A NOTED BUT UNTITLED WOMAN.
(From the Boston Globe.)

Mrs. Pinkham's
The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.
On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhoea, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Bloodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."
It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.
It costs only \$1. per bottle or six for \$5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.
For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.
"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliouness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity."
All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Scientific and Useful.

WATER ICE.—One cup of loaf sugar with the juice of six lemons squeezed over it, half a pint of water, and a syrup made by boiling three-quarters of a pound of sugar in a little less than a pint of water; let this stand in a large earthen jar or dish for an hour and a half, then mix the lemon, etc., with it, strain it and freeze. If you wish to make this a pretty dish as well as pleasing to the taste, add the whites of eggs beaten to a froth with powdered sugar mixed with them; put this on the top of each glass.

KISSES.—Whites of six eggs, one pound of pulverized sugar, one drop of rose oil; put the sugar in the dish first, and drop the whites of eggs (unbeaten) upon it; beat them together thoroughly for two hours; drop on tins with a teaspoon, turning spoon round and round until the cakes are very high and end in a point; this will give them a fluted appearance; when baked and still hot, stick two of them together, using a little white of egg in necessary; lay them very carefully upon an inverted sieve to cool; they may also be squeezed through a meringue bag like lady-fingers, or they may be dropped in smooth round cakes.

COOKIES.—Take one cup of butter and two cups of sugar and beat them together "with fury," as the French cook said; stir together two tablespoonfuls of milk and a cupful of flour, with which a teaspoonful of baking powder has been mixed. Beat up four eggs, and add them to the flour and milk, beat in the butter and sugar, and add enough flour to make a dough that can be rolled. Bake on a sheet of iron rather than in a pan, for the temptation to crowd a pan is almost irresistible, and a cookie with one straight edge, although it may taste quite as well as if it were round, does not look as well. The children would not thing that it tasted as well, either.

DEVILLED MUTTONS.—Cold mutton cannot be accused of being rich or unwholesome, but its warmest defender will not say that it is tempting as food. To make an agreeable breakfast or luncheon dish of it, melt two tablespoonfuls of butter and one of curant jelly in a frying pan, and heat the mutton in the mixture, turning it frequently prevent crisping, when it is thoroughly hot, lay it in a hot-covered dish set over boiling water; add three tablespoonfuls of vinegar, a small spoonful of mustard, a quarter of a spoonful of salt, and an eighth of a spoonful of pepper to the mixture in the pan, and when it boils, pour it over the meat and serve in three or four minutes. Even mutton will seem hot under this treatment.

LOBSTER FRITTERS.—To make them, cut the meat of a cold boiled lobster into dice and mix the lobster fat with it; add three-quarters of a cupful of mushrooms cut into dice; season this mixture with celery salt and cayenne pepper; put a piece of butter half the size of an egg into a saucepan, and when it bubbles stir in a tablespoonful of flour; let the flour cook a little, then add a cupful of cream and some finely minced parsley; stir until the sauce thickens, then add the other ingredients, and stir well until they become scalding hot; remove from the fire and stir in the well beaten yolks of three eggs, spread this mixture an inch thick upon a buttered dish, and set it upon ice to become chilled; then cut it into small parallelograms, and roll them in fritter batter, or beaten eggs and bread crumbs; fry them in boiling lard.

A GREAT INSTITUTION.
The surgeons of the International Throat and Lung Institute, operating from their different offices, **Montreal, Toronto, Detroit, Mich., and Winnipeg, Man.,** are treating more patients suffering from Consumption, Bronchitis, Laryngitis, Pharyngitis, Asthma, Catarrh, Catarrhal Deafness, than any other institution in the world. We will treat no case we think incurable. We can help every case and cure the majority who do not take to treat if patients will strictly follow our directions. By the use of cold inhalations conveyed to the diseased parts by the spherometer the wonderful invention of Dr. M. Souvielle, of Paris, ex-aide surgeon of the French army, and other proper local and constitutional treatment, we are curing thousands of cases of the above named diseases every year. Write enclosing stamp for list of questions and copy of **International News**, published monthly, which will give you full information and reliable references.

"No lady of refinement likes to resort to superficial devices to supply a becoming semblance of her former beauty. It is health alone that kindles the fire that lights the countenance and brings back the fresh tints of the apple blossoms to the faded cheek. If anything on earth will do this it is Mrs. Lydia E. Pinkham's vegetable Compound, which has already brought health to multitudes with whom all other means had failed.

JOHN HAYS, Credit P.O., says: "His shoulder was so lame for nine months that he could not raise his hand to his head, but by the use of Dr. Thomas' Electric Oil the pain and lameness disappeared, and although three months have elapsed, he has not had an attack of it since."

"THREW AWAY HER SUPPORTER."
DR. PIERCE.—A neighbour of ours was suffering from "female weakness" which the doctors told her could not be cured without a supporter. Her considerable persuasion my wife induced her to try our "Favourite Prescription." After using one bottle she threw away the supporter and did a large washing, which she had not done in two years before.
