing In Him But Cramps.

A walk from Lambeth, an attack of "cramps" and fondness for flowers and an hallucination that he was a bee got Patrick Murphy into trouble early this morning. In consequence he is a tenant at the city jail with his "rent" bill amounting to \$30 and costs, is liquidated.

Patrick parked himself in the middle of a flower bed in Victoria Park early this morning. A police officer saw the visitor enjoying his siesta on "flowery beds of ease," and naturally started to take the census.

"What are you doing here?" asked the officer. "G'
