MONEY MARKET.

P. D. Browne.

[1311] banks throughout Canada are well supplied with money, there being, through the inactivity of trade, but a very moderate demand for discounts.

Sterling Exchange has declined somewhat, and is now dull at 1031 for bank at 60 days sight or 75 days date No private offering.

Gold drafts on New York have been in fair demand at par to I per cent discount.

Gold in New York has been weak; fell to 1344, but again advanced to 1351, the closing quotation.

Silver is not abundant, but is not much wanted. Wo publish to-day Mr. Weir's second certificate of shipment, \$103,000 having now been exported.

The following are the latest quotations of Sterling Exchange, &c:-

THERE has been some improvement in business throughout the country since the last snow storm, which was general over Canada, and the formation of good snow roads, and there are hopes of a good trade being done before spring opens. The weather, however, is very mild, with indications of a thaw, and it will hardly be eafo to base calculations on a steady winter business.

Cotton has been slowly but steadily advancing in the Liverpool market, but there has not been a corresponding gain on manufactured goods, and unless the advance on the raw material should continue, we do not look for much higher figures for staples in the Canadian market.

THE GROCERY TRADE.

WE are unable to note any great improvement in the general tone of the general tone of the wholesale grocery trade, but there has been a little more doing in several articles, for which the present season usually causes increased consumption, and also in augars, the demand for which, however, is principally of a speculative character.

TEAS.-Young Hysons have been more saleable during the past week, and about 1 000 packages of various grades are reported as having changed hands, principally to Jobbers, terms not made public. Twankays are still in lemand, although buyers are hardly prepared at prant to meet the views of holders Imperials are very little enquired for, but are without any material change in price. Uncolored Japans have had some attention, and some few hundred half-chts stabout 45: to 50c. have been placed. Lower grades are wanted, but very few desirable samples are offering. Blacks without much enquiry, but prices un-

COFFEE -With the exception of the local trade for the city and the coffee mills, there has been very little doing, and there is no alteration in prices.

SCGARS.-The progress of the Cuban revolution, 's expected extension to the Cientuogos district, and teavy rains which have injured or endangered the crop in Cuba, have all tended to a rise in sugars,

a good deal of business in this line as the lenten season advances, and holders do not now seem anxious to force sales. Syrups are unaltered.

Figu.-Herrings have had a better enquiry. No. 1 Labrador are held firmly for \$5 25 to \$5 50 for barrels. Half barrels are still scarce, and command \$3 to \$3 25. Green Codfish is scarce. Held at 13 80 to \$4 25 in harrels and \$5.25 to \$6.60 in draft. Dry Cod has been very little asked for, prices ranging from \$4 to \$4 25.

FRUIT Is without much demand, and prices are unaltered.

RICE -The demand has been small, principally for the local trade, prices remaining as last given.

Spices-Are without enquiry.

SALT-Is inactive and lower; now offering at 90c for Liverpool Coarse. Fine is worth about the same money.

WINES AND LIQUORS.—The trade has been for some time, and still continues, exceedingly dull.

THE HARDWARE TRADE.

Crnthern & Caverhill. Fvans, John Henry. Ferrier & Co. Hall, Kay & Co.

Morland, Watson & Co. Mulholland & Baker. Robertson, Jaz.

THERE has been very little business doing during the past week. Prices generally are without any alteration. Tin Plates are, however, advanced 25c a box from our previous quotations, an advance of 3s per box having recently taken piece in the I iglish market, and stocks here being only limited.

MONTREAL PRODUCE MARKET.

Akın & Kirkpatrick. Crawford, James Dawes Brothers & Co.

Hobson, Thomas, & Co. Mitchell, R. M. Raphael, Thomas W.

LOUR-With heavy receipts, and a nominal demand, the market is weak and tending lower. Beyond a trifling retail enquiry, we are still without movement in the higher grades, rates of which though rather lower have not materially altered. The demand for Supers has been equally restricted, best Laker's brands are offered at \$4.90, but only taken to a very small extent, ordinary ranging down to \$4.80. The lower grades are practically nominal at quotetions, only occasional small transactions reported. Bags .- Supplies from the several sources are much in excess of the demand, and lower rates rule with transactions confined to mere retail parcels

OATMEAL .- Nothing of consequence doing and rates practically nominal.

WHEAT .- There are few sales to note, and even reduced quotations may to considered nominal.

PEASE -No recent transactions, former quotations may be repeated.

BARLEY .- No sales of consequence to report; a few small lots have been taken for consumptive use at about \$1.20.

Cons.—Quite neglected owing to adverse British advices; offered freely in store at 76c, but declined.

OATS .- Little beyond retail sales for city consumption can be noted, former nominal rates still rule.

PORK.-Holders continue firm at about \$27 for Mess and \$24 for Thin Mess. The demand is restricted to present consumptive wants.

Hogs.-Supply still within market wants, and prices rule from \$10, to \$10 25

LARD-Firm with fair consumptive demand at 17

TALLOW -Little doing, rates unchanged.

Burren.-Receipts continue large and stocks are still increasing. The lateness of the season and continued absence of demand, occasions considerable anxiety to the larger holders, who are more disposed to meet buyers than hitherto. There is still a deficiency meet buyers than hitherto. There is still a deficiency of good table butter, and for such former high rates are given, but a large proportion of the stock is such as nothing but netual scarcity will draw into consumption.

Ashes.—Both Pots and Pearls are in more limited demand and have partially given way closing at \$5.50 to \$5.55 for the former, and \$5.50 for the latter.

which has been sensibly felt in the New York markets, and an advance of fc obtained within a few days on ordinary grades. In this market, also, there has been more enquiry for grocery sugars, and a sale of some CO hinds on private terms is reported. Refer of some CO hinds on private terms is reported. Refer of some CO hinds on private terms is reported. Refer of some CO hinds on private terms is reported. Refer of some CO hinds on private terms is reported.
