BRITISH DOMINION WINE.

Manufactured from the Best Canada Grapes without the use of either artificial coloring or distilled spirits in any form.

After repeated chemical analyses of the Wines made by Robert Bradford of No. 595 Parliament St., Toronto, I do not hesitate to pronounce them to be unsurpassed by any of the native Wines that have come under my observation.

Analyses show them to contain liberal amounts of the ethereal and saline elements, sugar and tannic acid etc., characteristic of true Wine and which modify materially the effects which would be produced by alcohol alone.

Retaining to a high degree the natural flavor of the grape, they serve the purpose of a pleasant table Wine as well as that of a most valuable medicinal Wine.

Keep Minard's Liniment in the House.

THIS CURIOUS THING

Is a Sweat or Excretory Gland. Its mouth is called a Pore. There are 7,000,000 in the human skin. Through them are discharged many impurities. To close them means death. Sluggish or clogged pores mean yellow, mothy skin, pimples, blotches, eczema. The blood becomes impure. Hence serious blood humors. Perfect action of the pores Means clear, wholesome skin, Means pure blood, Means beauty and health.

Cuticura Resolvent

Exerts a peculiar, purifying action upon the skin, and through it upon the blood. Hence its cures of distressing humors are speedy, permanent and economical. Like all of the CUTICURAS, it is pure, sweet, gentle, and effective. Mothers are its warmest friends.

MAGNIFIED. Sold everywhere. Price, \$1.50 POTTER DRUG & CHEM. CO., Sole Props., Boston.

Unwritten Law in the Best Society

HEALTH AND HOUSEHOLD HINTS.

All rugs, when shaken, should be handled by the middle, not by the ends.

When the gills of a fish are of bright color and the eyes appear clear it is generally fresh.

Pole rings can be made to run easily by rubbing the pole with kerosene until thoroughly smooth.

Stewed prunes with whipped cream make a delicious dessert. The pits should be removed before serving.

Cocoonut Puffs.—Two cups of cocoonut, one cup of powdered sugar, two tablespoons of flour or cornstarch, whites of two eggs. Drop in buttered tins and bake quickly.

Odd tea caddies, Dresden china celery dips and individual salts and peppers in cut glass, mounted in sterling silver gilt, are among the new appointments for the tea and lunch table.

Eyes that are tired from loss of sleep, overuse or travelling can be refreshed by being covered half an hour with a linen cloth lifted out of water as hot as can be borne and laid dripping over the lids.

For shampooing the hair nothing is better than plenty of tar soap and hot water. It is better than castile even, and makes a fine, soft lather. A little borax or a tablespoonful of ammonia in the water is also good for oily hair, but too much of either turns the hair gray.

To make a paste superior to the common kind of mucilage, which will not discolor paper, mix rice flour thoroughly with cold water, and then gently boil it. It is white and transparent. This is excellent for pasting clippings in books. A little carbolic acid will keep it from souring or moulding.

Earache.—Take five parts of camphorated chloral, thirty parts of glycerine, and ten parts of oil of sweet almonds. A piece of cotton is saturated and introduced well into the ear, and it is also rubbed behind the ear. The pain is relieved as if by magic, and if there is inflammation it often subsides quickly.

Graham Gems, Puffs.—Sift the flour (one quart), holding the sifter at least two feet from the dish. Pour from same height one quart of milk. Whip two eggs, mix quickly, add a pinch of salt, have pans as hot as possible and well buttered, bake in a quick oven. If these directions are followed exactly, the puffs will be delicious.

Currant Cookies.—Two cupfuls of sugar, two eggs, one cupful of butter (or half of each butter and lard), one teaspoonful of soda dissolved in a half-teacupful of hot water (or sweet milk if you have it), one teaspoonful each of cinnamon and cloves and one grated nutmeg, one cupful of currants, and flour enough to mix soft. After rolling out, sprinkle well with sugar, and cut any shape desired.

Potato Yeast.—Mash five or six boiled potatoes while hot with half a teacupful of flour, add boiling water till it becomes a batter, put in a tablespoonful of sugar and one of salt. When lukewarm, add half a teacupful of yeast, let it stand behind the stove till it begins to ferment, then cork tightly and set in a cool place. Half a teacupful is sufficient to raise four or five loaves. To make yeast from the start, mix together a tablespoonful each of flour, molasses, and water, let it stand in a warm place a day or two, and use for raising the potato yeast above given.

Banana Jelly.—Soak one ounce of gelatine in half a pint of cold water ten minutes; add to this a full pint of boiling water, the juice of two lemons and half a pint of granulated sugar. Stir well together and strain through a jelly-bag or fine wire strainer. Pour an inch deep in a mould, add a few slices of bananas, and set in the refrigerator until it hardens, keeping the remainder in a warm place. As soon as the first stiffens, put another layer of bananas and jelly, again setting away to harden until all is used. This makes a slightly dish when served with whipped cream around the base.

DO YOU KNOW

That a few pieces of beeswax put up with silk or woollen goods prevent them turning yellow?

That the herb tansy is a sure preventive of moths?

That sweet clover has the reputation of being abhorred by flies?

That the best way to polish window glass is with a piece of chamois?

That ammonia will clean and brighten carpets?

That flowers keep longer if cut with a knife and scissors than they do if picked?

That a pinch of cream of tartar put in with the whites of eggs when being beaten will make them stiffer?

The articles of plate which are not in daily use should be put away in green baize?

That common dry salt cleans marble thoroughly without injuring the surface?

That white of egg will remove a fishbone from the throat if beaten and given at once.

Look Around

and see the women who are using Pearline. It's easy to pick them out. They're brighter, fresher, more cheerful than the women who have spent twice as much time in the rub, rub, rub, of the old way. Why shouldn't they be? Washing with Pearline is easy.

And look at the clothes that are washed with Pearline. They're brighter, and fresher, too. They haven't been rubbed to pieces on the wash-board. They may be old, but they don't show it. For clothes washed with Pearline last longer.

Beware Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline" IT'S FALSE Pearline never peddled, and if your grocer sends you some thing in place of Pearline, do the honest thing and ask for 317 JAMES PVLE, New York

DYSPEPSIA CURED BY B.B.B.

MR. GEO. READ.

Read the Proof.

DEAR SIRS—I write you to say that for some time I had been suffering from acute indigestion or dyspepsia, and of course felt very great inconvenience from same in my general business. I thereupon decided to try Burdock Blood Bitters, and after taking two bottles I found I was quite another man, for B.B.B. entirely cured me. I have also used it for my wife and family and have found it the best thing they can take, and from past experience I have every pleasure in strongly recommending B.B.B. to all my friends.

I write you because I think that it should be generally known what B.B.B. can accomplish in cases of indigestion.

Yours faithfully,
GEORGE READ,
Sherbrooke, Que.

Experience has Proved It.

A triumph in medicine was attained when experience proved that Scott's Emulsion would not only stop the progress of Pulmonary Consumption, but by its continued use health and vigour could be fully restored.

Mr. Gladstone, in addition to \$500,000 left him by his father, has a rent roll of the Hawarden estate, which came into the possession of his wife on the death of the last male Glyne. Mr. Gladstone's annual income is \$125,000.
