

"Good copper bottomed wash boilers, ma'am?"

"No, thank you! We use SURPRISE Soap here without boiling or scalding the clothes, and don't require a wash boiler. No one who uses SURPRISE Soap according to the directions on the wrapper has any need of a wash boiler. It isn't half the work to wash with SURPRISE Soap that it was when we used the wash boiler, and we now have much whiter, sweeter and cleaner clothes. No, we prefer SURPRISE Soap to a wash boiler."

**SURPRISE Soap is for sale by all Grocers in Canada.**
