Wool.—The market rules very firm in all lines, with a scarcity of imported wools. The demand is fairly active. We quote:—Cape 18½ to 21c. and hard to get at that; Domestic, A super, 29 to 30c.; B super 24 to 25c.; unassorted, 22 to 23c.; fleece, 22 to 24c.; black, 2 to 23c. Australian none.

## BRITISH MARKETS.

Henderson & Glass, Liverpool, G. Kay, Montreal, agent, report as follows in their circular of 14th September:

Iron.—There is no improvement to note in finished iron which still remains in a very inanimate state, but with steady prices. Tin.—Prices very strongly maintained, as stocks are within narrow compass. Tin Plates.—The recent reduction in prices of Steel Bars caused a drop in values to the extent of fully 3d. per box, but the market is now steadier. A fair fall business is anticipated. Stocks have increased lately. Copper is firm, especially for sheet, which is £1 per ton dearer than a month ago. Pig Lead has not varied in value for weeks past, and smelters maintain late rates firmly. Linseed Oil.—The London market still continues below ours. Closes steady at our quotations.

Freights.—From Liverpool to Montreal, by the regular s.s. lines, are as follows:—On finished Iron and Tinplates 12/6 and 10% per

ton; Galvanized Iron and Pig Lead 10/- and 10% per ton; Linseed Oil 17/6 and 10% per ton gross. To Toronto and Hamilton (Ont.), 20/- and 10%; Guelph or London 22/- per ton, and 10% for ordinary weight. To Halifax.—On ordinary weight 12/6 and 10% per ton, To St. John, N.B.—On ordinary weight, via Halifax, 17/6 and 10% per ton. To St. John, N.B.—On ordinary weight, via Boston, 15/- per ton.

Messrs. J. Lewenz and Hauser Bros.' Tea Letter, dated London, Sept. 24th, '86, says:—Most of the business that has passed this week outside the auction rooms has been for export, the transactions being chiefly in second crop Blackleaf teas, the lower prices of which have brought orders from Russia. At auction the number of forced sales has been large and the easier tendency of all the lower sorts of Congous again apparent; but also fine teas of which some very attractive Ningchows and Paklums were printed, suffered a further decline in values, the former selling at from 11d. to 1/1d.—a drop of 1 to 2d. since last month—and the latter at 1/1d. to 1/2½d., which is also about 2d. less than would have been obtained for the teas, in the private market, only some two or three weeks back.

The public sales for the week sum up as under:—China Teas: total 48,289 packages, comprising 37,241 Congou and Souchong, 10,518 scented teas and 530 Oolong. Indian teas: total 31,520 packages, including 1,143 Ceylon and 103 Java tea.

The fresh arrivals of green teas came in too late to be offered at this week's public sales. Scented teas were fairly steady except common Canton Capers which sold again rather cheaper.

## THE ANTHONY STEEL PLATE FURNACE.

Marks a new era in the sanitary warming of our houses. The objections that have heretofore been urged against hot-air furnaces are entirely overcome in this apparatus. The vital point of superiority consists in covering the entire fire chamber and flues by an impervious drum of heavy steel plate, securely riveted. By this arrangement the escape or leakage of gases is an impossibility, while, by the system of flues used, the maximum quantity of heat is secured.

The construction and sanitary application of this furnace is fully described in our new 52-page book, entitled "OUR HOMES; HOW TO HEAT AND VENTILATE THEM." This book will be mailed free to any one on application.

## THE ANTHONY FURNACE

Is endorsed by the leading architects of Boston and other New England cities as being the highest development of the sanitary idea yet attained in a furnace. Those who value the ultimate health and comfort of their families will be careful that they breathe pure air during the winter months. Our system of heating and ventilation secures air that is absolutely free from gas and at the proper temperature for respiration.
