

MONEY MARKET.

THERE is as yet no increased demand for money sufficient to absorb the funds which have accumulated in the banks, and ease is still the prevailing characteristic of the money market.

Sterling Exchange is slightly firmer, with transactions at 103½ to 103¾ for Bank Drafts on London at 60 days. There has also been a slight improvement in the New York market, prime bills being quoted at 103½.

Sight Exchange on New York, payable in gold is still wanted, and ½ per cent. premium has generally been paid.

Gold in New York has been less variable, the tendency being on the whole upward, closing at 133½. Greenbacks are dealt in at 73½ to 73¾. Bank Drafts on New York are quoted at 25½ to 26 per cent. discount.

Silver has become more abundant and has depreciated about ½ per cent., buyers now at 2½ to 2¾.

The following are the latest quotations of Sterling Exchange, &c:—

BUSINESS has been fairly active during the past week, and a considerable amount of goods have been placed. The demand for Cottons and seasonable Prints has been brisk, and stocks are being rapidly reduced, so that, though imports were believed to be fully up to what would be wanted by the country, if not in excess, there now appears to be little danger of any but a small surplus having to be carried over to next season. Woollen goods have had a moderate demand for both imported and Canadian, and are in ample supply.

In other lines, the business has been fair, stocks being generally well assorted.

THERE has been a fair business done in general groceries during the past week, with no special changes to note. Prices are firm, and almost entirely unchanged, with the exception of some grades of Refined Sugars which have been advanced 1c., and Syrups 2c. per gallon.

BUSINESS has been done to a moderate extent during the past week. The number of buyers who have arrived in the city is not large as yet, but orders from travellers are coming in, in a satisfactory manner.

Pio IRON—Has had fair enquiry with transactions to the amount of probably a thousand tons at unchanged rates.

BAR IRON—Has been in demand selling steadily at current quotations, large offers at a slight reduction, having been refused.

HOOF AND BAND IRON—Are in only moderate request, and in round lots could only be sold at some reduction from quoted prices.

TIN PLATES—Have been in steady request, but prices remain as before noted.

CUT NAILS—Are without noticeable activity.

MONTREAL PRODUCE MARKET.

Allen & Kirkpatrick.
Dawson Brothers & Co.

Mitchell, Robt.

LOUR.—Receipts have been liberal, and, in the absence of shipping demand, prices have steadily receded, sales being chiefly confined to single hundreds for local use. Strong Supers, from scarcity, have maintained their former value, but ordinary have declined, closing at \$1.35 to \$5. Latest sales of Welland Canal have also been at \$1.35 to \$5, and of Western State Supers at \$4.90. Extras, from scarcity, maintained a relatively high value, broken lots changing hands at \$5.55 to \$5.70. Fancies in sympathy with Supers, declined, closing quiet, with drooping tendency, at \$5.25 to \$5.50. Little business to note in No. 2 or lower grades. No. 2 latterly sold at \$1.65 to \$1.70. Finest about \$4.40. Middlings and Pollards are nominal at former rates. Bags, though in fair demand, have declined in corresponding proportion to Supers. Secondary qualities have sold at \$2.25, but choice would still command \$2.45. No change to note in Oatmeal, demand confined to city retail.

GRAIN.—Wheat—U. C. Spring is scarce, and if on the spot, would command ready sale at \$1.15 to \$1.16; but buyers anticipating lower prices once supplies begin to improve, cannot be induced to operate for forward delivery. Sundry parcels of Red Winter pressed at \$1.15, without engaging attention. A recent sale reported of a carload lot on private terms, supposed to be \$1.12½. No recent transactions in Western; rates purely nominal. Oats, from scarcity, have continued to sell in broken lots at \$1, but views of buyers are not over about 85c to 90c, and it is supposed, as supplies improve, rates will recede to these figures. Little done in coarse grains. Small sales of Barley at about 70c to 75c. Oats sell by retail at 40c to 42c, according to quality, but rates are only maintained by scarcity of old.

PROVISIONS.—Pork generally unchanged. Former extreme rates maintained by scarcity. Nothing doing in Cut Meats worth noting. Lard continues to sell in a retail way at former rates. Butter has met an active demand, and all desirable parcels have been taken at from 18c. to 19½c., with 18c. paid for strictly choice, and occasional sales reported as high as 20c for Eastern Townships. These prices, however, being considered speculative, some buyers have withdrawn, and should supplies improve, a reaction may be looked for. Cheese continues active at 11c to 12c, according to quality.

ASKES.—Pots have suffered some decline, closing quiet at \$5.60 to \$5.65; occasional sales made at \$5.55. Pearls are in fair demand at \$5.65 to \$5.67½.

The industrial production of Saxony in 1863 was larger and healthier than that of 1857. There were symptoms of recovery in every branch of business, and it may be expected that we have seen the worst of the depression of past years. A middling harvest, followed by a decline in the price of breadstuffs, increased the consuming power of the population. Redundant stocks were reduced so as to give a new impulse to languishing manufacturers. To replace the market of the United States, which has become contracted for German manufacturers by high duties on cottons and woollens, new markets were opened up in Asia, and money was freely subscribed to facilitate intercourse by railway with European countries and the Levant.
