## Large Tract of Timber In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Com-  
pany of Haliburton, (Limited.)

This company has a large tract of well timbered  
land about 125 miles north-east of Toronto.  
There are large quantities of Cedar, Hemlock,  
Spruce, Balsam, Basswood, Cherry, Birch,  
Maple, also considerable Pine, Elm and Ash on  
this tract. It is well served by two railroads,  
one of which is about to be extended through the  
centre of the property. The Company are pre-  
pared to sell this timber in blocks ranging from  
5,000 to 20,000 acres, or more if desired.

There are several good mill sites on the prop-  
erty. This would be a good opportunity for  
parties who are at present cut out and looking  
for a new location.  
Maps and plans and further particulars can be  
had by applying to

W. H. LOCKHART GORDON,  
Managing Director,  
157 Bay Street, Toronto.

Gagnon & L'Heureux have registered  
partnership as shingle manufacturers at  
Coaticook, Que.

### CURRENT TRADE CONDITIONS.

ONTARIO.

"There would be a heavy movement of  
stock if we could secure the necessary  
cars. As it is, we are doing a fair trade  
and are constantly receiving orders for  
both immediate and future delivery." These  
remarks, by a Georgian Bay manufac-  
turer, express the condition of the trade  
generally. The situation is most favor-  
able from the point of demand, and  
prices are firm. Some manufacturers  
have further advanced the price of uppers  
and selects, the supply of which is very  
limited. Box lumber has been enquired  
for quite largely during the week, and  
lath and shingles have maintained the  
strength which they have recently shown;  
in fact, it is believed that higher prices  
for them will rule before long on account  
of the small quantity in the hands of  
manufacturers. Shipping by vessel is  
quite active. Large shipments were  
made last week from Parry Sound, Col-  
lingwood and other Georgian Bay points  
to the Eastern States. The loading of  
vessels has emphasized the scarcity of  
men for lumbering operations. Some  
concerns have found it necessary to close  
down their mills in order to get a suffi-  
cient number of men to load the vessels.  
The enforcement of the regulations for

the prevention of smallpox is inter-  
fering with work in the woods, as some  
men will not submit to the regulations so  
long as they can go to other camps where  
they are not imposed. It seems neces-  
sary to take steps to enforce the general  
observance of the regulations. Alto-  
gether, the outlook for logging operations  
this winter is not favorable, and a light  
cut is predicted.

More inquiries are reported for hard-  
wood lumber, with maple and basswood  
leading in the improvement. Indications  
point to a more satisfactory trade during  
the winter months than was experienced  
in the summer.

### QUEBEC AND NEW BRUNSWICK.

The outlook for spruce lumber is grad-  
ually improving. Manufacturers on this  
side have learned with much satisfaction  
of the apparent turn of the tide in Great  
Britain. It is not probable, however,  
that the prospects of a good fair trade  
next year will cause manufacturers to in-  
crease their operations in the woods, as  
men are scarce and supplies high in  
price. A large trade has been done this  
year with the West Indies and South  
America. Lumber for the United States  
market is firm and moving moder-  
ately. Clapboards are selling \$1 higher  
than last week, \$32 to \$33 being the quo-  
tation for extra spruce, and \$30 to \$31 for  
clears. Cedar shingles are firm at \$3.10  
to \$3.20 for extras and \$2.75 to \$2.85 for  
clears, on Boston rate of freight.

### MANITOBA AND BRITISH COLUMBIA.

Railway construction in Manitoba and  
the Territories is providing a market for a  
large quantity of timber. Several jobbers  
have been given important contracts for  
ties and poles. Building lumber is mov-  
ing pretty freely. The value of buildings  
erected in the city of Winnipeg this year  
is expected to reach nearly \$2,000,000.  
Most of the buildings have now reached  
the stage where finishing lumber only is  
required. Men are wanted for railway  
construction and to work in lumber  
camps. Prosperous conditions prevail in  
the lumber trade of British Columbia.  
Several large shipments of lumber, pick-  
ets and laths have recently been made to  
Australia. The ship-building industry is  
consuming considerable lumber. The  
export of cedar and fir logs to the United  
States has been very heavy this fall, as  
there is a prospect that the legislation  
prohibiting the export of logs from the  
province will be put into force next  
spring.
