Points on Butter Making.

The old parish church at Windsor, N. S., was burned on the night of June 30th. This church was one of the oldest in the Dominion. It was built in 1788. The burial ground and church were consecrated in 1826. The funeral services of upwards of five thonsand people have been read within the old church's walls. For more than half a contury it was the university church of Kind's College. than half a century it was the university church of King's College. If you are a control of the "I was prostrated with a severe bilious "I was prostrated with a severe bilious cleanliness was next to godliness with

complaint," writes Erastus Southworth, of Butb, Me. "After vainly trying a number of remedies, I was finally induced to take Ayer's Pills. I had searcely taken two boxes when I was completely cured." elemniness was next to godimess with American house wives, and that their skill as butter makers had never been questioned till the "new-fangled" creameries came into vogue. Is it all prejudice then, or is into vogue. Is it all prejudice then, or is EVERY MAN

The twenty-fifth annual convention of the Y. M. C. Associations of the Maritime Provinces is to be held at Yarmouth on Tuesday, August 4th, closing Sunday, Aug-ust 7th. The executive have issued the cir-cular calling the meeting.

ular calling the meeting. .

cular calling the meeting. . ATTEMPTED SUICIDE.—A young negro named Langford, employed in Sauders' restaurant, Digby, attempted suicide by drowning last Friday afternoon near the steamboat pier. He is subject to fits, and infig. together with the news of the drown-ing of his brother in Weymouth river Wed-neaday afternoon, is the supposed cause. The will that is can be reviewed with profit many that it can be reviewed with profit many thoroughly understood by thousands of small dairymen who make butter at home. wages of 304 of this operatives. If general raged the workmen by making elaborate preparations to defend the works by armed horce and by throwing upon them scalding hot water through hose. An army of 4,600 hot water through hose. An army of 4,600 armed strikers was then organized at Homestead, who have surrounded the town in order to prevent mill operatives from coming in to take the place of the strikers. 200 Pinkerton detectives were gathered at Pittsburg and sent up the Monongahela Friver to Homestead to protect the works. The strikers drove them back by the use cannon and small arms with considerable loss of life on both sides. About dusk the officers of the amalga-mated association prevailed upon the strik-ers to allow the detectives to surrender. The detectives hoisted a white flag and the strikers guaranteed safe conduct to the

res to allow the detectives to surrender. The detectives provided they left their arms and ammunition behind and agreed to leave the place under guard. The detectives ac-cepted their terms. On the boats were found seven dead detectives and twenty or thirty wounded, some fatally. As the pris-oners were being conducted through the with clubs, knocked down and tramped detectives were fatally injured. The captured detectives were fatally lodged in the Opera House where they were kept over night: The strikers looted the barges, then set fire to them. As far as could be ascertained at midnight nine workmen and 18 detectives were killed. Besides the detectives injured in hastle at least 100 were seriously injured. The way to jail. The strikers looted the detectives injured on the way to jail. Do not consider that you are making a humiliating concession to let an instrument tell you what long experience has told you in the past. The wisest professional men are tied to the use of mechanical instru-rest, and particularly is this so in im-proved dairy work. Whether the churn you use is a wooden or stone one, do not be afraid of using an-terior after it has been thoroughly washed, and you could swear that it was clean. You cannot see bacteria with the naked eye, but you know that boiling water is in battle at least 100 were seriously injured in battle at least 100 were seriously injured. Ine British Medical Journal quotes some important remarks by a well known Ger-man physicians on the subject of the blood-lessness of girls at school. Dr. T. A. Reamy affirms that neglected cases of this class go from hed to worse and finedly die of upper from bad to worse, and finally die of tuber-cular consumption. This is an observation pect him to try to smell of every fence he which every experienced physician can wants to lean against or doorstep that he which every experienced physician can confirm from his personal knowledge. The whole question of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of girls is one eminently demanding investigation and complexity of the school life of the school li application of modern principles of hygiene. Reamy considers that the root of the diffi-it won't do! It—"

reamy considers that the root of the diffi-culty lies in the fact that girls at school do not inhale sufficient oxygen; in other words, they suffer, become delicate and die from "Look here!" broke in the proprietor. "When a man comes along and spoils an artistic piece of work like that—"

"Artistic nothing!" cried the stranger want of fresh air. By way of remedying this condition of things he proposes that there should be systematic deep in-"You have this coat cleaned, understand! You get some benzine and clean this coat,

halation for twenty minutes twice a day in a perfect pure outside atmosphere. The deep inspiration should be carried out with in the proprietor. "You fix up what the mouth closed and under intelligent you've ruined or I'll fix you."

I am now Prepared to Show at the supervision. It is stated that no other how on the paint pot, took out the known method of treatment more rapidly brush, and began a war dance around the improves the character of the blood. stranger.

Reamy, however, does not stop here; he insists that the patient shall leave school, give up all study and spend several hours a denied on " cried the latter in dismay, as he backed away. "I'll fix the fence if you'll fix the coat."

"I'll fix the coat!" exclaimed the proday in the open air. Most judicious advice. He goes further, and orders abundance of prietor, already beginning to gloat over his victory. "How are you going to fix my beefstake and milk. coat?"

SHADE AROUND HOUSES. - Neither fruit "Paint the rest of it," replied the pro-

nor ornamental trees should be grown so that their shade falls at all times on the house, shutting out the sunlight. It does down the street followed by the paint brush. not matter so much while the trees are small, but as they grow large they render sprinkled paint over the fence, the side-SEED OATS, BARLEY, Etc., the living rooms damp and unwholesome. Still on Sale. The tendency of vines especially to bury the proprietor returned with a revolver,

A new stock of that beautiful GLASS. WARE is just being opened at the Far. mer's Store. Call and bargain for it. I will serve you to your satisfaction, I am confident. J. R. E.

-Be careful, when cutting blooms of "Do you think you will like him, Besgladioluses, daffodils, tulips, and other bulbs, that none of the leaves are cut. "Why, yes," she said, clasping her hands
