

must make room for them. In order to distinguish a doctor's car from those of other individuals, the police department has provided each physician with a sign about 5 inches square, bearing a red cross on a white field. These signs are put in a conspicuous place on the front of the machine and to the left.

Unsolicited testimonials regarding a certain product speaks well. For instance, Coca Cola, one of the various drinks for summer, is being used by many prominent physicians. This is not merely a beverage but a tonic, and a good one.

McGill's projected reunion of all graduates of the faculty of medicine throughout the continent has been postponed for a year owing to the death of King Edward. It was to have taken place at the convocation of June 6 and 7, and already over a hundred graduates had accepted to attend, while invitations had been sent broadcast and considerable expense incurred.

The license of the Elite theatre has been transferred from the name of H. J. Templehill to Dr. W. R. Coles, who recently purchased the show.

For the convenience of the many physicians who prescribe the "Blaud" capsules of "Frosst," which are manufactured in many combinations, the House of Frosst have issued a "Physicians Vest Pocket List" which is convenient, and may be carried easily in the vest pocket. If any physician has not received one, a post card addressed to Montreal will bring a copy.

Chas. Wood Fassett, M.D., St. Joseph, Mo., Secretary Medical Society of the Missouri Valley, says:

"I have used your excellent preparation of Metabolized Cod Liver Oil, and can testify to its efficiency as a general tonic and builder. In tubercular affections I have had exceptionally good results with your Metabolized Cod Liver Oil with Creosote and Gualacol."

The Waterbury Chemical Company of Des Moines, Iowa, and Toronto, Ontario, are holding open house at their Canadian laboratories at 34 Beverley street during the Canadian Medical Association meeting.

The Metabolized Cod Liver Oil manufactured by this company is having an unusual prescription development, on account of its results in tuberculosis. The company will be glad to send any physician, on request, any information regarding this product, also samples will be sent when desired.

In Dysmenorrhoea among individuals just entering on menstrual life, Ergoapiol (Smith) proves immeasurably more beneficial than such sedative agents as the bromids and viburnums, in that it exerts a marked and prolonged invigorating action on the entire reproductive apparatus.
