"Grip" Comments Thereon.

A leading journal of Manitoba, the COMMERCIAL, publishes the startling information that already 42,000,000 acres of the best land in Manitoba and the Territories have been granted to railways, aside from the vast area that has been handed over to other corporate monopolies and individuals. The COMMERCIAL demands that this policy of dissipating the public domain be stopped at once, and that steps be taken to get back as much of the land as possible. The editor seems to be laboring under the notion that man is a land animal, and that our great heritage in the West can never amount to much if landlordism is allowed to get in between the settler and the land. In our opinion he is not very far astray. Toronto, Grip.
